Chineseness in Chile Maria Montt Strabucchi,Carol Chan,María Elvira Ríos,2022-12-30 This book explores the role of Chineseness or lo chino in the production of Chilean national identity. It does so by discussing the many voices, images, and intentions of diverse actors who contribute to stereotyping or problematizing Chineseness in Chile. The authors argue that in general, representing and perceiving China or Chineseness as the Other is part of a broader cultural and political strategy for various stakeholders to articulate Chile as either a Western country or one that is becoming-Western. The authors trace the evolution of the symbolic role that China and Chineseness play in defining racial, gendered, and class aspects of Chilean national social imaginary. In doing so, they challenge a common idea that Chineseness is a stable signifier and the simplistic perception of the ethnic Chinese as the unassimilable foreigner within the nation. In response, the authors call for a postmigrant approach to understanding identities and Chilean society beyond stubborn Orient-

Occident and us-them dichotomies.

Informal Entrepreneurship and Cross-Border Trade between Zimbabwe and South Africa Chikanda,

Abel, Tawodzera, Godfrey, 2017-02-10 Zimbabwe has witnessed the rapid expansion of informal cross-border trading (ICBT) with neighbouring countries over the past two decades. Beginning in the mid-1990s when the country embarked on its Economic Structural Adjustment Programme (ESAP), a large number of people were forced into informal employment through worsening economic conditions and the decline in formal sector jobs.

Infectious Diseases P.D. Welsby, 2012-12-06

Traditionally only those physicians with many years of experience in a particular speciality chose to commit their accumulated knowledge to print for general consumption. Although of relatively tender years I can remember and sympathize with the problems of learning the 'Infectious Disease Trade' as a medical student and later as a junior hospital doctor. This book is an attempt to journey through and remedy my ignorance-in retrospect. I have thus attempted to provide an unashamedly clinical introduction to Infectious Diseases which is of particular interest and use to medical students and junior hospital staff, especially those about to enter General Practice. I hope I have succeeded. Suggested further reading Christie, A. B. (1974). *Infectious Diseases: Epidemiology and Clinical Practice*. (Edinburgh: Churchill Livingstone) Hoeprich, P. D. Africa's Soft Power Oluwaseun Tella, 2021-05-23 This book investigates the ways in which soft power is used by African countries to help drive global influence. Selecting four of the countries most associated with soft power across the continent, this book delves into the currencies of soft power across the region: from South Africa's progressive constitution and expanding multinational corporations, to Nigeria's Nollywood film industry and Technical Aid Corps (TAC) scheme, Kenya's sport diplomacy, fashion and tourism industries, and finally Egypt's Pan-Arabism and its reputation as the cradle of civilisation. The book asks how soft power is wielded by these countries and what constraints and contradictions they encounter. Understandings of soft power have typically been driven by Western scholars, but throughout this book, Oluwaseun Tella aims to Africanise our understanding of soft power, drawing on prominent African philosophies, including Nigeria's Omolúwàbí, South Africa's Ubuntu, Kenya's Harambee, and Egypt's Pharaonism. This book will be of interest to researchers from across political science, international relations, cultural studies, foreign policy and African Studies. Tourism and Degrowth Robert Fletcher, Ivan Murray Mas, Asunción Blanco Romero, Macià Blázquez-Salom, 2020-06-29 Tourism and Degrowth develops a conceptual framework and research agenda for exploring

the relationship between tourism and degrowth. Rapid and uneven expansion of tourism as a response to the 2008 economic crisis has proceeded in parallel with the rise of social discontent concerning so-called overtourism. Meanwhile, despite decades of concerted global effort to achieve sustainable development, socioecological conflicts and inequality have rarely reversed, but in fact increased in many places. Degrowth, understood as both social theory and social movement, has emerged within the context of this global crisis. However, thus far the vibrant degrowth discussion has yet to engage systematically with the tourism industry in particular, while, by the same token, tourism research has largely neglected explicit discussion of degrowth. This volume brings the two discussions together to interrogate their complementarity. Identifying a growth imperative in the basic structure of the capitalist economy, the contributors contend that mounting critique of overtourism can be understood as a structural response to the ravages of capitalist development more broadly. Debate concerning overtourism thus offers a valuable opportunity to re-politicise discussion of tourism development generally. Exploring of the potential for degrowth to facilitate a truly sustainable tourism, *Tourism and Degrowth* will be of great interest to scholars of tourism, environmental sustainability and development. The chapters were originally published as a special issue of the *Journal of Sustainable Tourism*.

