- 📖 **Qalmee Jechootaa Afaan Oromoo**, 2018
- 📖 **Modern Afaan Oromo Grammar** Taha M. Roba, 2017-03-16 This publication is the second edition of the Oromo Textbook. It is designed to teach the Oromo language to those who can speak the language but are unable to read it; for those children who were born and live outside their homeland; and for those who are interested in learning one of the major languages of Africa. The Oromo language is spoken by close to 40 million people in Ethiopia and northern Kenya and is the second or third largest language in Africa. It is a testament to the resilience of the Oromo language and how it survived over a century of Abyssinian onslaught and suppression. By reading this handbook one can grasp aspects of Oromo culture, systems of thought the principle of social organization and the art of communication. Rare among Oromo educational material, this volume reads smoothly; from learning the sounds of Oromo alphabets also known as Qubee, to reading, and understanding the Oromo language. This work is distinct because it brings out the Oromo oral tradition. It is loaded with specific ways Oromos learned, thought, and preserved their language and culture, the essence of their Orommumma (Oromomness). This book strives to fill the void of Oromo educational material not only in North- America, but also in Oromia (Ethiopia), where teaching and learning the Oromo language outlawed by successive Ethiopian regimes and not sufficiently developed under the current government. This book will undoubtedly emerge as a conversation and discussion piece in the learning and teaching of the Oromo language, Oromo history and tradition of the Oromo people.
- 📖 **Fawwii Fi Abdi** Mahmud Siraj, 2021-01-19 This book is children book that helps kids born diaspora to learn and speak their family language and communicate with them easy as well as to know what is Oromo people values and cultural as well and Afaan Oromoo speaker can learn English from it. Afaan Oromoo is 3rd language spoken by African.
- 📖 **Afaan Oromo As Second Language** Ibsaa Guutama, 2013-08-05 The earliest registered civilization is probably the civilization of Cushitic speaking peoples spearheaded by ancient Egypt. The Oromo are of the Cushitic speaking stock. Missing links of that civilization are hoped to be found in the language and culture of the Oromo nation of East Africa. It is not too late for researchers of ancient civilizations to turn their attention towards East Africa, specifically Oromia. The first step towards this may be learning their language. This little book will offer you that opportunity. It is presented in a possible easy but sure way to help you understand its basics.

- 📖 **Being and Becoming Oromo** Paul Trevor William Baxter, Jan Hultin, Alessandro Triulzi, 1996 The Oromo people are one of the most numerous in Africa. Census data are not reliable but there are probably twenty million people whose first language is Oromo and who recognize themselves as Oromo. In the older literature they are often called Galla. Except for a relatively small number of arid land pastoralists who live in Kenya, all homelands lie in Ethiopia, where they probably make up around 40 percent of the total population. Geographically their territories, though they are not always contiguous, extend from the highlands of Ethiopia in the

north, to the Ogaden and Somalia in the east, to the Sudan border in the west, and across the Kenyan border to the Tana River in the south. Though different Oromo groups vary considerably in their modes of subsistence and in their local organizations, they share similar cultures and ways of thought.

📖 **Tradition and Transformation** Abebe Kifleyesus, 2006 The Argobba are an ethnic and religious minority in southeastern Wallo and northeastern Sawa. Despite living in harsh environments and menace from more dominant ethnic groups, they have for centuries maintained their agricultural activity, trader and weaver identity, and religious unity. At present they are undergoing rapid cultural change, and are caught up in a tension between encapsulation and the struggle for the survival of Argobba cultural tradition and political position in what once was a strategic location. This book presents a perceptive historical and cultural analysis of change and continuity, looks at how the Argobba define and redefine their agricultural and commercial ways of living as a response to threats from Oromo migration, Amhara settler penetration and Adal aggression, and examines the past and present condition of Argobba social and economic transformation in north-central Ethiopia.

📖 **The Political Economy of Land and Agrarian Development in Ethiopia** Ketebo Abdiyo Ensene, 2018-09-05 Located in central Ethiopia, the Arssi region is one of the most productive in Ethiopia yet it has so far been neglected by scholars. This book scrutinizes the rural development of Arssi by focusing on the Swedish supported experimental venture known as the Chilalo Agricultural Development Unit (CADU) and later as the Arssi Rural Development Unit (ARDU). Ketebo Abdiyo Ensene investigates how effectively this strategy empowered the peasantry to change their farming techniques and produce beyond subsistence level. He also examines the accumulation of alienated land by the northern Ethiopian nobility through land grants, fake purchases, and other futile means of land grabs and the impact that this had on the native population. Finally, the book reassesses the importance of the rural land reform of 1975 that followed the collapses of the imperial regime and argues that this was the most significant event in the history of agricultural development in Ethiopia. The assessment of the book in fact goes into the post-1991 period in relation with agrarian development. The Political Economy of Land and Agrarian Development in Ethiopia will be of interest to scholars of Ethiopia, African studies, economic history, political economy, development and agriculture.
