Douglas R. Hofstadter

Wordplay John Langdon, 2005-11-08 Take a second look at the cover of this book—this time, turn it upside down. The title, Wordplay, is an ambigram, which means you will be able to read it both right side up and upside down. You may be familiar with the John Langdon's ambigrams from Dan Brown's bestseller Angels & Demons (see pages 186 and 188 of Wordplay), but if this is your first experience with the art of the ambigram, prepare to be dazzled! This lovely updated edition of the classic collection of ambigrams features a section of full-color ambigrams and dozens of stunning, mind-bending examples of this cryptic art form. Each strikingly beautiful and arresting illustration is accompanied by a short essay—sometimes serious, sometimes witty—to delight your brain as much as your eyes. Taken together, the art and the essays show how the very shape of letters can change our idea of words and their meanings. As Dan Brown says in the Foreword of this revised edition, John Langdon brilliantly rearranges the familiar, casting it in a new light. Both playful and profound, Wordplay will challenge you to take a second look at your world.

The Dan Brown Craze Aiping Zhang, Zhenwu Zhu, 2016-05-11 Since the Chinese translation of The Da Vinci Code was released in China in 2004, the "Dan Brown Craze" has swept across the country. All of Brown's novels have subsequently been translated into Chinese and sold millions of copies. No living foreign writer has generated so much media coverage and scholarship in China within such a short period of time; not even Toni Morrison or J.K. Rowling. Brown's rendering of dichotomies, such as science and religion, humanity and divinity, good and evil, and liberty and privacy, resonates well with his Chinese readers because they feel that these issues are no longer irrelevant to them. They see an urgent need for a revision, if not an entire redefinition, of their existing beliefs and values. This book examines the plot, characterization, themes, setting, codes, knowledge, institutions, and techniques in his novels, and delivers a careful textual analysis, a selective dissemination of

relevant information on different subjects, and a perceptive comparison between Brown and other Chinese and Western writers. As such, it shows how his thrillers have been appreciated and studied in China, and what kinds of discoveries, challenges, controversies, and insights have surfaced in the Chinese appreciation of Brown's novels. Furthermore, the book explores why the "Dan Brown Craze" has lasted this long and exerted a broad and far-reaching impact upon the reading, writing, studying, translating, publishing, and marketing of fiction in China.

Inversions Scott Kim, 1996 Word Designs Demonstrate Symmetry Introduce your students to the basic concepts of symmetry with more than 60 mind-boggling lettering designs by Scott Kim, whom Isaac Asimov called the Escher of the alphabet. Each word in *Inversions* exhibits striking geometrical symmetry. For instance, the word mirror is written with reflectional symmetry; symmetry reads the same upside down; and infinity spirals off to infinity. The accompanying essays connect mathematics and symmetry with art, psychology, and music. One of the sections shows students how to create their own inversions.

Mother of Learning: ARC 1 nobody103, Domagoj Kurmaic, 2021-12-01 Zorian Kazinski has all the time in the world to get stronger, and he plans on taking full advantage of it. A teenage mage of humble birth and slightly above-average skill, Zorian is attending his third year of education at Cyoria's magical academy. A driven and quiet young man, he is consumed by a desire to ensure his own future and free himself of the influence of his family, resenting the Kazinskis for favoring his brothers over him. Consequently, Zorian has no time for pointless distractions, much less other people's problems. As it happens, though, time is something he is about to get plenty of. On the eve of Cyoria's annual summer festival, Zorian is murdered, then abruptly brought back to the beginning of the month, just before he was about to take the train to school. Finding himself trapped in a time loop with no clear end or exit, he will have to look both within and without to unravel the mystery set before him. He does have to unravel it, too, because the loop clearly wasn't made for his sake, and in a world of magic

even a time traveler isn't safe from those who wish him ill. Fortunately for Zorian, repetition is the mother of learning...

Alex's Adventures in Numberland Alex Bellos, 2010-04-05 A tenth anniversary edition of the iconic book about the wonderful world of maths Sunday Times bestseller | Shortlisted for the BBC Samuel Johnson Prize 'Original and highly entertaining' Sunday Times 'A page turner about humanity's strange, never easy and, above all, never dull relationship with numbers' New Scientist 'Will leave you hooked on numbers' Daily Telegraph In this richly entertaining and accessible book, Alex Bellos explodes the myth that maths is best left to the geeks, and demonstrates the remarkable ways it's linked to our everyday lives. Alex explains the surprising geometry of the 50p piece, and the strategy of how best to gamble it in a casino. He shines a light on the mathematical patterns in nature, and on the peculiar predictability of random behaviour. He eats a potato crisp whose revolutionary shape was unpalatable to the ancient Greeks, and he shows the deep connections between maths, religion and philosophy. From the world's fastest mental calculators in Germany to numerologists in the US desert, from a startlingly numerate chimpanzee in Japan to venerable Hindu sages in India, these dispatches from 'Numberland' are an unlikely but exhilarating cocktail of history, reportage and mathematical proofs. The world of maths is a much friendlier and more colourful place than you might have imagined. This anniversary edition is fully revised and updated.

In the Course of a Dream Emanuel for Love Ruben Bailey, 2007-07 The Age of Aquarius has dawned upon man. This book is a testament of the new age to herald the Arc of the Covenant -- The Dream. This is the Promised Land. It is the Law written in the heart of man. We were meant to awaken to a greater multi-dimensional awareness in which our spirit is free. It is a known fact that everyone dreams every night. How can one then awaken without a dream? The process of awakening begins with a dream. The revelation of our true potential has been staring us in the face night after night and we have dismissed it as idle ramblings of the mind. For me, the process began with a series of precognitive dreams culminating in a miracle wheat penny that would set me firmly on the path of illumination guided by my dreams; my inner voice. As external confirmation, the universe in synchronous fashion placed pennies on my path at precisely the right place and time to coincide with the magical ah ha experiences that come from working with dreams. Here is how it happened to me.

Victory Colony, 1950 Bhaswati Ghosh, 2020-08 When she lands in Calcutta's Sealdah railway station on a humid day in 1949, Amala Manna has managed to flee from the communal violence in her village, but not from all her trials. Within moments of crossing over to India as a refugee from East Pakistan, she loses Kartik, her younger brother. Thanks to a group of young volunteers, Amala finds her way to a refugee camp in Gariahata where she meets Manas Dutta, who is the leader of the volunteer group. Despite the sordid camp life, Amala finds sustenance in her quest to find Kartik and the new familial bonds the camp allows her to forge with complete strangers. With dwindling official support, the situation in the camp deteriorates, and the refugees take things into their own hands. They establish Bijoy Nagar - literally meaning Victory Colony - by occupying a zamindar's vacant plot of land. This dramatic event is a harbinger of radical shifts in Amala's personal life. 'A compelling story, set against a Calcutta that's vividly depicted in the smallest of details.' - Madhulika Liddle 'Bengal comes alive in all its sensory immediacy.' - Neelum Saran Gour
