Letter Links Andrea DeBruin-Parecki, Mary Hohmann, 2003 Suitable for all early childhood educators and practitioners, Letter Links is all about the alphabetic principle from a child development point of view. It highlights the importance of using symbols in preschool along with printed letters. Letter Links takes children's natural interest in learning to write their own name as an entryway to teaching them letter recognition skills, letter-sound correspondence, and letter/word writing by using nametags and letter-linked images. The authors also provide eight specific teaching strategies. Letter Links outlines the research behind the learning system and provides detailed examples of 64 initial letter sounds represented by 26 letters. These are the letter combinations you need to introduce the book's more than 25 fun-filled activities that involve the alphabetic principle, phonological awareness, sense of word, and vocabulary.

When You Learn the Alphabet Kendra Allen, 2019-04-15 Kendra Allen's first collection of essays—at its core—is a bunch of mad stories about things she never learned to let go of. Unifying personal narrative and cultural commentary, this collection grapples with the lessons that have been stored between parent and daughter. These parental relationships expose the conditioning that subconsciously informed her ideas on social issues such as colorism, feminism, war-induced PTSD, homophobia, marriage, and “the n-word,” among other things. These dynamics strive for some semblance of accountability, and the essays within this collection are used as displays of deep unlearning and restoring—balancing trauma and humor, poetics and reality, forgiveness and resentment. When You Learn the Alphabet allots space for large moments of tenderness and empathy for all black bodies—but especially all black woman bodies—space for the underrepresented humanity and uncared for pain of black girls, and space to have the opportunity to be listened to in order to evolve past it.
