But that's just the beginning of a journey that will see the "high-functioning" autistic actuary enmeshed in the schemes of a greedy televangelist, romancing a pepper-spray-wielding manicurist, and sitting down to a poker game with the Devil where the stakes include his immortal soul. Angry Robots John Logsdon,Christopher Young,2015-06-13 A group of antiquated robots have decided that they've had enough of being treated like second-class citizens. Working together, they take over the sewage plant on Segnal Prime and start pumping the sludge back up into the buildings.Seeing that this is bordering on a terrorist-level attack, Platoon F is sent in to regain control of the situation.Captain Don Harr and his team of misfit androids (the special operations unit in the Segnal Space Marine Corps known as Platoon F), along with a snot-nosed political liaison who has no military training whatsoever, must traverse the underground tunnel systems, take on dog-sized sewer rats, and wrestle control of the plant back while trying to maintain a semblance of sanity as they slosh through loads of crap.Sometimes it's abundantly clear what the F in Platoon F truly means.

Full Immersion Gemma Amor, 2022-09-13 A traumatised woman with amnesia finds her own dead body and sets out to uncover the truth of her demise in a race against time, sanity, crumbling realities and the ever-present threat of the Silhouette. --- What can you do when you're reeling from trauma but you've tried it all? Counselling, yoga, pills, meditation, art, healthy living... none of it makes a dent. What's left? Magpie is out of ideas. She's desperate enough to try anything. Just when she thinks her life can get no worse, she discovers herself, or rather her own dead body, partially buried in the mudbank of a river. A man stands by, a familiar stranger. What does he want? And why can't she remember getting here? Why can't she remember anything? Unbeknownst to her, two pairs of eyes watch from behind an observation screen, in a room filled with computers and sensors. An experiment is unfolding, but is Magpie the subject, or practitioner? Reality becomes a slippery concept. And beyond the glass is something worse still: a hint of an outline, shaped in darkness... Magpie realises all too soon that her journey has transformed from healing to survival. She must become the hunter rather than the hunted, with her missing memories the prey. In turn brutal, beautiful and absolutely terrifying, *Full Immersion* is the latest speculative horror from Bram Stoker Award-nominated author, Gemma Amor. The Light Years R.W.W. Greene, 2020-02-11 A long-lost battleship and an arranged marriage may hold the key to faster-than-light travel and humanity's future in R.W.W. Greene's debut *The Light Years*. Hisako Saski was born with her life already mapped out. In exchange for an education, better housing for her family, and a boost out of poverty, she's been contracted into an arranged marriage to Adem Sadiq, a maintenance engineer and amateur musician who works and lives aboard his family's sub-light freighter, the Hajj. Hisako is not happy with the deal. The arcane branch of physics it requires her to study broke off a thousand years before, and she is not keen on the idea of giving up everything she knows to marry a stranger and move onto an aging spaceship. Onboard the Hajj, Hisako soon learns her dilemmas are overshadowed by the discovery of ancient secrets, a derelict warship, and a chance at giving the survivors of Earth a fresh start. Not that its colourful residents know anything about the real New York... until detective Rad Bradley makes a discovery that will change the lives of all its inhabitants. The Village at the Edge of Noon Darya Bobyleva, 2023-07-25 What if summer never ends? --- Everything you were afraid to find out about the heat of noon and grandma's old tales comes together in this English language debut of an award-winning and bestselling young Russian writer. The residents of a village outside Moscow wake up to discover that the road out to the motorway has disappeared without a trace and the usual paths into the woods somehow lead back into the village. And the woods? Overnight their weedy and rubbish-strewn copse has become a dark and overgrown forest inhabited by something mysterious and unfriendly. Anyone who makes it into the trees either vanishes into thin air or returns, not quite themselves... And, of course, the Internet, radio and TV have stopped working and the weather never changes. And time seems to loop seamlessly from one crop of apples and cabbages into the next. There are strange noises, and strange visitations. The villagers are plagued by odd thoughts and desires, and quiet but pervasive voices call from the river. Objects mutate; phones and radios emit strange mutterings; people disappear. What begins as a one-sided manifestation of the weird, becomes weirder still as the villagers split into factions and odd alliances with the new neighbours are formed. Meanwhile the forest looms closer every day. Is Katya, a solitary young woman, the only one beginning to glimpse what is going on? Translated by Ilona Chavasse

Bluebird Ciel Pierlot, 2022-02-08 Three factions vie for control of the galaxy. Rig, a gunslinging, thieving, rebel-with-a-cause, doesn't give a damn about them and she hasn't looked back since abandoning them three years ago. That is, until her former faction sends her a message: return what she stole from them, or her twin sister will die. Rig embarks on a journey across the galaxy to save her – but for once she's not alone. She has help from her network of resistance contacts, her taser-wielding librarian girlfriend, and a mysterious bounty hunter. If Rig fails, trillions of lives will be lost – including her sister's. But if she succeeds, she might just pull the whole damn system down around their ears. Either way, she's going to do it with Panache and Pizzazz. Zoe and Robot Ryan Sias, 2011 A young girl tries to teach her robot how to pretend. Presented in comic book style.

The Age Atomic Adam Christopher, 2013 The Empire State is dying. The Fissure connecting the pocket universe to New York has vanished. Meanwhile, in 1954 New York, Nimrod finds his department subsumed by a new group, Atoms For Peace. As Rad uncovers a new threat to his city,

Atoms For Peace prepare their army for a transdimensional invasion.

Slights Kaaron Warren, 2009 A 'Wasp Factory' for the misery memoir generation. Stephanie is a killer. After an accident in which her mother dies, she has a near-death experience, and finds herself in a room full of people - everyone she's ever slighted. They clutch at her, scratch and tear at her. But she finds herself drawn back to this place, again and again, determined to unlock its secrets. Which means she has to die, again and again. And she starts to wonder whether other people see the same room when they die. SLIGHTS is a deeply intense, disturbing read. The misery memoir craze of the last few years has overshadowed genre fiction's impact with (allegedly) real-life experiences. Now it's time for horror and fantasy fiction to fight back.
