**International Business Information** Ruth A. Pagell,Michael Halperin,1999  
Changes in the economy required business professionals and researchers to learn about new sources of information, as well as to expand their understanding of international business subjects. The sources, language, document coding, and definitions are different -- truly foreign. International Business Information was written to help business .....

**International Business Information** Michael Halperin,Ruth A. Pagell,2024-02-02 This newly updated and expanded edition of a reference bestseller is the only work available that guides business researchers and librarians to the most valuable sources for information on international business--and shows how to interpret and use that data. The authors discuss the best available resources and how to use them to find answers to a wide range of questions about international business. They also describe business practices in various regions and countries, the basics of international trade and finance, international business organizations, and relevant political departments and agencies. Many exhibits and tables are included, and the book's appendices include glossaries, checklists for evaluating sources, and sample disclosure documents.

*International Industrial Networks and Industrial Restructuring in Central and Eastern Europe* S. Radosevic,Bert M. Sadowski,2004-08-03 International Industrial Networks and Industrial Restructuring in Central and Eastern Europe analyses the role of international industrial networks in industrial restructuring and corporate growth in central Europe, Russia and Ukraine. It shows that two distinct patterns of international industrial integration – domestic vs. foreign led modernisations – have developed in these two regions which have significant effects on patterns of growth and integration of these economies. International Industrial Networks and Industrial Restructuring in Central and Eastern Europe is based on a number of industry and firm case studies which are analysed and interpreted within the current international business and political economy literature. The publication provides valuable insights to managers and policy-makers who are interested in understanding

different strategic options for business activity in Central and East European countries. For the academic reader, it offers a new perspective on international, industrial networks in which theories on strategic management and on industry restructuring and corporate growth are merged into a new view of growth and transformation process.
