Accurate Case Outcome Modeling Arch G. Woodside, 2019-11-15 This volume advocates accurate case outcome prediction that does not rely on symmetric modeling. To that end, it provides theory construction and testing applications in several sub-disciplines of business and the social sciences to illustrate how to move away from symmetric theory construction. Each chapter constructs case outcome theory and includes empirical analysis of outcomes. Chapter 1 provides a foundation of symmetric variable directional-relationship theory construction and null hypothesis significance testing versus asymmetric case outcome theory construction and somewhat precise outcome testing, while Chapters 2–6 investigate these principles through a range of applications. This volume will be very useful to researchers and professionals in manufacturing, service, consulting, management, marketing, organizational studies, and more. It will also be an excellent resource for advanced statistics students in building and testing case outcome models. Data sets are included so that readers can replicate findings presented in each chapter, and grow to present and test additional theories.

Recent Dynamics of the Mediterranean Vegetation and Landscape Stefano Mazzoleni, Gaetano di Pasquale, Mark Mulligan, Paolo di Martino, Francisco Rego, 2004-10-22 The Mediterranean region has been shaped by human activity and maintained by traditional practices of land use for centuries. This has affected the distribution of plants and the landscape, which can be considered as part of the European cultural landscape. This book details the rapid changes that have taken place in the vegetation of the Mediterranean in the last half-century, a period in which major socio-economic development greatly affected the cultural and physical landscape.

Abstract of Early Kentucky Wills and Inventories, Copied from Original and Recorded Wills and Inventories Junie Estelle Stewart King, 2013-02 This no frills abstraction of Kentucky Wills and inventories contains only hard facts, which the author painstakingly gathered from original documents that cross seven decades and provide hundreds of names for genealogical research. It includes entries from thirty-eight counties, among them the first three formed; Fayette, Lincoln, and Jefferson, and gives details from documents that are affirmed, witnessed and sworn to by surviving relatives or interested parties. The data is arranged in a straightforward, linear format, separated by county, each with its own index, and includes dates between 1780 and 1840. A general thirty-page surname index allows for quick referencing. The will entries give two dates; the first is the date of the instrument and the second is the date of probate. They offer details about land transfers and bequeathals and include the names of appointed executors, guardians, and family members including in-laws. The estate inventory lists reflect numerous personal items as well as household goods, furniture, livestock, and in some instances, slaves. If you are looking for evidence of hereditary ties to Kentucky these compiled notations of legal actions may include the link you seek that will connect you to solid proof of your family's presence in the state.

Reptiles and Amphibians David Aguillón-Gutiérrez, 2018-07-18 The book Reptiles and Amphibians is a compilation of the current trends

in herpetology, focusing on evolution, physiology, monitoring, bioacoustics, threats, and conservation biology. All the chapters present an interesting aspect of the biology of reptiles and amphibians, encompassing different groups of these animals such as frogs, toads, newts, chelonians and snakes from various parts of the world. Without a doubt, this book will help to keep updated on the current problems that arise in this interesting biological group.

Accounts for Solicitors Ralph S. Denny, 2003 The 2002 Annual Report of the Solicitors Disciplinary Tribunal stated that financial irregularity and breaches of the Solicitors Accounts Rules 1998 were the predominant cause of misconduct in approximately a third of the cases it heard. It is therefore essential that all students in Legal Practice Course and all practicing Solicitors have a good understanding of accounting principles. This book starts with basic bookkeeping principles and develops an analysis of the provisions of the Solicitors Accounts Rules 1998. This leads to an explanation of specific areas, for example, VAT accounting for disbursements, stakeholding and retirement from practice. Accounts for Solicitors will be of value to solicitors and their accounting staff, as well as students on the Legal Practice Course and trainees.

Come una tempesta Grazia Mazzeo, 2015-12-21 Il caso è come un gatto curioso, s'intrufola nelle stanze del tempo e ingarbuglia i fili d'ogni esistenza. Solo il destino può, in quell'intrigo di gomitoli e fili, trovare i bandoli d'ogni matassa e tessere la tela per il corredo di ogni

singola vita. Non sempre, però la tela risulta essere tessuto pregiato, troppi nodi, troppi colori stonati, troppe imperfezioni, ma quando accade il contrario, ovvero, quando la tela è così perfetta da far invidia ai mercanti d'oriente, beh, allora c'è sempre una storia che merita d'essere raccontata. " Sarà vento, mare e fuoco terrà dentro il cuore...Tempesta i suoi sogni ... negli occhi promesse, tra le mani la vita e l'amore che il destino non potrà...". Ecco, così il destino, intrecciando trama ed ordito, aveva tessuto per lei il canavaccio della sua esistenza. Parole misteriose, di una frase lasciata a metà che, pronunciate da una misteriosa comare, daranno il benvenuto a Serena su questa terra, imprigionandola in un secolo, una famiglia, una vita che non le appartiene. In un sud che affonda nella miseria e rassegnazione, muove i primi passi Serena, inciampando nella consapevolezza che nulla, né cognome, né casato le appartengano. Il suo destino, infatti, il bandolo lo ha preso da molto lontano per portarlo in quel piccolo borgo né troppo alto da essere in montagna, né troppo in basso da essere in collina, che vive all'ombra di un maestoso castello a forma di nave, per intrecciarlo al filo del destino di Giulio. Fili uniti che sembrano però destinati a separarsi per sempre, ma che tenaci, indistruttibili e fieri come l'indomito mare dipinto in un quadro appeso in un salone di casa Carrai, la casa di Serena, sfidano il tempo e lo spazio per farsi tempesta. Una tempesta sognata agognata, fortemente voluta da uomini e donne che anteponendo il sogno di riunificare una nazione sotto un'unica bandiera

alla loro stessa vita, arrivano sino al sacrificio estremo. In questo panorama pre- risorgimentale ricco di fermenti, slanci, sogni e disillusioni, si muovono, in un clima sospeso tra realtà e magia personaggi singolari, alcuni dei quali realmente vissuti e storie d'amore, di ombre, di mistero che come scatole cinesi si dipanano spiegando il disegno di ogni destino che, però, non sempre è facile da accettare. E qualche volta davvero impossibile.

The Souss-Massa River Basin, Morocco Redouane Choukr Allah, Ragab Ragab, Lhoussaine Bouchaou, Damià Barceló, 2017-02-25 This volume offers a comprehensive analysis of the water resources in the Souss-Massa river basin in southwestern Morocco and provides novel water-management approaches to narrow the gap between supply and demand for water. It evaluates conventional water resources—surface water and groundwater—and discusses in detail rainfall harvesting into dams along the Souss and Massa wadis. Further, it explores topics including the geology of the aquifer; the risk of over exploitation; alternative water resources, such as desalinated seawater and treated domestic wastewater, as well as management approaches like Data Development Analysis and the SALTMED model. With a focus on linking scientific research to practical applications and the demands of agriculture and

associated agro-industry, urbanization and tourism, which compete for the limited water resources, the book appeals to environmental scientists, geologists, engineers and environmental managers.
