**Too Close to Breathe** Olivia Kiernan,2018-04-03 Olivia Kiernan's tautly written debut novel immerses readers in a chilling murder case...and the tantalizing, enigmatic victim at the center of it all. In a quiet Dublin suburb, within her pristine home, Eleanor Costello is found hanging from a rope. Detective Chief Superintendent Frankie Sheehan would be more than happy to declare it a suicide. Four months earlier, Frankie's pursuit of a killer almost ended her life and she isn't keen on investigating another homicide. But the autopsy reveals poorly healed bones and old stab wounds, absent from medical records. A new cut is carefully, deliberately covered in paint. Eleanor's husband, Peter, is unreachable, missing. A search of the couple's home reveals only two signs of personality: a much-loved book on art and a laptop with access to the Dark Web. With the suspect pool growing, the carefully crafted profile of the victim crumbling with each new lead, and mysterious calls to Frankie's phone implying that the killer is closer than anyone would like, all Frankie knows is that Eleanor guarded her secrets as closely in

life as she does in death. As the investigation grows more challenging, Frankie can't help but feel that something doesn't fit. And when another woman is found murdered, the same paint on her corpse, Frankie knows that unraveling Eleanor's life is the only way to find the murderer before he claims another victim...or finishes the fate Frankie only just managed to escape. Engrossing, complex, and atmospheric, Olivia Kiernan's debut novel will leave you breathless.

A Theory of Everything Else Laura Pedersen,2020-09-01 That elusive Holy Grail of modern physics, A Theory of Everything (ToE), would explain the universe in a single set of equations. Albert Einstein and Stephen Hawking tackled the problem during their lifetimes and the quest continues today in laboratories around the world. Leaving string theory, galaxy clusters, and supersymmetry to the Quantum Computer and Hadron Collider crowd, Pedersen has taken up the rest—that is, A Theory of Everything Else (ToEE), based on her own groundbreaking experiences as a dog walker, camp counselor, and Bingo caller. Pedersen's essays are a series of colorful helium balloons that entertain as well as affirm and uplift. Why, she ponders in one essay, are thousands perishing as a result of assault weapons, carbon emissions, forest fires, pesticides, and processed foods—and yet how lawn darts were banned in the 1980s after two people died? In A Theory of Everything Else, Pedersen vividly demonstrates how life can appear to grind us down while it's actually polishing us up—and why everyone wants to live a long time but no one wants to grow old.

My Daddy Yusuph Koni, 2021-08-18 Do fathers love their children more than the mothers do? Why or why not? Yusuph is Tanzania Congolese boy who born and grow in Tanzania with unaware of his mother's (Tecla) and father's (Joseph) love for him because of some complicated situation. As Yusuph grew up, he longed to live with his family but at the end he received bad news of Joseph's death. I literally can't remember what was my dad looks like, or his voice, or anything about him but there are still some missing pieces of him deep down inside me that I brought into my countless dreams of him. Father will say they love their children just as much as their Mothers, but it looks different on the outside. He buried him in his mind, and transform almost every aspect of his live, he decided to pursue his new dream of not letting his children go through the life he went through. Yusuph and Samir were selected by the college to study abroad. Father tend to love their children in the way they perceive is the best but mother love their children in the way they can best perceive it. So, from children's perspective, the father's love may seem to be less than the mothers. Samir explore Yusuph's life situation to accomplish writing his own novel. ... He's committed to reading as many novels as he can, hoping that one day he'll find something to write about in his novel, but still, I wish I could tell my life story so he could write something... THE BEGINNING OF NOVEL WITHIN A NOVEL. Later on Yusuph find out that, before Joseph death, he left special love message for him about his steps sister, Clementine who live in Drc Congo. It is very difficult for Yusuph to go meet his step sister because he want to spend most of his time with his girlfriend (Naomy) for his future family. As time goes by pain of loosing Joseph never leaves Yusuph. The foot prints our loved ones leave on our souls are permanent. Never to be filled with another. Never forgotten. They live on in our memories and in our hearts. The importance of fatherhood extend beyond a provider. Keep that in mind. Yusuph couldn't deal with the future while he didn't clean all of his past memory. Now we're all together and we can't shake hands... We can't kiss... Hugging each other is a test for us... Having sex is also a problem.... I don't think if we will get married... Bearing children is a dream... Mother's love is mild while father's love is shape. They are different but neither is dispensable. Instead to go study abroad, he go to meet Clementine because she is the one who will restore all the love he had for Joseph without care if there a civil war. Yusuph's heart-beat, thump-thump -- His finger is taking up trigger-slack. He holds off as Justine (Rebel) continues to drag Clementine backward into the woods... So yeah, I think fathers love their children, but they way they express it can sometimes be misunderstood or undervalued.

*Habit* Neale Martin, 2008 80% of new products fail. Billions of advertising dollars are wasted every year. Even satisfied customers abandon companies at the drop of a hat. How can this be? How can so many brilliant marketers and product developers be failing so thoroughly? Here's how: they've focused their vast resources almost exclusively on the conscious mind, but it's the unconscious mind that controls 95% of human behavior. In *Habit*, Dr. Neale Martin presents powerful new research that reveals how the mind actually works and explains in practical detail the implications of this new science for marketers and product developers. You'll learn why 50 years of marketing theory is deeply flawed, how your customers' unconscious minds thwart your marketing campaigns, and how to identify what customers really want when they don't even know. Martin explains how customer behavior actually changes the mind's neural connections and how companies can leverage this fact by refocusing on behavior, not on attitudes and beliefs. He offers a complete process for working with customers' unconscious and conscious minds together, to become your customer's habit, not just their choice. You'll even learn how to revamp organizational structures that undermine the promotion of customer habits. Using Martin's techniques, you can not only avoid marketing and product failures: you can finally achieve the twin holy grails of marketing: higher customer retention, and greater long-term profitability.
