So You Want to Talk About Race Ijeoma Oluo,2019-09-24 In this #1 New York Times bestseller, Ijeoma Oluo offers a revelatory examination of race in America. Protests against racial injustice and white supremacy have galvanized millions around the world. The stakes for transformative conversations about race could not be higher. Still, the task ahead seems daunting, and it's hard to know where to start. How do you tell your boss her jokes are racist? Why did your sister-in-law hang up on you when you had questions about police reform? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from police brutality and cultural appropriation to the model minority myth in an attempt to make the seemingly impossible possible: honest conversations about race, and about how racism infects every aspect of American life. Simply put: Ijeoma Oluo is a necessary voice and intellectual for these times, and any time, truth be told. —Phoebe Robinson, New York Times bestselling author of *You Can't Touch My Hair*

The Body Is Not an Apology Sonya Renee Taylor,2018-02-13 The Body Is Not an Apology The Power of Radical Self-Love Against a global backdrop of war, social upheaval, and personal despair, there is a growing sense of urgency to challenge the systems of oppression that dehumanize bodies and strip us of our shared humanity. Rather than feel helpless in the face of oppression, world-renowned activist, performance poet, and author Sonya Renee Taylor teaches us how to turn to the power of radical self-love in her new book, *The Body Is Not an Apology*. Radical self-love is the guiding framework that transforms the learned self-hatred of our bodies and the prejudices we have about other people's bodies into a vision of compassion, equity, and justice. In a revolutionary departure from the corporate self-help and body-positivity movement, Taylor forges the inextricable bond between radical self-love and social justice. The first step is recognizing that we have all been indoctrinated into a system of body shame that profits off of our self-hatred. When we ask ourselves, Who benefits from our collective shame? we can begin to make the distinction between the messages we are receiving about our bodies or other bodies and the truth. This book moves us beyond our all-too-often hidden lives, where we are easily encouraged to forget that we are whole humans having whole human experiences in our bodies alongside others. Radical self-love encourages us to embark on a personal journey of transformation with thoughtful reflection on the origins of our minds and bodies as a source of strength. In doing this, we not only learn to reject negative messages about ourselves but begin to thwart the very power structures that uphold them. Systems of oppression thrive off of our inability to make peace with bodies and difference. Radical self-love not only dismantles shame and self-loathing in us but has the power to dismantle global systems of injustice-because when we make peace with our bodies, only then do we have the capacity to truly make peace with the bodies of others

The Future of Islam John L. Esposito,2010-02-04 John L. Esposito is one of America's leading authorities on Islam. Now, in this brilliant portrait of Islam today-- and tomorrow-- he draws on a lifetime of thought and research to provide an accurate, richly nuanced, and revelatory account of the fastest growing religion in the world. Here Esposito explores the major questions and issues that face Islam in the 21st century and that will deeply affect global politics: Is Islam compatible with modern notions of democracy, rule of law, gender equality, and human rights? How representative and widespread is Islamic fundamentalism and the threat of global terrorism? Can Muslim minority communities be loyal citizens in America and Europe? In the midst of these questions Esposito places an important emphasis on the issue of Islamophobia, the threat it poses, and its vast impact on politics and society in the US and Europe. He also turns the mirror on the US and Europe and paints a revealing portrait of how we appear to Muslims. Recent decades have brought extraordinary changes in the Muslim world, and in addressing these issues, Esposito paints a complex picture of Islam in all its diversity--a picture of urgent importance as we face the challenges of the coming century.

Gender Outlaw Kate Bornstein,2013-04-15 *Gender Outlaw* is the work of a woman who has been through some changes--a former heterosexual male, a one-time Scientologist and IBM salesperson, now a lesbian woman writer and actress who makes regular rounds on the TV (so to speak) talk shows. In her book, Bornstein covers the mechanics of her surgery, everything you've always wanted to know about gender (but were too confused to ask) addresses the place and politics of the transgendered and interrogates the questions of those who give the subject little thought, creating questions of her own.