The Independence of the Judiciary in Namibia
Nico Horn,Anton Bösl,2008 The book gives an account of the independence of judiciary in Namibia.

Ars amatoria Ovid,1989 Ovid's *Ars Amatoria* has met with astonishingly varied fortunes down the centuries. Ten years after publication the book became a reason, or more probably a pretext, for the author's banishment from Rome. It was removed from public libraries, and more recently the poem suffered a virtual embargo in schools and universities. This is the first detailed English commentary on any part of the poem. Examined afresh, it emerges as the wittiest of Ovid's love poems, turning upside down the attitudes and conventions of orthodox love elegy. The work is full of psychological insight and is richly embroidered with details of contemporary Roman social and political life. This new paperback edition intends to bring out the spirit of provocative frivolity which was undeniably meant to irritate Roman traditionalists. The text of Kenney's Oxford Classical Text is reproduced and supplemented with a full introduction to the style and historical background the poem, as well as with a full commentary and appendices.

Refugees in Higher Education Jana Berg,Michael Grüttner,Bernhard Streitwieser,2021-07-20 This edited volume addresses critical issues surrounding higher education access for students of refugee backgrounds. It

combines a variety of theoretical and methodological perspectives on the challenges, opportunities, experiences and expectations of refugee students, as well as some of the institutional frameworks that facilitate their access to higher education. Following a critical discussion of the notion of 'integration', the team of authors who are made up of academics and refugee students critically investigate higher education as an objective of as well as a means to greater inclusion and integration.

The Social Psychology of Collective Victimhood

Johanna Ray Vollhardt, 2020 This book provides an overview of current social psychological scholarship on collective victimhood. Drawing on different contexts of collective victimization-such as due to genocide, war, ethnic or religious conflict, racism, colonization, Islamophobia, the caste system, and other forms of direct and structural collective violence-this edited volume presents theoretical ideas and empirical findings concerning the psychological experience of being targeted by collective violence in the past or present. Specifically, the book addresses questions such as: How are experiences of collective victimization passed down in groups and understood by those who did not experience the violence personally? How do people cope with and make sense of collective victimization of their group? How do the different perceptions of collective victimization feed into positive versus hostile relations with other groups? How does group-based power shape these processes? Who is included in or excluded from the category of victims, and what are the psychological consequences of such denial versus acknowledgment? Which individual psychological processes such as needs or personality traits shape people's responses to collective victimization? What are the ethical challenges of researching collective victimization,

especially when these experiences are recent and/or politically contested? This edited volume offers different theoretical perspectives on these questions, and shows the importance of examining both individual and structural influences on the psychological experience of collective victimhood-including attention to power structures, history, and other aspects of the social and political context that help explain the diversity in experiences of and responses to collective victimization--

Learning to live in a new Country - everyday social integration: Civil society and integration - Nordic rural perspective Karlsdóttir, Anna, Sigurjónsdóttir, Hjördís Rut, Heleniak, Timothy, Cuadrado, Alex, 2020-06-16 Online publication: <https://pub.norden.org/nord2020-036/> Abstract [en] In this paper we focus on three of the main ways civil society can play a role in the integration of refugees and immigrants. The leading question we seek to answer is as follows. Are the ways in which civil society engages different in rural areas and in smaller communities around the Nordic Region, as compared with urban areas and large cities? We use evidence from interviews and transcripts with migration workers as our starting point. We then focus on the role of a) religious communities and aid organisations, b) sport organisations and clubs, c) pop-up activism and mentorship programmes from available literature and from Nordic seminars and dialogue. We will also focus on partnerships and forms of coordination between civil society organisations, municipalities and regions.

Rural Isolation and Dual Cultural Existence David K. Abe, 2017-07-19 This book studies the Japanese-American coffee farmers in Kona, Hawaii. Specifically, it sheds light on the role of first and second generation immigrants in the emergence of the Kona coffee agricultural economy, as

well as factors that contributed to the creation of the Japanese community in Kona. The people there have survived much turmoil, including harsh treatment on the sugar plantations, economic instability, Pearl Harbor and racial stigma, and ethnic and religious identity crises. Despite these challenges, the pillars of the Japanese coffee community have remained stable.
