Sung Tales from the Papua New Guinea Highlands Alan Rumsey, Don Niles, 2011-08-01 The genres of sung tales that are the subject of this volume are one of the most striking aspects of the cultural scene in the Papua New Guinea Highlands. Composed and performed by specialist bards, they are a highly valued art form. From a comparative viewpoint they are remarkable both for their scale and complexity, and for the range of variation that is found among regional genres and individual styles. Though their existence has previously been noted by researchers working in the Highlands, and some recordings made of them, most of these genres have not been studied in detail until quite recently, mainly because of the challenging range of disciplinary expertise that is required--in anthropology, linguistics, and ethnomusicology. This volume presents a set of interrelated studies by researchers in all of those fields, and by a Papua New Guinea Highlander who has assisted with the research based on his lifelong familiarity with one of the regional genres. The studies presented here (all of them previously unpublished and written especially for this volume) are of groundbreaking significance not only for specialists in Melanesia or the Pacific, but also for readers with a more general interest in comparative poetics, mythology, musicology, or verbal art.

Proceeding of 5th International Conference on Advances in Manufacturing and Materials Engineering Md. Abdul Maleque, Ahmad Zahirani Ahmad Azhar, Norshahida Sarifuddin, Sharifah Imihezri Syed Shaharuddin, Afifah Mohd Ali, Nor Farah Huda Abdul Halim, 2023-05-13 This book presents the proceeding of 5th International Conference on Advances in Manufacturing and Materials Engineering (ICAMME2022), August 9-10, Kuala Lumpur, Malaysia. It presents articles in topics that outline the state-of-the-art information in manufacturing and materials engineering for academia and industries. The topics represent the strong synergy between manufacturing, materials, design, and management supporting the transition from product service systems to life cycle engineering services as a contributor to high value manufacturing. The scope of this book also presents a set of new additive manufacturing, 3D printing, and advanced materials with new technology; green technology for United Nations SDGs; modeling & simulation of materials and manufacturing with some classical case examples. It caters to academics and industrial practitioners who have research interest in the latest advances in manufacturing and materials engineering.

Migration in the Time of Revolution Taomo Zhou, 2019-10-15 A Foreign Affairs Best Books of 2020 Honorable mention for the Harry J. Benda Prize (Southeast Asia Council, Association for Asian Studies) The book is a delightful read and will be of great interest to scholars of Chinese migration, PRC history, Indonesian history, and the history of the international communist movement. —South East Asia Research *Migration in the Time of Revolution* examines how two of the world's most populous countries interacted between 1945 and 1967, when the concept of citizenship was contested, political loyalty was in question, identity was fluid, and the boundaries of political mobilization were blurred. Taomo Zhou asks probing questions of this important period in the histories of the People's Republic of China and Indonesia. What was it like to be a youth in search of an ancestral homeland that one had never set foot in, or an economic refugee whose expertise in private business became undesirable in one's new home in the socialist state? What ideological beliefs or practical calculations motivated individuals to commit to one particular nationality while forsaking another? As Zhou demonstrates, the answers to such questions about ordinary migrants are crucial to a deeper understanding of diplomatic relations between the two countries. Through newly declassified documents from the Chinese Foreign Ministry Archives and oral history interviews, *Migration in the Time of Revolution* argues that migration and the political activism of the ethnic Chinese in Indonesia were important historical forces in the

making of governmental relations between Beijing and Jakarta after World War II. Zhou highlights the agency and autonomy of individuals whose life experiences were shaped by but also helped shape the trajectory of bilateral diplomacy. These ethnic Chinese migrants and settlers were, Zhou contends, not passively acted upon but actively responding to the developing events of the Cold War. This book bridges the fields of diplomatic history and migration studies by reconstructing the Cold War in Asia as social processes from the ground up.