Engines Of Tomorrow Robert Buder,2000-07-14 The U.S. economy is the envy of the world, and the key to its success is technological innovation. In this fascinating and in-depth account reported from three continents, Robert Buder turns the spotlight on corporate research and the management of innovation that is helping drive the economy's robust growth. Here are firsthand communiqués from inside the labs of a reborn IBM, resurgent GE and Lucent, research upstarts Intel and Microsoft, and other leading American firms -- as well as top European and Japanese competitors. It was only a few years ago that competitiveness experts -- U.S. well-wishers and naysayers alike -- concluded that America had lost its business and technological edge. The nation's companies, they asserted, couldn't match the development and manufacturing efficiency of overseas rivals. Yet now the nation is humming along, riding an unparalleled wave of innovation. Buder tells us this turnaround has come on many fronts -- in marketing, sales, manufacturing, and the creation of start-up companies. But *Engines of Tomorrow* deals with a central element that has gone largely unexamined: corporate research. It's the research process that provides the technologies that spur growth. Research is behind the renaissance of IBM, the stunning growth of Lucent, and much of the steamrolling American recovery. Focusing on the fast-moving communications-computer-electronics sector, Buder profiles some of the world's leading thinkers on innovation, talks with top inventors, and describes the exciting technologies coming down the pike -- from information appliances to electronic security and quantum computing. In the process, he examines the vital strategic issues in which central labs play a determining role, including: How IBM's eight labs around the world figure in Lou Gerstner's plans to achieve consistent double-digit growth -- and to join GE as a \$100 billion concern. Why Xerox's famed Palo Alto Research Center is vying to resuscitate its company's lagging fortunes by sending anthropologists into the field to study the hidden ways people really work. What Hewlett-Packard will do without its original instrument business, recently spun off as Agilent Technologies. The business was central to HP Labs' MC2 philosophy of merging research expertise in measurement, computation, and communication -- and its departure removed a lot that was unique about HP. How the November 1999 federal court finding that Microsoft operates a monopoly hinders the Seattle giant's acquisition plans and makes it increasingly vital for nine-year-old Microsoft Research to lead the way in innovating from within. Could this be the next great lab for the twenty-first century? With authority and undaunted optimism about the underlying vitality of the research process, Buder discusses these issues and reveals the future of some of the world's best and most powerful companies.

Out! Miles McKenna,2020-10-06 Miles McKenna is a queer and trans activist. He transitioned online in front of a million people. This is his survival guide. When Miles came out on his YouTube channel in 2015—then transitioned online in 2017—his aim was to help other teens navigate their identities and take charge of their own coming-out stories. From that experience comes Out!, the ultimate coming-out survival guide for anyone questioning or queer. Out! covers questions big and small: How to stay safe when coming out in a toxic environment, what to do if you don't feel comfortable with your birth name, what style haircut best suits your identity, and how to find your chosen family. Miles offers readers coming-out conversation starters ("Can I have the bathroom pass? Also, the correct pronouns?"), a recipe for a very gay cake, and a guide to mastering the masculine haircut. You'll find resources for finding a gender therapist, pointers for being a queer ally, and Miles's Ten Commandments (#5: You are valid in your identity, even if you're the only one who can define it). If you're a person seeking answers, look no further! This book is for you. And remember: Whoever you are, you are worth fighting for.

More Than Things Paul Louis Metzger,2023-08-08 We live in a culture of commodification. People are too often defined by what they do or own; they're treated as means to an end or cogs in a machine. What goes missing is a deep sense of personhood—the belief that all humans are unique subjects with inherent worth and the right to self-determination in authentic communion with others. In a world dominated by things, Paul Louis Metzger argues, we must work hard to account for one another's personhood. We need to cultivate relational structures that honor every human's dignity in vital interpersonal community. The theological and philosophical framework known as personalism can help guide us toward such a culture. Drawing from a wide range of thought leaders, including Martin Luther King Jr. and Pope John Paul II, Metzger presents a personalist moral vision founded on the Christian ideals of faith, hope, and love. He demonstrates how this moral compass can help us navigate a pluralistic world by applying it to a variety of pressing ethical issues, including abortion, genetic engineering, immigration, drone warfare, and more. Ultimately human personhood begins with the personal, triune God, who invites us to live more fully as human beings. When we refuse to reduce our fellow humans—and ourselves—to mere abstractions or objects, we follow the example of Jesus in honoring the value of every person and of creaturely life as a whole.
