Taken at Birth Jane Blasio, 2021-07-13 From the 1940s

through the 1960s, young pregnant women entered the front door of a clinic in a small North Georgia town. Sometimes their babies exited out the back, sold to northern couples who were desperate to hold a newborn in their arms. But these weren't adoptions--they were transactions. And one unethical doctor was exploiting other people's tragedies. Jane Blasio was one of those babies. At six, she learned she was adopted. At fourteen, she first saw her birth certificate, which led her to begin piecing together details of her past. Jane undertook a decades-long personal investigation to not only discover her own origins but identify and reunite other victims of the Hicks Clinic human trafficking scheme. Along the way she became an expert in illicit adoptions, serving as an investigator and telling her story on every major news network. *Taken at Birth* is the remarkable account of her tireless quest for truth, justice, and resolution. Perfect for book clubs, as well as those interested in inspirational stories of adoption, human trafficking, and true crime.

*A Serial Killer's Daughter* Kerri Rawson, 2019-01-29 What is it like to learn that your ordinary, loving father is a serial killer? In 2005, Kerri Rawson opened the door of her apartment to greet an FBI agent who shared the shocking news that her father had been

arrested for murdering ten people, including two children. That's also when she first learned that her father was the notorious serial killer known as BTK, a name he'd given himself that described the horrific way he committed his crimes: bind, torture, kill. As news of his capture spread, the city of Wichita celebrated the end of a thirty-one-year nightmare. For Kerri Rawson, another was just beginning. In the weeks and years that followed, Kerri was plunged into a black hole of horror and disbelief. The same man who had been a loving father, a devoted husband, church president, Boy Scout leader, and a public servant had been using their family as a cover for his heinous crimes since before she was born. Everything she had believed about her life had been a lie. Written with candor and extraordinary courage, *A Serial Killer's Daughter* is an unflinching exploration of life with one of America's most infamous killers and an astonishing tale of personal and spiritual transformation. For all who suffer from: unhealed wounds, the crippling effects of violence, betrayal, or anger, Kerri Rawson's story offers the hope of reclaiming sanity in the midst of madness, rebuilding a life in the shadow of death, and learning to forgive the unforgivable.

*The Procrastination Economy* Ethan Tussey, 2020-04-01 2018  
Outstanding Academic Title, given by Choice Magazine  
How mobile devices make our in-between moments valuable to media companies while also providing a sense of control and connection  
In moments of downtime – waiting for a friend to arrive or commuting to work – we pull out our phones for a few minutes of distraction. Just as television reoriented the way we think about living rooms, mobile devices have taken over the interstitial spaces of our everyday lives. Ethan Tussey argues that these in-between moments have created a procrastination economy, an opportunity for entertainment companies to create products, apps, platforms,

subscription services, micropayments, and interactive opportunities that can colonize our everyday lives. But as businesses commoditize our free time, and mobile devices become essential tools for promotion, branding and distribution, consumers are using these devices as a means of navigating public and private space. These devices are not just changing the way we spend and value our time, but also how we interact with others and transform our sense of the politics of space. By examining the four main locations of the procrastination economy—the workplace, the commute, the waiting room, and the “connected” living room—Ethan Tussey illuminates the relationship between the entertainment industry and the digitally empowered public.

**Confession of a Serial Killer** Katherine Ramsland, PhD, 2016-09-06 In 1974, Dennis Lynn Rader stalked and murdered a family of four in Wichita, Kansas. Since adolescence, he had read about serial killers and imagined becoming one. Soon after killing the family, he murdered a young woman and then another, until he had ten victims. He named himself B.T.K. (bind, torture, kill) and wrote notes that terrorized the city. He remained on the loose for thirty years. No one who knew him guessed his dark secret. He nearly got away with his crimes, but in 2004, he

began to play risky games with the police. He made a mistake. When he was arrested, Rader's family, friends, and coworkers were shocked to discover that B.T.K. had been among them, going to work, raising his children, and acting normal. This case stands out both for the brutal treatment of victims and for the ordinary public face that Rader, a church council president, had shown to the outside world. Through jailhouse visits, telephone calls, and written correspondence, Katherine Ramsland worked with Rader himself to analyze the layers of his psyche. Using his drawings, letters, interviews, and Rader's unique codes, she presents in meticulous detail the childhood roots and development of one man's motivation to stalk, torture, and kill. She reveals aspects of the dark motivations of this most famous of living serial killers that have never before been revealed. In this book Katherine Ramsland presents an intelligent, original, and rare glimpse into the making of a serial killer and the potential darkness that lives next door.

