Sport in the African World John Nauright, Mahfoud Amara, 2018-05-16 Sport has been a component of African cultural life for several hundred years. In today's globalized world, Africans and Africa have become a vital part of the international sporting landscape. This is the first book to attempt to survey the historical, contemporary and geographical breadth of that landscape, drawing on multidisciplinary scholarship from around the world. To gain an understanding of sport in Africa and its contributions to the global sports world, one must first consider the ways in which sport itself is a terrain of conflict and represents another symbolic territory to conquer. Addressing key themes such as colonialism, globalization, migration, apartheid, politics and international relations, sports media and broadcasting, ethnobranding, sports tourism and the African diaspora in Europe and the United States, this collection of original scholarship offers a significant contribution to this burgeoning field of research. Sport in the African World is fascinating reading for all students and scholars with an interest in sport studies, sport history, African history or African culture.

Sports in Africa, Past and Present Todd Cleveland, Tarminder Kaur, Gerard Akindes, 2020-10-20 These groundbreaking essays demonstrate how Africans past and present have utilized sports to forge complex identities and shape Africa's dynamic place in the world. Since the late nineteenth century, modern sports in Africa have both reflected and shaped cultural, social, political, economic, generational, and gender relations on the continent. Although colonial powers originally introduced European sports as a means of "civilizing" indigenous populations and upholding then current notions of racial hierarchies and "muscular Christianity," Africans quickly appropriated these sporting practices to fulfill their own varied interests. This collection encompasses a wide range of topics, including women footballers in Nigeria, Kenya's world-class long-distance runners, pitches and stadiums in communities large and small, fandom and pay-to-watch kiosks, the sporting diaspora, sports pedagogy, sports as resistance and as a means to forge identity, sports heritage, the impact of politics on sports, and sporting biography.

Identity and Nation in African Football C. Onwumechili, G. Akindes, 2014-04-08 The 2010 South African World Cup launched African football onto the global stage. This volume brings together top scholars on African football to explore a range of issues such as gender, identity, nationalism, history, cyber-fandom, the media and fan radicalization.

Africa's Elite Football Chuka Onwumechili, 2019-11-11 This book explores various aspects of intranational elite football in Africa, drawing on the expertise of notable scholars from across the world. Africa's Elite Football focuses on an area largely ignored by current scholarship on African football, where interest has focused on international migration. In exploring the intranational, the book is written in two parts. The first is a general focus on the continent, and the second is an examination of country cases. The general focus of the book is on the nature of elite tier leagues, the relationship between politics and football, the media, youth academies, intranational migration and fans. Notably, chapters on topics such as intranational migration present groundbreaking scholarship in this area. Currently, football discourses on migration focus on international migration of footballers, yet the majority of migration in African football is intranational. Thus, by addressing the intranational, this book brings attention to an area that is underrepresented in the current academic discourse. The second part of the book, which focuses on country cases, covers Botswana, Egypt, Kenya, Nigeria, Senegal, Zambia and Zimbabwe. The topics explored in those cases include religiosity, health, women's football, media and management. The coverage of health-related issues is particularly important given that several books on African football rarely broach such a topic. With its unique approach to African football, this book will be of interest to scholars and students of sports history, African studies, politics in sports and African sports.

Contemporary Social Issues in Africa Mokong Simon Mapadimeng, Sultan Khan, 2010 This volume comprises of incisive and perceptive essays that analyse social issues in contemporary post-colonial and post-apartheid Africa using cases in three African cities - Durban in South Africa, Gaborone in Botswana, and Kampala in Uganda. It is an outcome of collaboration by colleagues from Universities of Kwazulu-Natal, Makerere, Botswana and Dar es Salaam to establish a structured, collaborative scholarly partnership programme. The partnership is called Rethinking Africa Programme, which is consistent with the 21st century ideals of Africa's renewal. Its key objective is to re-think Africa through academic and research initiatives sensitive to our own experiences as Africans, as well as through a critical revisiting of western-based social sciences in order to build new analytical models and concepts that capture processes and dynamics that derive from African experiences. It thus has as its related aim, to counter the proliferation of texts by western scholars on African social issues which dominate lecture rooms and libraries as teaching and learning resources in African universities. It is hoped that this volume will encourage future partnerships on research and teaching of contemporary African social issues amongst African scholars within the continent. Further, it should serve as a teaching and training resource for academic programmes with strong focus on social issues in Africa today.

Sport and Development Policy in Africa Marion Keim, Christo de Coning, 2014-03-26 This publication is the first of its kind, and the focus on sport and development policy is a new and exciting initiative towards developing a Global Policy Index in the future.Ÿ

Gender, Sport and Development in Africa Jimoh Shehu, 2010-07-12 To many young people, the term sport has an exhilarating ring; to many older persons, it signifies recreation and leisure. From colonial times, it has been viewed as a means of social control. Increasingly, it is being touted by governments and donor agencies as a self-evident tool of Africa's development. How accurate are these individual, romantic and moral notions of sport? In this volume, eleven African scholars offer insightful analyses of the complex ideological and structural dimensions of modern sport as a cultural institution. Drawing on various theories and cross-cultural data, the contributors to this volume highlight the various ways in which sport norms, policies, practices and representations pervasively interface with gender and other socially constructed categories of difference. They argue that sport is not only a site of competition and physical recreation, but also a crossroad where features of modern society such as hegemony, identities, democracy, technology, development and master statuses intertwine and bifurcate. As they point out in many ways, sport production,

reproduction, distribution and consumption are relational, spatial and contextual and, therefore, do not pay off for men, women and other social groups equally. The authors draw attention to the structure and scope of efforts needed to transform the exclusionary and gendered nature of sport processes to make them adequate to the task of engendering Africa's development. *Gender, Sport and Development in Africa* is an immensely important contribution to current debates on the broader impacts of sport on society. It is an essential reading for students, policy-makers and others interested in perspectives that interrogate the grand narratives of sport as a neutral instrument of development in African countries.