Nanotechnologies in Green Chemistry and Environmental Sustainability Samsul Ariffin Abdul Karim, 2022-12-09 Presenting latest research on green materials and sustainability. The Sperm Cell Christopher J. De Jonge, Christopher L. R. Barratt, 2017-05-25 This revised and updated second edition provides a comprehensive account of the human male gamete. Detailed overviews of human sperm production, maturation, and function - and how these processes affect and influence fertility, infertility, and assisted reproduction - are given. A wide range of new developments including proteomics, spermatogenesis, sperm-specific WW domain-binding proteins, Ca²⁺ signalling, DNA packaging, epididymis are explored, whilst a new chapter presents information gained from mouse genetics, highlighting how it informs male fertility research. The impact of environmental factors during pre-pubertal and pubertal stages of life is also investigated. Featuring engaging prose with chapters organized topographically, *The Sperm Cell* remains an essential resource for andrologists, clinical scientists, and laboratory personnel.

Manage Your Cash Flow, Manage Your Life Mohamad Andoko, 2019-01-22 Kemampuan mengelola cash flow, arus pendapatan dan pengeluaran, merupakan cerminan cara kita menjalani kehidupan. Kemampuan itu akan menentukan bagaimana masa depan kehidupan kita secara keseluruhan, tidak hanya secara finansial. Apakah kita akan mampu memenuhi keperluan baik jangka pendek, menengah atau pun panjang. Banyak hal yang memengaruhi kita dalam mengelola cash flow tersebut seperti menjaga gaya hidup di bawah pendapatan, kemampuan membedakan kebutuhan dan keinginan, kemampuan menentukan prioritas, rajin menyisihkan investasi, dan faktor lainnya. Bagaimana kita mengelola itu semua? Kedua penulis dalam buku ini mencoba membuka wawasan pembaca dan juga memberikan beberapa solusi dalam mengatur cash flow. Mampu mengelola cash flow dengan baik, berarti masa depan keluarga akan tertata lebih baik lagi.

The Epididymis: From Molecules to Clinical Practice Bernard Robaire, Barry Hinton, 2012-12-06 Since the late 1960s, there has been an acceleration of research focused on understanding how the efferent ducts, the epididymis, and the vas deferens function with respect to the maturation and storage of spermatozoa and as hormone dependent tissues. Another major interest in the epididymis is that it is an attractive target for the development of male contraceptives. There are well over 16,000 peer reviewed articles in the literature on these tissues, their structure, gene expression, protein synthesis and function. Regular international meetings have been initiated that are dedicated to this field. Thus, there is an urgent need for a comprehensive reference volume that spans every facet of epididymal biology, from historical background to the most current results, from basic cell and molecular biology to clinical issues. Well-established experts from every part of the world have contributed to this volume. By necessity, each author was given page limitations so that many topics are not dealt with exhaustively. Whenever possible, references to more comprehensive discussion of specific topics

are included.

Natural Language Processing with Flair Tadej Magajna,2022-04-29 Learn how to solve practical NLP problems with the Flair Python framework, train sequence labeling models, work with text classifiers and word embeddings, and much more through hands-on practical exercises
Key Features
Backed by the community and written by an NLP expert
Get an understanding of basic NLP problems and terminology
Solve real-world NLP problems with Flair with the help of practical hands-on exercises
Book Description
Flair is an easy-to-understand natural language processing (NLP) framework designed to facilitate training and distribution of state-of-the-art NLP models for named entity recognition, part-of-speech tagging, and text classification. Flair is also a text embedding library for combining different types of embeddings, such as document embeddings, Transformer embeddings, and the proposed Flair embeddings. Natural Language Processing with Flair takes a hands-on approach to explaining and solving real-world NLP problems. You'll begin by installing Flair and learning about the basic NLP concepts and terminology. You will explore Flair's extensive features, such as sequence tagging, text classification, and word embeddings, through practical exercises. As you advance, you will train your own sequence labeling and text classification models and learn how to use hyperparameter tuning in order to choose the right training parameters. You will learn about the idea behind one-shot and few-shot learning through a novel text classification technique TARS. Finally, you will solve several real-world NLP problems through hands-on exercises, as well as learn how to deploy Flair models to production. By the end of this Flair book, you'll have developed a thorough understanding of typical NLP problems and you'll be able to solve them with Flair. What you will learn
Gain an understanding of core NLP terminology and concepts
Get to grips with the capabilities of the Flair NLP framework
Find out how to use Flair's state-of-the-art pre-built models
Build custom sequence labeling models, embeddings, and classifiers
Learn about a novel text classification technique called TARS
Discover how to build applications with Flair and how to deploy them to production
Who this book is for
This Flair NLP book is for anyone who wants to learn about NLP through one of the most beginner-friendly, yet powerful Python NLP libraries out there. Software engineering students, developers, data scientists, and anyone who is transitioning into NLP and is interested in learning about practical approaches to solving problems with Flair will find this book useful. The book, however, is not recommended for readers aiming to get an in-depth theoretical understanding of the mathematics behind NLP. Beginner-level knowledge of Python programming is required to get the most out of this book.

