YAHTZEE Scratch and Play to Go! Tom Verhoeff, Peter Gordon, 2009-05 No more dice to lose, and it can go anywhere: everybody's a winner with this addictive new book! Just as with Hasbro's real YAHTZEE game, players get to roll five dice three times to find their highest score. But instead of throwing actual dice, they scratch them off the page, lottery-style and keep only the dice they want as they go for better combinations with their remaining rolls. With multiple copies of the book, readers can stage head-to-head competitions. And for extra fun, players can compare their score with the author's, with the score obtained using perfect strategy, and with the best possible score you could get if you had x-ray vision. -Hasbro's popular game meets our own best-selling Scratch & Solve series for assured success- Today, more than 50 million YAHTZEE games are sold annually- Written by one of the most esteemed puzzle creators around, a championship winner and bestselling author whose work has appeared in America's top newspapers- This easy-to-play and portable version of YAHTZEE can go anywhere, and be enjoyed solo: it's perfect for trips, commutes, or whenever there are a few minutes to spare

Advantage Yahtzee Olaf Vancura, 2010 Hasbro's dice game YAHTZEE sells some 50 million copies every year, thanks to a winning combination of simple rules, competitive scoring, and modest price. But until now, most players relied on dumb luck in their quest for victory. Advantage YAHTZEE provides a surefire winning edge: an original strategy developed by an expert on game theory that virtually guarantees a high score, yet is simple and straightforward enough for the average player to use on every roll. There are millions of fiercely devoted YAHTZEE players out there, and this is the game-beating system they've been waiting for.

Mogworld Yahtzee Croshaw, 2018-05-29 In a world full to bursting with would-be heroes, Jim couldn't be less interested in saving the day. His fireballs fizzle. He's awfully grumpy. Plus, he's been dead for about sixty years. When a renegade necromancer wrenches him from eternal slumber and into a world gone terribly, bizarrely wrong, all Jim wants is to find a way to die properly, once and for all. On his side, he's got a few shambling corpses, an inept thief, and a powerful death wish. But he's up against tough odds: angry mobs of adventurers, a body falling apart at the seams — and a team of programmers racing a deadline to hammer out the last few bugs in their AI. *Mogworld is the debut novel from video-game icon Yahtzee Croshaw (Zero Punctuation)! With an exclusive one-chapter preview of Yahtzee Croshaw's next novel, Jam—coming to bookstores in October 2012! *Ben Yahtzee Croshaw's video review site, Zero Punctuation, receives over 2,500,000 unique hits a month, and has been licensed by G4 Television. *Yahtzee's blog receives about 150,000 hits per day. The first legitimate breakout hit from the gaming community in recent memory. -Boing Boing

Yahtzee Scratch and Play Peter Gordon, 2007-10 The Milton Bradley game of YAHTZEE, with its five dice and special score sheets, sold in the millions last year. Now experienced players and newcomers alike can enjoy the game anywhere (in a moving car, for instance), without worrying about losing any of the dice. It's an ingenious use of the scratch-off concept made familiar by lottery games, and which has made a big hit in books such as Scratch & Solve(R) Hangman. The object of YAHTZEE is to get high-ranking combinations of the dice, similar to poker hands. With this version, competitors roll by scratching. Using two copies of the book, readers can complete in exciting head-to-head competitions, where both players start each round with the same roll.

The objective of YAHTZEE is to get as many points as possible by rolling five dice and getting certain combinations of dice. The dice can be rolled up to three times in a turn to try to make various scoring combinations and dice must remain in the box. A game consists of thirteen rounds. After each round the player chooses which scoring category is to be used for that round. Once a category has been used in the game, it cannot be used again. The scoring categories have varying point values, some of which are fixed values and others for which the score depends on the value of the dice. A Yahtzee is five-of-a-kind and scores 50 points, the highest of any category. The winner is the player who scores the most points. In each turn a player may throw the dice up to three times. A player doesn't have to roll all five dice on the second and third throw of a round, he may put as many dice as he wants to the side and only throw the ones that don't have the numbers he's trying to get. For example, a player throws and gets 1,3,3,4,6. He decides he wants to try for the large straight, 1,2,3,4,5. So, he puts 1,3,4 to the side and only throws 3 and 6 again, hoping to get 2 and 5. In this game, you click on the dice you want to keep. They will be moved down and will not be thrown the next time you press the 'Roll Dice' button. If you decide after the second throw in a turn that you don't want to keep the same dice before the third throw then you can click them again and they will move back to the table and be thrown in the third throw. The Yahtzee scorecard contains 13 different category boxes and in each round, after the third roll, the player must choose one of these categories. The score entered in the box depends on how well the five dice match the scoring rule for the category. Details of the scoring rules for each category are given below. As an example, one of the categories is called Three of a Kind. The scoring rule for this category means that a player only scores if at least three of the five dice are the same value. The game is completed after 13 rounds by each player, with each of the 13 boxes filled. The total score is calculated by summing all thirteen boxes, together with any bonuses.
