Algeria Revisited Rabah Aissaoui, Claire Eldridge, 2017-03-09 On 5 July 1962, Algeria became an independent nation, bringing to an end 132 years of French colonial rule. *Algeria Revisited* provides an opportunity to critically re-examine the colonial period, the iconic war of decolonisation that brought it to an end and the enduring legacies of these years. Given the apparent centrality of violence in this history, this volume asks how we might re-imagine conflict so as to better understand its forms and functions in both the colonial and postcolonial eras. It considers the constantly shifting balance of power between different groups in Algeria and how these have been used to re-fashion colonial relationships. Turning to the postcolonial period, the book explores the challenges Algerians have faced as they have sought to forge an identity as an independent postcolonial nation and how this process has been represented. The roles played by memory and forgetting are highlighted as part of the ongoing efforts by both Algeria and France to grapple with the complex legacies of their prolonged and tumultuous relationship. This interdisciplinary volume sheds light on these and other issues, offering new insights into the history, politics, society and culture of modern Algeria and its historical relationship with France.

Modern Algeria Charles Robert Ageron, 1991 This work addresses French and indigenous elements in Algerian history since colonisation: land reform and modernisation under French rule, the pressures to which both communities were subjected, and the emergence of political confrontation leading to Independence. The last part deals with developments since 1962.

Algeria Lori McManus, 2012 This book briefly examines the history, people, and environment of the country of Algeria.

Historical Dictionary of Algeria Phillip C. Naylor, 2015-05-07 This fourth edition of *Historical Dictionary of Algeria* covers its history through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture.

Making Algeria French David Prochaska, 2002 This study is based on research in the former Bône municipal archives, generally barred to researchers since 1962. Prochaska concentrates on the formative decades of settler society and culture between 1870 and 1920. He describes in turn the economic, social, political, and cultural history of Bône through the First World War.

Algeria John Reynell Morell, 1854

Modern Algeria John Douglas Ruedy, 1992 One of the largest countries in Africa and in the Arab world, Algeria in the last half of the twentieth century has stood as a compelling model of national liberation and development. Yet, as the century nears a close, Algeria is beset by a national crisis, its economy in virtual collapse, its single-party political system discredited, and its cultural identity challenged by emergent Islamic fundamentalism. John Ruedy provides the first up-to-date history of Algeria's evolution from a segmented tribal order under the Ottoman Empire through five generations of French colonial exploitation, to an eight-year war of liberation, and finally to independent statehood. A concluding chapter surveys the developing political and economic crisis of the 1980s and 1990s, which witnessed Algeria at a crossroads between the Islamists and military rule. -- Back cover.

France and Algeria Phillip Naylor, 2024-06-11 An examination of the complicated history between France and Algeria since the latter's independence.

Algeria: Struggle for Truth and Justice Roger Goldsmith, 2020-09-15 Bodies lying in pools of blood in the streets of Algiers all day, buildings destroyed by bombs and fire, up to a million French and others fleeing the country... Roger Goldsmith arrived in Algeria six months before a joyful Algerian independence from France, followed by a violent Algerian military takeover and two military coups. In his personal account, *Algeria: Struggle for Truth and Justice*, he follows French and French Algerian sources that argue that le pouvoir, generals of the security forces, the DRS, manipulating armed Islamists, were behind the assassination of a president, the hijacking of a plane, some 200,000 deaths, torture and perhaps 18,000 enforced disappearances in the 1990s. The tragedy of the 1990s has been presented as a 'national tragedy' with nobody responsible for crimes against humanity. Voluntary work for Amnesty International on the human rights situation there led Roger to work on behalf of families of the disappeared. Later, he assisted Nassera Dutour, who has been leading and inspiring families in 20 years of struggle, vainly seeking information about their relatives. Is Algeria now at a turning point in its history? Since February 2019, hundreds of thousands of people, perhaps millions, many of them young, have marched peaceably in the streets of Algiers and throughout the country demanding change, democracy and an end to military rule. Might it now be possible for families to look forward to the day when their efforts to obtain truth and justice are successful and those responsible are tried before an International Criminal Court?'

State And Society In Algeria John P Entelis, Phillip C Naylor, 2019-06-04 On 11 January 1992 senior military officers forced President Chadli Benjedid to resign; canceled the second round of legislative elections and annulled the results of the first round, which saw the opposition Islamic Salvation Front (FIS) achieve a major electoral victory; and imposed a year-long state of siege. Constitutional government was replaced by an army-dominated so-called Higher State Council responsive to no one but itself. In the weeks and months that followed further draconian measures were undertaken intended to subvert the incipient democratic process that Algeria had been experiencing in the several years following the deadly riots of October 1988. As part of the army's effort to regain control of state and society, it reined in the free-wheeling press, abolished the country's most popular political party (FIS), dissolved the National Assembly, and reimposed on civil society the apparatus of the omnipresent state security system (mukhabarat).

