Communication and Intelligent Systems Jagdish Chand Bansal, Mukesh Kumar Gupta, Harish Sharma, Basant Agarwal, 2020-04-09 This book gathers selected research papers presented at the International Conference on Communication and Intelligent Systems (ICCIS 2019), organised by Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), Jaipur, India and Rajasthan Technical University, Kota, India on 9–10 November 2019. This book presents a collection of state-of-the-art research work involving cutting-edge technologies for communication and intelligent systems. Over the past few years, advances in artificial intelligence and machine learning have sparked new research efforts around the globe, which explore novel ways of developing intelligent systems and smart communication technologies. The book presents single- and multi-disciplinary research on these themes in order to make the latest results available in a single, readily accessible source.

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Celebrating 50 years of ACAL Akinbiyi Akinlabi ,Lee Bickmore,Michael Cahill ,Michael Diercks,Laura J. Downing,James Essegbey,Katie Franich ,Laura McPherson ,Sharon Rose , The papers in this volume were presented at the 50th Annual Conference on African Linguistics held at the University of British Columbia in 2019. The contributions span a range of theoretical topics as well as topics in descriptive and applied linguistics. The papers reflect the typological and genetic diversity of languages in Africa and also represent the breadth of the ACAL community, with papers from both students and more senior scholars, based in North America and beyond. They thus provide a snapshot

on current research in African linguistics, from multiple perspectives. To mark the 50th anniversary of the conference, the volume editors reminisce, in the introductory chapter, about their memorable ACALs.

eMarketing Raymond Frost, Alexa K. Fox, Terry Daugherty, 2022-11-15 eMarketing, 9th edition, equips students with the solid foundation in digital marketing required to excel in practice and think like a marketer. The book connects digital marketing topics with the traditional marketing framework, making it easier for students to grasp the concepts and strategies involved in developing a digital marketing plan. With a strategic approach that focuses on performance metrics and monitoring, it is a highly practical book. The 9th edition has been fully updated to include the most cutting-edge trends and topics, including SEO, customer experience, digital media consumption, analytics, big data and AI, and diversity and ethics. Case studies and examples have been updated across the book to demonstrate marketing practice in real organizations globally. Pedagogical features support the theoretical foundation throughout, incorporating success stories and let's get technical boxes, as well as activities at the end of each chapter, to aid students in their understanding of, and ability to execute, successful digital marketing strategies. Highly regarded and comprehensive, this textbook is core reading for undergraduate students studying digital marketing and digital business. Online resources include PowerPoint slides and a test bank.

E-marketing Raymond D. Frost, Judy Strauss, 2016-06-03 For courses in Internet Marketing or E-marketing This book teaches marketers how to engage and listen to buyers, and how to use what they learn to improve their offerings in today's Internet- and social media-driven marketing environment. It brings traditional marketing coverage up-to-date with a thorough, incisive look at e-marketing planning and marketing mix tactics from a strategic and tactical perspective. The focus is on the Internet and other technologies that have had a profound effect on how marketing is approached today. Included is coverage of marketing planning; legal and global environments; e-marketing strategy; and marketing mix and customer relationship management strategy and implementation issues. A major revision, this seventh edition reflects the disruption to the marketing field brought about by social media. As such it covers many new topics that represent the changes in e-marketing practice in the past two years. Because of the ever-changing landscape of the Internet, the authors suggest reading this book, studying the material, and then going online to learn more about topics of interest. Features: Better understanding of new concepts in today's electronic marketplace is accomplished as the book puts that new terminology into traditional marketing frameworks. Readers are encouraged to exercise

critical thinking and attention to their own online behavior in order to better understanding the e-marketer's perspective, strategies, and tactics—to think like a marketer. Although the focus is on e-marketing in the United States, readers also see a global perspective in the coverage of market developments in both emerging and developed nations. An entire chapter devoted to law and ethics, and contributed by a practicing attorney, updates readers on the latest changes in this critical area. Readers are guided in learning a number of e-marketing concepts with the help of some outstanding pedagogical features: -Marketing concept grounding helps readers make the connection between tradition and today. Material in each chapter is structured around a principle of marketing framework, followed by a look at how the internet has changed the structure or practice, providing an ideal bridge from previously learned material. -Learning objectives set the pace and the goals for the material in each chapter. -Best practices from real companies tell success stories, including new examples of firms doing it right. -Graphical frameworks serve as unique e-marketing visual models illustrating how each chapter fits among others. -Chapter summaries help readers review and refresh the material covered. -Key terms are identified in bold text within the chapter to alert readers to their importance. -Review and discussion questions are another device to be used for refreshing readers' understanding of the material in the chapter. -Web activities at the end of each chapter help readers become further involved in the content. -This revision reflects the disruption to the marketing field based on social media. A major revision from the sixth edition, it includes many new topics, as dictated by changes in e-marketing practice in the past two years. -Three important Appendices include internet adoption statistics, a thorough glossary, and book references. NEW. Students get a broader look at social media as it is now integrated throughout the book, instead of confined to one chapter. NEW. A look at new business models continues and strengthens the approach of learning from real life examples. Added and described in detail are such models as social commerce (and Facebook commerce), mobile commerce and mobile marketing, social CRM, crowdsourcing, and many important but less pervasive models such as crowdfunding, freemium, and flash sales. NEW. Chapters 12, 13 and 14 were completely rewritten to reflect the move from traditional marketing communication tools to the way practitioners currently describe IMC online: owned, paid and earned media. NEW. Readers see examples of many new and interesting technologies that are today providing marketing opportunities, both in the Web 2.0 and 3.0 sections. NEW. The chapter-opening vignettes continue to play an important role in illustrating key points. Two new vignettes and new discussion questions about each chapter opening vignette are included. NEW. Included are many new images in every chapter, plus

updated “Let’s Get Technical” boxes. NEW. Other chapter-specific additions that further enhance understanding of the concepts include: -More social media performance metrics (Ch. 2) -“Big data” and social media content analysis (Ch. 6) -New consumer behavior theory and “online giving” as a new exchange activity (Ch. 7) -Social media for brand building (Ch. 9) -App pricing and web page pricing tactics (Ch. 10)

The Top Books of the Year

Amaric Sms The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have enthralled audiences this year.

The Must-Read : Colleen Hoovers "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail.

Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

Amaric Sms : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and

mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