Animal Andrology Peter J Chenoweth,Steven Lorton,2014-04-30 Understanding animal andrology is fundamental to optimising

genetic breeding traits in domestic and wild animals. This book provides extensive coverage of male reproductive biology, discussing the essentials of sperm production, harvest and preservation before covering the applications to a range of animals including cattle, horses, pigs, small ruminants, camelids, cats and dogs, poultry and exotic species. It also examines the laboratory procedures that provide the basis of general fertility research.

Yemaya Raven Morgaine, 2021 Yemaya, Queen of the Sea, first emerged in Yorubaland (now in modern Nigeria). A primordial deity, considered the Mother of All, some perceive her to be at the root of numerous ancient goddesses, including Isis. During the Middle Passage, Yemaya accompanied her enslaved devotees to the Western Hemisphere, and through her associations with the Virgin Mary, devotion to Yemaya spread throughout Latin America. Cuban immigrants brought Yemaya with them to the US. No longer a local water spirit, she became an internationally beloved goddess, whose devotees derive from numerous traditions and who worship her in her many fluid forms. Yemaya currently ranks among the most beloved goddesses worldwide--

Five Years of an Enlarged EU Filip Keereman, Istvan Szekely, 2010-07-23 The Fifth Enlargement that took place in 2004 and 2007 was a milestone in the history of the European Union. Not only because of the large number of acceding countries but also because of their recent political and economic experience. Ten of them had undergone a profound transition from a totalitarian regime to democracy, and from a centrally planned economy to a market-based system. Most of them had income levels significantly below those of the then EU-15. Now, 6 years later, we can clearly see that the process of European integration, both before and after 2004, was what enabled Europe to overcome the gaps between various parts of the continent. The enlargement made Europe a better and wealthier place and strengthened its position in the world. Integration into the European Union has always been one of the strongest incentives for reform in the new Member States. Particularly important in my view have been the development of financial markets through foreign direct investment and capital inflows, and the opening of labour markets – which was a two-way phenomenon, with markets being opened up in acceding as well as the incumbent Member States. The Fifth Enlargement was thus an exercise of globalisation in miniature, a practice run for the Union to tackle the challenges of the ever smaller world.

Recent Advances in Mechanical Engineering Ivan Tolj, M. V. Reddy, Achmad Syaifudin, 2022-08-18 The book presents the select proceedings of 5th International Conference on Mechanical Engineering (ICOME). ICOME is a series of international conference in mechanical engineering held every two years in Indonesia. The covered topics include aerodynamics and fluid mechanics, air conditioning and cooling system, turbomachinery and alternative fuels, modeling, simulation and optimization, thermodynamics and heat transfer, and combustion system. This book also covers material engineering, composite materials, biomaterials, fatigue and fracture, corrosion, tribology, and biomechanics. Given the contents, the book is useful for students, researchers, and professionals in the area of mechanical engineering and materials.
