The Migrant Canon in Twenty-First-Century France Oana Sabo, 2018-04 The Migrant Canon in Twenty-First-Century France explains the causes of twenty-first-century global migrations and their impact on French literature and the French literary establishment. A marginal genre in 1980s France, since the turn of the century migrant literature has become central to criticism and publishing. Oana Sabo addresses previously unanswered questions about the proliferation of contemporary migrant texts and their shifting themes and forms, mechanisms of literary legitimation, and notions of critical and commercial achievement. Through close readings of novels (by Mathias Énard, Milan Kundera, Dany Laferrière, Henri Lopès, Andreï Makine, Éric-Emmanuel Schmitt, Alice Zeniter, and others) and sociological analyses of their consecrating authorities (including the Prix littéraire de la Porte Dorée, the Académie française, publishing houses, and online reviewers), Sabo argues that these texts are best understood as cultural commodities that mediate between literary and economic forms of value, academic and mass readerships, and national and global literary markets. By examining the latest literary texts and cultural agents not yet subjected to sufficient critical study, Sabo contributes to contemporary literature, cultural history, migration studies, and literary sociology.

A Story of Light Pravir Malik, 2017-10-29 *A Story of Light* explores a journey of light into more and more concrete layer's of matter and life. The journey begins with the slowing down of light to c , which is posited to have resulted in a Big Bang from which the process of the creation of the layers of matter began. Light projects properties of itself in each surfacing layer of matter and erects pathways, as it were, by which all of existence is structured. A base layer is that of the wavearchetype-electro-magnetic-masspotential spectrum. Quantum particles are light-property accumulations in this field or spectrum. These in turn create atoms, then molecules, and subsequently cells. Each of these layers has been architected by the innate four-foldness inherent in light. Human experience, including sensations, urges, emotions, feelings, will, and thought, and subsequently the structure of civilization are also seen to be projections of the four-foldness innate in light. This story reveals a deep oneness and because of that an innate

power that exists in all creations, and reveals something of the deep mystery of Light.

Self-Publishing In Overseas POD Markets Yeong Hwan Choi,2024-04-13 Often, Amazon comes to mind as a way of self-publishing e-books or paper books overseas. However, when I used international platforms such as Amazon KDP, tens of thousands of copies were posted a day. Likewise, Google Books and Apple Books were the same unless paid marketing was conducted. So I looked into various overseas self-publishing platforms. I started going into the semi-international platforms such as Kobo, Everand, Tolino, Barents & Novele, Overdrive, and SmashWords. And after visiting the Eurozone, South America, India, and Asia, where retailers are connected, I learned how to distribute them overseas. Overseas people use Google, an international search engine, but they do not use Naver. However, for Koreans, the sites such as Naver are public platforms. Likewise, the Eurozone, North America, India, and China each had local platforms distributed in local commercial districts. Even in the Eurozone, North America, and Oceania, it is easy to set up an account with Payonia and PayPal. I think reading this book can save us a lot of time because we have analyzed free/paid, distributed, platforms that are difficult to inspect depending on the content, and tax issues. It's time for us to earn foreign currency, too.

What is e-book? Nicolae Sfetcu,2014-05-10 The e-book guide for publishers: how to publish, EPUB format, ebook readers and suppliers. An electronic book

(also e-book, ebook, electronic book, digital book) is a book-length publication in digital form, consisting of text, images, or both, and produced on, published through, and readable on computers or other electronic devices. An e-book can be purchased/borrowed, downloaded, and used immediately, whereas when one buys or borrows a book, one must go to a bookshop, a home library, or public library during limited hours, or wait for a delivery. Electronic publishing or ePublishing includes the digital publication of e-books and electronic articles, and the development of digital libraries and catalogues. EPUB (short for electronic publication; alternatively capitalized as ePub, ePUB, EPub, or epub, with EPUB preferred by the vendor) is a free and open e-book standard by the International Digital Publishing Forum (IDPF). Self-publishing is the publication of any book or other media by the author of the work, without the involvement of an established third-party publisher. One of the greatest benefits brought about by ebooks software is the ability for anyone to create professional ebooks without having to fork out thousands of dollars to design and publish a book. People can easily become authors overnight and earn income from selling online ebooks.
