Music and Technoculture René T. A. Lysloff,Leslie C. Gay, Jr.,2013-08-15 Moving from web to field, from Victorian parlor to 21st-century mall, the 15 essays gathered here yield new insights regarding the intersection of local culture, musical creativity and technological possibilities. Inspired by the concept of technoculture, the authors locate technology squarely in the middle of expressive culture: they are concerned with how technology culturally informs and infuses aspects of everyday life and musical experience, and they argue that this merger does not necessarily result in a cultural grayout, but instead often produces exciting new possibilities. In this collection, we find evidence of musical practices and ways of knowing music that are informed or even significantly transformed by new technologies, yet remain profoundly local in style and meaning. CONTRIBUTORS: Leslie C. Gay, Jr., Kai Fikentscher, Tong Soon Lee, René T. A. Lysloff, Matthew Malsky, Charity Marsh, Marc Perlman, Thomas Porcello, Andrew Ross, David Sanjek, jonathan Sterne, Janet L. Sturman, Timothy D. Taylor, Paul Théberge, Melissa West, Deborah Wong. Ebook Edition Note: Four of the 26 illustrations, and the cover illustration, have been redacted.

Salvation of the Soul and Islamic Devotion M. A. Quasem,2023-05-31 First Published in 1983, Salvation of the Soul and Islamic Devotion demonstrates that salvation is a central concept of the religion of Islam, even though its meaning, causes and results according to Islam may differ from what is taught by Christianity and other world religions. The first chapter of the book presents the Islamic doctrine of salvation as set forth in the Quran and prophetic tradition. The meaning of salvation is explored, and the means to it on both human and divine sides are considered with special emphasis upon Islamic devotions. The remaining eight chapters deal with both obligatory and supererogatory devotions prescribed by Islam, concentrating on the methods of their correct performance, on which salvation is largely dependent. The material used in this book has been derived entirely from the original Islamic sources written in Arabic. Efforts are made to make the book useful to both Muslim and non-Muslim readers of English interested in the Islamic theory of salvation and acts of devotion.

Answering Jihad and Seeking Allah, Finding Jesus Collection Nabeel Qureshi,2016-03-08 This collection includes 2 bestselling ebooks from award-winning author Nabeel Qureshi. Answering Jihad From New York Times bestselling author and former Muslim Nabeel Qureshi comes this personal, challenging, and respectful answer to the many questions surrounding jihad, the rise of ISIS, and Islamic terrorism. Setting aside speculations and competing voices, what really is jihad? How are we to understand jihad in relation to our Muslim neighbors and friends? Why is there such a surge of Islamist terrorism in the world today, and how are we to respond? Seeking Allah, Finding Jesus In Seeking Allah, Finding Jesus, Nabeel Qureshi describes his dramatic journey from Islam to Christianity, complete with friendships, investigations, and supernatural dreams along the way. Providing an intimate window into a loving Muslim home, Qureshi shares how he developed a passion for Islam before discovering, almost against his will, evidence that Jesus rose from the dead and claimed to be God. Unable to deny the arguments but not wanting to deny his family, Qureshi’s inner turmoil will challenge Christians and Muslims alike.

The Role of Multinational Companies in the Middle East Mamarinta P. Mababaya,2002 This study investigated whether known economic and international business theories available in the literature are meaningful enough to explain the nature, existence and role of multinational companies (MNCs) in the Middle East, particularly Saudi Arabia. Two sets of questionnaires were distributed in major cities of Saudi Arabia -- one set for 100 multinational managers and another for 280 multinational customers. 234 questionnaires were collected -- 45 from multinational managers and 189 from customers. This represents a total response rate of 62 percent, which is adequate for this study.The empirical results, supported with comprehensive secondary data, confirmed virtually all of the research hypotheses. The study found that joint ventures are the dominant form of multinational business in Saudi Arabia, both in manufacturing and service industries. The core roles of MNCs in the Saudi-foreign ventures are evident in the cross-border value-adding activities of marketing, trading, manufacturing, consulting, contracting, project management, insurance, hotel operation and banking. Likewise, MNCs provide licensing, franchising, financing services and various auxiliary roles in the Kingdom. Therefore, the multinationality of a firm or a group of firms operating across national boundaries is not necessarily synonymous with international production -- the main subject of contemporary multinational theories.The respondents generally perceived the competitiveness of MNCs operating in Saudi Arabia as a function of a number of economic, management, marketing, technological and other variables. They also perceived the contributions of MNCs to the Kingdom’s socio-economic developments as significant and positive.The study also found that understanding Islamic values and ethics is important for MNCs. In this regard, the researcher looked at some objective indicators of business success and related them to selected measures of MNCs’ local cultural awareness and responsiveness. The results indicate that the business success of multinationals operating in Saudi Arabia is positively related to their local cultural awareness and responsiveness. Along this line, this study covers some vital elements of Islamic culture, which will help MNCs understand further the cultural needs, values and sensitivities of the Saudi people and Muslims in general.

Patterns on a Prayer Rug Franklin T Burroughs,2019-12-04 I would like to invite you to join me on an imaginary journey to the ancient country of Persia, now known as Iran, the home of the poet Rumi. We will suspend any assumptions we may have developed while viewing the country as an Islamic Republic or dictatorship and focus on its ancient and rich culture. The vignettes that comprise Patterns on a Prayer Rug recall some of my experiences while living in the country for fifteen years but have no particular theme. They do, however, focus on happenings which shaped my intellectual landscape regarding Iran and the Iranian people.

Listening to War J. Martin Daughtry,2015-09-01 To witness war is, in large part, to hear it. And to survive it is, among other things, to have listened to it--and to have listened through it. Listening to War: Sound, Music, Trauma, and Survival in Wartime Iraq is a groundbreaking study of the centrality of listening to the experience of modern warfare. Based on years of ethnographic interviews with U.S. military service members and Iraqi civilians, as well as on direct observations of wartime Iraq, author J. Martin Daughtry reveals how these populations learned to extract valuable information from the ambient soundscape while struggling with the deleterious effects that it produced in their ears, throughout their bodies, and in their psyches. Daughtry examines the dual-edged nature of sound--its potency as a source of information and a source of trauma--within a sophisticated conceptual frame that highlights the affective power of sound and the vulnerability and agency of individual auditors. By theorizing violence through the prism of

sound and sound through the prism of violence, Daughtry provides a productive new vantage point for examining these strangely conjoined phenomena. Two chapters dedicated to wartime music in Iraqi and U.S. military contexts show how music was both an important instrument of the military campaign and the victim of a multitude of violent acts throughout the war. A landmark work within the study of conflict, sound studies, and ethnomusicology, *Listening to War* will expand your understanding of the experience of armed violence, and the experience of sound more generally. At the same time, it provides a discrete window into the lives of individual Iraqis and Americans struggling to orient themselves within the fog of war.
