God, Angels, Aliens, D. L. Little,2015-01-17 How would your life be different if you found out you chose the life you are living? Yes, even the hardships, heartbreaks, trials and tribulations you are going through. Yes, whether you are disabled, blind, mentally challenged, or even very young and dying from some terrible disease. Would you live differently? Would you be more able to accept the things you are going through and would it make it easier to find the solutions to the situation? Would you see it more like a challenge that you put upon yourself in this life? Would you see it as your personal marathon, to be the best you can be without feeling like you are competing with the rest of the world? Think about it for a minute or two. How different would you see things if you knew you chose how you look, act, feel, your handicap, the stress in your life, the hardships, and yes even the illnesses or molestation or rape? Even with the death of your child or spouse. The answers I have found to these questions just may surprise you. Read On...

Alien Connection A.J. Houston,2012-11-26 'Alien Connection', is situated several hundred years into the future and is about an electrical engineer, Arthur Barthol, and his adventures after he is recruited to install communications equipment on the first space station which will act as a meeting ground for humans and aliens from other worlds. Aliens and Us Are We Prepared Yet? Vikas Gupta,2010-04-23 The subject of aliens is not a new one and has been around for a really long time now. We talk about it all the time. News and articles about the possibility of alien visits or attacks are everywhere. Perhaps this has become so common that people have started to shrug it off, thinking this is just one of those science fiction topics that media loves to sensationalize. If all of a sudden we have an alien encounter one day, are we psychologically prepared for this? Like many of you even I think we are not. In fact we might be in a state of shock as they might turn out to be completely different from any of our imaginations about them. But if we are prepared for anything, then such an alien encounter might not be shocking. The objective of this book is to prepare its readers psychologically to deal with the subject of aliens and the first alien encounter. In other words aiming to prepare humanity with the cope of a possible shock upon an impending alien encounter. There are a lot of mysteries in this world that might have some paranormal behavior associated to them, but they are kind of scattered and appear here and there. In other words although these mysteries have been documented well enough by a lot of people from time to time, but they do not appear related. This book attempts to bring together these mysteries and relate them with one possible explanation that is common, the alien connection. Also it is trying to bring this subject out from the confines of a circle of scientists, subject experts and enthusiasts to a common person. So this book is for a common man by a common man.

Other Aliens Bradford Morrow,Elizabeth Hand,2017-05-09 New writings on our fear of—and fascination with—the “other” from Joyce Carol Oates, Peter Straub, Kelly Link, Jeffrey Ford, and more. Alien is a powerful and flexible word. Aliens are “other.” Aliens are the stuff of science fiction and fantasy. Aliens are traditional literary figures that cause us to see ourselves anew. Indeed, when we witness our “normal” lives through these strangers’ eyes, we become the unfamiliar ones. Conjunctions:67, Other Aliens collects works of speculative and literary science fiction: innovative short stories, poetry, interviews, letters, and essays that explore the vast precincts of unfamiliarity, keen difference, weirdness, and not belonging. This provocative issue includes contributions from an all-star lineup, including Leena Krohn, Jeffrey Ford, Julia Elliott, John Crowley, Laura Sims, Valerie Martin, Lavie Tidhar, Samuel R. Delany, Matthew Baker, Paul Park, James Tiptree Jr., Michael Parrish Lee, Peter Straub, Kelly Link, Madeline Bourque Kearin, Jean Muno, Jonathan Thirkield, John Clute and John Crowley, Joyce Carol Oates, S. P. Tenhoff, Brian Evenson, Jessica Reed, E. G. Willy, and James Morrow.

Alien Intrusion Gary Bates,2004 Most people at one time or another have probably been curious to know, What could account for all of those strange objects in the sky that many credible witnesses see? Or, what about the modern mystery of alien abductions and stories of visitations by beings claiming to be from other planets or star systems? Are aliens really making contact with human beings? Is it important anyway? At last, an easy-to-understand book traces the history of this strange phenomenon utilizing the research of many of the heavyweights of UFOlogy -- and it's been making sense to a lot of people. This is a book for everyone. The author's research and conclusions will surprise you and challenge your thinking, not just about UFOs, but about the nature of life itself. This is a landmark volume that brings together the most important evidences, coming to conclusions far more sinister -- yet profound -- than most could imagine. - Publisher.

The UFO-Christianity Connection Fred R. David, PhD,2010-11-15 For many centuries, science and religion have remained staunchly independent. Whenever issues have developed that simultaneously touched on both areas, debate often ensued—for example, when scientists first proposed that the earth revolved around the sun, or when the theory of evolution was proposed. There has always been a cultural disconnect between science and religion that has caused dissention and distrust. Research conducted by author Fred R. David, however, reveals that the missing link between science and religion may be UFOs or, more specifically, the beings inside those crafts. The UFO-Christianity Connection: Fact or Fiction • reveals that UFOs played a significant role in how ancient civilizations built megalithic structures and predicted celestial events perfectly; • brings to life the close association that ancient civilizations had with ancient astronauts—whom they called gods or sky people; • reveals that many events described in ancient writings, including the Bible, involved UFO encounters; • gives readers a unique perspective to engage others in discussing angels, God, UFOs, Bigfoot, Satan, giants, the underworld, the flood, Atlantis, and Jesus. The scientific information presented here is vital for people of all faiths on all continents. Explore the missing link that bridges the gap between science and religion.

The Messengers Mike Clelland,2020-08-19 Without question, this is a classic by one of the most exciting new authors in the UFO field today. After reading it, your view of reality will never be the same.The owl has held a place of reverence and mystique throughout history. And as strange as this might seem, owls are also showing up in conjunction with the UFO experience.Mike Clelland has collected a wealth of first-hand accounts in which owls manifest in the highly charged moments that surround alien contact. There is a strangeness to these accounts that defy simple explanations. This book explores implications that go far beyond what more conservative researchers would dare consider.But the owl connection encompasses more than the UFO experience. It also includes profound synchronicities, ancient archetypes, dreams, shamanistic experiences, personal transformation, and death. From the mythic legends of our ancient past to the first-hand accounts of the UFO abductee, owls are playing some vital role.This is also a deeply personal story. It is an odyssey of self-discovery as the author grapples with his own owl and UFO encounters. What plays out is a story of transformation with the owl at the heart of this journey.

The Alien / Human Connection D. Leo Lund,2014-10-26 This is a story of a young man from a terrible past who is bought back from the brink of death by a group of Aliens sent to Earth to investigate the continued existence of the human race on Earth. They have to perform an extremely controversial prothetic surgery to save his life, and then insert him into the world's intelligence community to spy on the world's superpowers. While doing this they find out something that brings the entire Galaxy to the brink of inter-galactic war. Though this is probably a fictional account of what went on, it is still disturbingly thought provoking... I will leave the reader to draw their own conclusions.
