Understanding David Foster Wallace Marshall Boswell, 2020-09-30 Since its publication in 2003, *Understanding David Foster Wallace* has served as an accessible introduction to the rich array of themes and formal innovations that have made Wallace's fiction so popular and influential. A seminal text in the burgeoning field of David Foster Wallace studies, the original edition of *Understanding David Foster Wallace* was nevertheless incomplete as it addressed only his first four works of fiction—namely the novels *The Broom of the System* and *Infinite Jest* and the story collections *Girl with Curious Hair* and *Brief Interviews with Hideous Men*. This revised edition adds two new chapters covering his final story collection, *Oblivion*, and his posthumous novel, *The Pale King*. Tracing Wallace's relationship to modernism and postmodernism, this volume provides close readings of all his major works of fiction. Although critics sometimes label Wallace a postmodern writer, Boswell argues that he should be regarded as the nervous leader of some still-unnamed (and perhaps unnamable) third wave of modernism. In charting a new direction for literary practice, Wallace does not seek to overturn postmodernism, nor does he call for a return to modernism. Rather his work moves resolutely forward while hoisting the baggage of modernism and postmodernism heavily, but respectfully, on its back. Like the books that serve as its primary subject, Boswell's study directly confronts such arcane issues as postmodernism, information theory, semiotics, the philosophy of Ludwig Wittgenstein, and poststructuralism, yet it does so in a way that is comprehensible to a wide and general readership—the very same readership that has enthusiastically embraced Wallace's challenging yet entertaining and redemptive fiction.

The Last Crime Ian Kennedy Martin,

The Ancient World in the Cinema Jon Solomon, 1978 This entertaining and useful book provides a comprehensive survey of films about the ancient world, from *The Last Days of Pompeii* to *Gladiator*. Jon Solomon catalogues, describes, and evaluates films set in ancient Greece and Rome, films about Greek and Roman history and mythology, films of the Old and New Testaments, films set in ancient Egypt, Babylon, and Persia, films of ancient tragedies, comic films set in the ancient world, and more. The book has been updated to include feature films and made-for-television movies produced in the past two decades. More than two hundred photographs illustrate both the films themselves and the ancient sources from which their imagery derives.

Reforming Hollywood William D. Romanowski, 2012-06-14 Religious Communication Association's Book of the Year Hollywood and Christianity often seem to be at war. Indeed, there is a long list of movies that have attracted religious condemnation, from *Gone with the Wind* with its notorious damn, to *The Life of Brian* and *The Last Temptation of Christ*. But the reality, writes William Romanowski, has been far more complicated—and remarkable. In *Reforming Hollywood*, Romanowski, a leading historian of popular culture, explores the long and varied efforts of Protestants to influence the film industry. He shows how a broad spectrum of religious forces have played a

role in Hollywood, from Presbyterians and Episcopalians to fundamentalists and evangelicals. Drawing on personal interviews and previously untouched sources, he describes how mainline church leaders lobbied filmmakers to promote the nation's moral health and, perhaps surprisingly, how they have by and large opposed government censorship, preferring instead self-regulation by both the industry and individual conscience. It is this human choice, noted one Protestant leader, that is the basis of our religion. Tensions with Catholics, too, have loomed large--many Protestant clergy feared the influence of the Legion of Decency more than Hollywood's corrupting power. Romanowski shows that the rise of the evangelical movement in the 1970s radically altered the picture, in contradictory ways. Even as born-again clergy denounced Hollywood elites, major studios noted the emergence of a lucrative evangelical market. 20th Century-Fox formed FoxFaith to go after the Passion dollar, and Disney took on evangelical Philip Anschutz as a partner to bring The Chronicles of Narnia to the big screen. William Romanowski is an award-winning commentator on the intersection of religion and popular culture. Reforming Hollywood is his most revealing, provocative, and groundbreaking work on this vital area of American society.

Horror Dogs Brian Patrick Duggan, 2023-07-31 How did beloved movie dogs become man-killers like Cujo and his cinematic pack-mates? For the first time, here is the fascinating history of canines in horror movies and why our best friends were (and are still) painted as malevolent. Stretching back into Classical mythology, treacherous hounds are found only sporadically in art and literature until the appearance of cinema's first horror dog, Sherlock Holmes' Hound of the Baskervilles. The story intensifies through World War II's K-9 Corps to the 1970s animal horror films, which broke social taboos about the good dog on screen and deliberately vilified certain breeds--sometimes even fluffy lapdogs. With behind-the-scenes insights from writers, directors, actors, and dog trainers, here are the flickering hounds of silent films through talkies and Technicolor, to the latest computer-generated brutes--the supernatural, rabid, laboratory-made, alien, feral, and trained killers. Cave Canem (Beware the Dog)--or as one seminal film warned, They're not pets anymore.

Apparitions, Daemons, and Emanations Charles Freeland, 2024-03-01 The book presents a new study of the visual arts and poetry in the work of three well-known French writers and artists from the mid-twentieth century—Georges Bataille, Pierre Klossowski, and Henri Michaux. Each was fiercely independent, belonging to no school, academy, or political persuasion. What do they have in common? While the book's three central essays do not initially set out to establish comparisons between these writers, common ground emerges: a shared combat against culture, a shared non-representational artistic practice. Their writing, poetry, and painting offer not a portrayal of things or ideas but rather an emanation or apparition of the unknown and the infinite, one charged with deepening art's relation to life.

Italian Gothic Horror Films, 1970-1979 Roberto Curti, 2017-09-07 Italian Gothic horror films of the 1970s were influenced by the violent giallo movies and adults-only comics of the era, resulting in a graphic approach to the genre. Stories often featured over-the-top violence and nudity and pushed the limits of what could be shown on the screen. The decade marked the return of specialist directors like Mario Bava, Riccardo Freda and Antonio Margheriti, and the emergence of new talents such as Pupi Avati (The House with the Laughing Windows) and Francesco Barilli (The Perfume of the Lady in Black). The author examines the Italian Gothic horror of the period, providing previously unpublished details and production data taken from official papers, original scripts and interviews with filmmakers, scriptwriters and actors. Entries include complete cast and crew lists, plot summaries, production history and analysis. An appendix covers Italian made-for-TV films and mini-series.

Representations of Classical Greece in Theme Parks Filippo Carlà-Uhink, 2020-04-16 Theme park studies is a growing field in social and cultural studies. Nonetheless, until now little attention has been dedicated to the choice of the themes represented in the parks and the strategies of their representation. This is particularly interesting when the theme is a historical one, for example ancient Greece. Which elements of classical Greece find their way into a theme park and how are they chosen and represented? What is the "entertainment" element in ancient Greek history, culture and myth, which allows its presence in commercial structures aiming to people's fun? How does the representation of Greece change against different cultural backgrounds, e.g. in different European countries, in the USA, in China? This book frames a discussion of these representations within the current debates about immersive spaces, uses of history and postmodern aesthetics, and analyses how ancient Greece has been represented and made "enjoyable" in seven different theme parks across the world, providing an original and ground-breaking contribution to theme park studies and classical reception.