Electric News in Colonial Algeria Arthur Asseraf, 2019-08-08 How do the things which connect us also serve to divide us? *Electric News in Colonial Algeria* traces how news circulated in a particularly divided society: Algeria under French rule in the late nineteenth and early twentieth centuries. It tells a different history of globalization, one which puts the experience of everyday people at the centre. The years between 1881 and 1940 were those of maximum colonial power in North Africa; a period of intense technological revolution, global high imperialism, and the expansion of settler colonialism. Algerians became connected to international networks of news, and local people followed distant events with great interest. But once news reached Algeria, accounts of recent events often provoked conflict as they moved between different social groups. In a society split between its native majority and a substantial settler minority, distant wars led to riots. Circulation and polarisation were two sides of the same coin. Examining a range of sources in multiple languages across colonial society, *Electric News in Colonial Algeria* offers a new understanding of the spread of news. News was a whole ecosystem in which new technologies such as the printing press, telegraph, cinema, and radio interacted with older media like songs, rumours, letters, and manuscripts. The French government watched anxiously over these developments, monitoring Algerians' reactions to news through an extensive network of surveillance that often ended up spreading news rather than controlling its flow. By tracking what different people thought of as news, this history helps us reconsider the relationship between time, media, and historical change.

Algiers, Third World Capital Elaine Mokhtefi, 2018-08-07 Mokhtefi (ne Klein), a Jewish American from Long Island, has had an exhilarating life. In the 1960s, she served as a press adviser to the National Liberation Front in postwar Algiers, before going to work with Eldridge Cleaver, who was wanted in the US for his role in a deadly shoot-out with Oakland police. Half a century later, as an eighty-nine-year-old painter living on the Upper West Side, Mokhtefi still seasons her prose with the argot of revolution.

Algeria Michael J. Willis, 2022-12-15 When mass protests erupted in Algeria in 2019, on a scale unseen anywhere in the region since the Arab Spring, the outside world was taken by surprise. Algeria had been largely unaffected by the turmoil that engulfed its neighbors in 2011, and it was widely assumed that the population was too traumatized and cowed by the country's bloody civil war to take to the streets demanding change. Michael J. Willis offers an explanation of this unexpected development known as the Hirak Movement, examining the political and social changes that have occurred in Algeria since the 'dark decade' of the 1990s. He examines how the bitter civil conflict was brought to an end, and how a fresh political order was established following the 1999 election of a dynamic new leader, Abdelaziz Bouteflika. Initially underwritten by revenue from Algeria's substantial hydrocarbons resources, this new order came to be undermined by falling oil prices, an ailing president, and a population determined to have its voice heard by an increasingly corrupt, out-of-touch and opaque national leadership. Exactly twenty years passed before Bouteflika's presidency was brought to an end by the Hirak protests--this book is an authoritative account of them.

Algeria Cuts Ranjana Khanna, 2008 Algeria Cuts discusses the figure of woman, both under colonial rule in Algeria and within the postcolonial independent nation-state. It is an interdisciplinary project that spans fine art, film, colonial and legal policy, manifestos, prose fiction, and theoretical and philosophical texts concerning the relationship between France and Algeria. Khanna investigates gendered representation, identification, and justice, and in the process, calls into question the ways in which conventional disciplinary frameworks foreclose certain avenues of reflection while foregrounding others. Algeria Cuts seeks to understand Algeria and Algerian women as a philosophical site that facilitates an understanding of justice and the pursuit of feminism.

Sex, Law, and Sovereignty in French Algeria, 1830-1930 Judith Surkis, 2019-12-15 During more than a century of colonial rule over Algeria, the French state shaped and reshaped the meaning and practice of Muslim law by regulating it and circumscribing it to the domain of family law, while applying the French Civil Code to appropriate the property of Algerians. In *Sex, Law, and Sovereignty in French Algeria, 1830-1930*, Judith Surkis traces how colonial authorities constructed Muslim legal difference and used it to deny Algerian Muslims full citizenship. In disconnecting Muslim law from property rights, French officials increasingly attached it to the bodies, beliefs, and personhood. Surkis argues that powerful affective attachments to the intimate life of the family and fantasies about Algerian women and the sexual prerogatives of Muslim men, supposedly codified in the practices of polygamy and child marriage, shaped French theories and regulatory practices of Muslim law in fundamental and lasting ways. Women's legal status in particular came to represent the dense relationship between sex and sovereignty in the colony. This book also highlights the ways in which Algerians interacted with and responded to colonial law. Ultimately, this sweeping legal genealogy of French Algeria elucidates how the Muslim question in France became—and remains—a question of sex.