Africa United Steve Bloomfield, 2010-05-11 *Africa United* is the story of modern day Africa told through its soccer. Travelling across thirteen countries, from Cairo to the Cape, Steve Bloomfield, the former Africa Correspondent for *The Independent*, meets players and fans, politicians and rebel leaders, discovering the role that soccer has played in shaping the continent. Africa, Football and FIFA Paul Darby, 2013-10-08 This book explores the role of FIFA in brokering the development of football in Africa and its relationship with that continent's football associations and regional governing body. Africa is no longer on the periphery of world football but the economic disparities between the first and the third worlds hinder the development of the game. The author shows convincingly how Africa's advance within world football is tied to its national political economy and how the balance of power within FIFA still clearly favours its European members.

Sports in African History, Politics, and Identity Formation Michael J. Gennaro, Saheed Aderinto, 2019-04-01 *Sports in African History, Politics, and Identity Formation* explores how sports can render a key to unlocking complex social, political, economic, and gendered relations across Africa and the Diaspora. Sports hold significant value and have an intricate relationship with many components of African societies throughout history. For many Africans, sports are a way of life, a site of cultural heroes, a way out of poverty and social mobility, and a site for leisurely play. This book focuses on the many ways in which sports uniquely reflect changing cultural trends at diverse levels of African societies. The contributors detail various sports, such as football, cricket, ping pong, and rugby, across the continent to show how sports lay at the heart of the discourse of nationalism, self-fashioning, gender and masculinity, leisure and play, challenges of underdevelopment, and ideas of progress. Bringing together the newest and most innovative scholarship on African sports, this book will be of interest to students and scholars of contemporary Africa, African history, culture and society, and sports history and politics.

Engagingly written and comprehensively researched, drawing on a range of accounts from those at grass-roots level through to the very top tiers of African football, *Feet of the Chameleon* is a compelling mixture of analysis and insight that delves deep into the history of the game in a continent fragmented by history, language and politics. Women's Sport in Africa John Bale, Michelle Sikes, 2016-04-14 In recent decades Africa has emerged as a sporting giant. The African sporting phenomenon has been addressed in the popular press and it has also attracted scholarly interest; however, this interest is almost entirely focussed on men. Yet women's participation in recreational and elite sport is worthy of exploration and research. This path-breaking collection of essays provides an introduction to a variety of dimensions of women's participation in African sports. Several key concepts are addressed in the book: women and media, women and sport-migration, sport and empowerment, sporting and social development, women's sport and postcolonial Africa, and professional sport and economic development. This collection, authored by established scholars, will attract readership from students from Sports Studies to African Studies and from undergraduate students to university teachers. This book was published as a special issue of *Sport in Society*.

Sport, Public Broadcasting, and Cultural Citizenship Jay Scherer, David Rowe, 2013-08-15 This book examines the political debates over the access to live telecasts of sport in the digital broadcasting era. It outlines the broad theoretical debates, political positions and policy calculations over the provision of live, free-to-air telecasts of sport as a right of cultural citizenship. In so doing, the book provides a number of comparative case studies that explore these debates and issues in various global spaces.

Identity and Nation in African Football C. Onwumehili, G. Akindes, 2014-04-08 The 2010 South African World Cup launched African football onto the global stage. This volume brings together top scholars on African football to explore a range of issues such as gender, identity, nationalism, history, cyber-fandom, the media and fan radicalization.

Global Perspectives on Football in Africa Susann Baller, Giorgio Miescher, Ciraj Rassool, 2013-10-31 Football, in many ways, is a visual endeavour. From the visual experience within the stadium itself to worldwide media representations, from advertisements to football art and artefacts: football is much about seeing and being seen, about watching, making visual and being visualised. The FIFA World Cup 2010 in South Africa has turned into a perfect example of the visual dimensions of football. Stadiums have been built and marketed as tourist attractions, mass media and internet platforms are advertising South African cities and venues, logos and emblems are displayed and celebrated, exhibitions are organised in museums world-wide. This book explores the social, cultural and political role of football in Africa by focusing on the issue of its visibility and invisibility. The contributions consider the history and present of football in different parts of Africa. They examine historical and recent pictures and images of football and football players, as well as places and spaces of their production and perception. They analyse the visual dimensions expressed in sports infrastructure, football media-scapes, and in expressive and material arts. This book thus contributes to the growing interest in football in Africa by exploring a new field of research into sports. This book was previously published as a special issue of *Soccer and Society*.

Reality TV Annette Hill, 2005 Reality TV restores a crucial, and often absent, element to the critical debate about reality television: the voices of people who watch reality programmes. From *Animal Hospital* to *Big Brother*, Annette Hill argues that much can be learned from listening to audience discussion about this popular and rapidly changing television genre. Viewers' responses to reality TV can provide invaluable information to enhance our understanding of both the reality genre and contemporary television audiences. Drawing on quantitative and qualitative audience

research to understand how viewers categorise the reality genre, and how they judge the performance of ordinary people and the representation of authenticity within different types of reality programmes. * Do audiences think reality TV is real? * Can people learn from watching reality TV? * How critical are viewers of reality TV? Reality TV argues that audiences are engaged in a critical examination of the development of popular factual television. The book examines how audiences can learn from watching reality programmes, and how viewers think and talk about the ethics of reality TV.
