D. Buzzonetti

*Abarth* Andrea Sparrow, David Sparrow, 2006-03-18 Ninety colour photographs. Brief background history of the company. Full FIAT/Abarth story. Basic specification and statistics. Quotes, and interesting facts and feats. During the early 1950s, Abarth's business was booming in three main areas - custom-built racing cars, tuning/accessories, and modification of production cars.

**Fiat & Abarth 500 & 600** Malcolm Bobbitt, 2016-08-14 Available again after a long absence! Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby' Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

*Fiat 131 Abarth* Graham Robson, 2008-12-15 When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every

standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

*Abarth All the cars* Elvio Deganello, Arturo Rizzoli, 2009-08-15 There are names that alone express concepts, lifestyles and philosophies better than any lengthy explanation. That Abarth is one of these is a conviction by no means restricted to expert writers or specialist journalists. In the case of Abarth, perceived by enthusiasts as a synonym of performance, speed, agility and emotions, confirmation has been provided by the Fiat Group's extensive research ahead of the major relaunch of the Scorpion marque. Given the current situation, with the new Abarths returning to the road ready to "sting", it is an ideal time for this book that sets out to reconstruct the story that led to the birth of a legend. Subdivided model by model, the text is based on straightforward, effective descriptions, backed up by contemporary photos in black and white and color. The author has successfully illustrated the motivations that led Carlo Abarth to create something unique in the automotive world, at the cost of sacrifices, failures and disappointments such as the numerous custom models built in the early years. A story of cars capable of sparking great passions.

Clarke, 1993-06-01 This book covers the period Carlo Abarth started to produce his own cars until the liquidation of the company in 1971 when Fiat bought the rights to use the Abarth name and its famous Scorpion badge. 75 articles include the introduction of models, driving impressions and specification and performance data, also history of the factory and the racing cars. **Abarth Buyer's Guide** Peter Vack, 2003-04-01 Carlo Abarth was a performance tuning maestro. He created and modified the small displacement Italian cars of the times, adding his own tuned exhausts, cylinder heads and other components. The results were championship-winning racers and street cars. The

Abarth Buyer's Guide tells the story of all the Abarth cars, including the earliest Cisitalias, Fiats, Simcas, the Zagato and Bialbero cars, Porsche Abarth Carrera, Lancias, formula cars, record-setters and the sports racers. The book is built on an impressive archive of historical photographs, many of them rare original Abarth factory pictures. The detailed text chronicles the development history of Abarth, including specifications, restoration and authenticity notes, and the Buyer's Guide star investment ratings. Author Peter Vack is an Abarth enthusiast of long standing, and he writes of the cars with passion and experience. Over a period of 13 years, the Abarth Buyer's Guide has proven to be a very dependable and useful book for those interested in Abarth cars. Now in its third printing, it remains one of the best and most comprehensive Abarth books ever written. Of that we are proud. We hope that it will continue to encourage others to do further research and create enthusiasm for the restoration of all Abarths.
