Developing Android Applications with Adobe AIR Véronique Brossier,2011-04-22 Put your ActionScript 3 skills to work building mobile apps. This book shows you how to develop native applications for Android-based smartphones and tablets from the ground up, using Adobe AIR. You learn the entire development process hands-on, from coding specific functions to options for getting your app published. Start by building a sample app with step-by-step instructions, using either Flash Professional or Flash Builder. Then learn how to use ActionScript libraries for typical device features, such as the camera and the accelerometer. This book includes ready-to-run example code and a case study that demonstrates how to bring all of the elements together into a full-scale working app. Create functionality and content that works on multiple Android devices Choose from several data storage options Create view and navigation components, including a back button Get tips for designing user experience with touch and gestures Build a location-aware app, or one that makes use of motion Explore ways to use audio, video, and photos in your application Learn best practices for asset management and development

Developing Android Applications with Flex 4.5 Rich Tretola,2011-05-09 Ready to put your ActionScript 3 skills to work on mobile apps? This hands-on book walks you through the process of creating an Adobe AIR application from start to finish, using the Flex 4.5 framework. Move quickly from a basic Hello World application to complex interactions with Android APIs, and get complete code examples for working with Android device components—GPS, camera, gallery, accelerometer, multitouch display, and OS interactions. No matter how much Flex experience you have, this book is the ideal resource. Use Flash Builder 4.5 to create and debug a Flex Mobile project Choose a layout option to determine which files Flash Builder auto-generates Select permissions that control which devices can install your app from the Android Market Explore APIs that enable your app to interact with specific Android OS features Learn how to read and write text files, browse the file system for media files, and create and write to an SQLite database Use the URLRequest class to open your app in the browser, place calls, and create emails and text messages Load web and video content into your app with StageWebView Publish your app to an Android installer file with Flash Builder

Applications Android avec Adobe Air Véronique Brossier,2011 Grâce à vos compétences en Actionsript 3, vous pouvez aujourd'hui développer des applications pour les plateformes mobiles. Dans ce guide pratique et très didactique, vous apprendrez à réaliser des applications Adobe AIR à la fois pour Smartphones et tablettes tactiles équipés d'Android. Explorez l'ensemble du processus de développement, depuis la programmation de fonctions spécifiques jusqu'aux options de publication de vos applications sur l'Android Market. Créez une application exemple avec Flash Builder ou Flash Professionnel en suivant les instructions pas à pas, puis apprenez à utiliser les API Actionsript 3 pour exploiter aux mieux toutes les fonctionnalités disponibles. Cet ouvrage propose des exemples de codes prêts à l'emploi, ainsi qu'une étude de cas mettant en oeuvre tous les éléments étudiés pour créer une application complète et fonctionnelle. Même si cet ouvrage se focalise sur Android, les principes décrits sont applicables également à la création d'applications pour iOS et Blackberry Playbook.

**Flash Builder Building AIR Applications** Cesare Rocchi,2010-11 Understand the architecture of the AIR framework, the merits of AIR applications vs. Flex applications, and the capabilities of the framework including reading and writing files, interacting with local databases, and detecting and manipulate storage devices connected to the computer. Example projects demonstrate how to set up an AIR project, how AIR might be considered an extension to the Flex library to handle interaction with the operative system, and the variety of methods package an application for distribution. Building AIR Applications is the first of fourth articles that will be compiled in the book, Data Visualization with Flash Builder: Designing RIA and AIR Applications with Remote Data Sources. Each full-color article illustrates specific aspects of Flash Builder data visualization with techniques to employ them. The book, Data Visualization with Flash Builder, features exclusive material in the form of a related real-world tutorial project to go alongside each article. This article is equivalent to 43 print pages.
