Action Movies Harvey O'Brien,2012-11-20 Action Movies: The Cinema of Striking Back is a study of action cinema, exploring the ethics and aesthetics of the genre with reference to its relatively short history. It moves from seminal classics like Bullitt (1968) and Dirty Harry (1971) through epoch-defining films like Rambo: First Blood Part II (1985) and Die Hard (1988) to revisions, reboots, and renewals in films like Kill Bill Vol. 1 (2003), Taken (2008), and The Expendables (2010). The action genre is a fusion of form and content: a cinema of action about action. It is a cinema of the will, configured as a decisive reaction to untenable circumstances. Action heroes take up arms against the sea of troubles that beset them, safe in the knowledge that if they don't do it, nobody will. Though this makes the action movie profoundly disturbing as an embodiment of moral ideology, its enduring appeal proves the appetite for assurance remains undiminished, even in the wake of 9/11.

The Asian Influence on Hollywood Action Films Barna William Donovan,2014-09-17 Filmmakers of the Pacific Rim have been delivering punches and flying kicks to the Hollywood movie industry for years. This book explores the ways in which the storytelling and cinematic techniques of Asian popular culture have migrated from grainy, low-budget martial arts movies to box-office blockbusters such as The Magnificent Seven, Star Wars, The Matrix and Transformers. While special effects gained prominence, the raw and gritty power of live combat emerged as an audience favorite, spawning Asian stars Bruce Lee and Jackie Chan and martial arts-trained stars Chuck Norris and Steven Seagal. As well as capturing the sheer onscreen adrenaline rush that characterizes the films discussed, this work explores the impact of violent cinematic entertainment and why it is often misunderstood. Instructors considering this book for use in a course may request an examination copy here.

'80s Action Movies on the Cheap Daniel R. Budnik,2017-03-24 The 1980s was the decade when the action film as it's now known came into being. Nonstop, big-budget excitement became the standard as epic adventures like Raiders of the Lost Ark and The Road Warrior set the tone for the summer blockbusters of Sylvester Stallone, Arnold Schwarzenegger and Chuck Norris. Homages (and ripoffs) made with lesser budgets followed every hit, especially with the advent of direct-to-video releases. Providing detailed commentary on 284 films, this book explores the excitement, audacity and sheer weirdness of '80s low budget action cinema, from the American Ninja series to dime-a-dozen barbarian pictures to such bargain-basement productions as The Courier of Death, Kill Squad and Samurai Cop.

Hollywood Action Films and Spatial Theory Nick Jones,2015-03-02 This book applies the discourse of the so-called 'spatial turn' to popular contemporary cinema, in particular the action sequences of twenty-first century Hollywood productions. Tackling a variety of spatial imaginations (contemporary iconic architecture; globalisation and non-places; phenomenological knowledge of place; consumerist spaces of commodity purchase; cyberspace), the diverse case studies not only detail the range of ways in which action sequences represent the challenge of surviving and acting in contemporary space, but also reveal the consistent qualities of spatial appropriation and spatial manipulation that define the form. Jones argues that action sequences dramatise the restrictions

and possibilities of space, offering examples of radical spatial praxis through their depictions of spatial engagement, struggle and eventual transcendence.

The Action and Adventure Cinema Yvonne Tasker,2004-08-19 This exciting collection addresses action and adventure from the silent to the contemporary period exploring diverse questions of aesthetics, industry and ideology. Action has established itself as one of the leading commercial genres of the New Hollywood cinema, generating extensive debate in the process. Contributors consider how action might best be defined, how it has developed historically, and how it works formally. The critical reception and standing of action and adventure cinema is considered in relation to questions of national culture, violence and the 'art' of cinema. Themes explored include genre and definitions; early action, sensation and melodrama; authorship and action; national and transnational action-adventure traditions; action aesthetics; spectacle and narrative; stars and bodies; class; gender; race and ethnicity. Attempting to evaluate the significance of this type of filmmaking for both popular cinema and film studies, the book underlines the central place of action and adventure within film history.

The legal thriller of the decade. —Cleveland Plain Dealer Described as “a page-turner filled with greed, duplicity, heartache, and bare-knuckle legal brinksmanship by The New York Times, A Civil Action is the searing, compelling tale of a legal system gone awry—one in which greed and power fight an unending struggle against justice. Yet it is also the story of how one man can ultimately make a difference. Representing the bereaved parents, the unlikelyst of heroes emerges: a young, flamboyant Porsche-driving lawyer who hopes to win millions of dollars and ends up nearly losing everything, including his sanity.