ShadowMan Ron Franscell, 2022-03-01 Mindhunter crossed with American Gothic. This chilling story has the ghostly unease of a nightmare.—Michael Cannell, author of Incendiary: The Psychiatrist, the Mad Bomber and the Invention of Criminal Profiling The pulse-pounding account of the first time in history that the FBI's Behavioral Science Unit created a psychological profile to catch a serial killer On June 25, 1973, a seven-year-old girl went missing from the Montana campground where her family was vacationing. Somebody had slit open the back of their tent and snatched her from under their noses. None of them saw or heard anything. Susie Jaeger had vanished into thin air, plucked by a shadow. The largest manhunt in Montana's history ensued, led by

the FBI. As days stretched into weeks, and weeks into months, Special Agent Pete Dunbar attended a workshop at FBI Headquarters in Quantico, Virginia, led by two agents who had hatched a radical new idea: What if criminals left a psychological trail that would lead us to them? Patrick Mullany, a trained psychologist, and Howard Teten, a veteran criminologist, had created the Behavioral Science Unit to explore this new voodoo they called “criminal profiling.” At Dunbar’s request, Mullany and Teten built the FBI’s first profile of an unknown subject: the UnSub who had snatched Susie Jaeger and, a few months later, a nineteen-year-old waitress. When a suspect was finally arrested, the profile fit him to a T...

#### **When a Killer Calls John E. Douglas,Mark**

Olshaker,2022-02-01 From John Douglas—the legendary FBI criminal profiler, #1 New York Times bestselling author, and inspiration for the Netflix show *Mindhunter*—comes a chilling

journey inside the mind and crimes of Larry Gene Bell, one of the most dangerous serial killers Douglas confronted, and the desperate effort to identify and catch him. On May 31, 1985, two days before her high school graduation, Shari Smith was abducted from the driveway of her family home in South Carolina. Based on the crime scene and the abductor's repeated and taunting calls to the family, law enforcement quickly realized they were dealing with a sophisticated and highly dangerous criminal. A letter arrived the next day entitled "Last Will & Testament," in which Shari, knowing she was to be murdered, wrote bravely and aching of her love for her parents, siblings, and boyfriend, saying that while they would miss her, she knew they would persevere through their faith. The abduction rocked her quiet town, triggering a massive manhunt and bringing in the FBI, which enlisted profiler John Douglas. A few days later, a phone call told the family where they could find Shari's body. Then nine-year-old Debra May Helmick was kidnapped from her yard, confirming the harsh realization that Smith's murder was no random act. A serial killer was evolving, and the only way to stop him would be to use the study of criminal behavior to anticipate his next move before he could kill again. Douglas devised a risky and emotionally fraught strategy to use

Shari's lookalike older sister Dawn as bait to draw out the unknown subject. Dawn and her parents courageously agreed. One of the most haunting investigations of Douglas's storied career, this case details how the eerily accurate profile he created—alongside his carefully crafted and stage-managed manipulation of the killer's psychology—combined with dedicated police work and cutting-edge forensic science to end a reign of criminal terror. As Shari's family took incredible personal risks to lure her killer from the shadows, Douglas and the FBI pushed criminal profiling to its limits, culminating in one of his most dramatic and effective confrontations with a sadistic and remorseless killer.

*Mad City* Michael Arntfield, 2017 A chilling, unflinching exploration of American crimes of the twentieth century and how one serial killer managed to slip through the cracks--until now.--

challenging job but nurse Louise Curtis loves it. She was newly qualified as an advanced clinical practitioner, responsible for life or death decisions about the patients she saw, when the unthinkable happened and the country was hit by the Covid-19 pandemic. The stress on the NHS was huge and for the first time in her life, the job was going to take a toll on Louise herself. In *A Nurse's Story* she describes what happened next, as the trickle of Covid patients became a flood. And just as tragically, staff in A&E were faced with the effects of lockdown on society. They worried about their regulars, now missing, and saw an increase in domestic abuse victims and suicide attempts as loneliness hit people hard.
