

Animal Chatter

Alice Banks

Animal Chatter Patricia Hopkins, 2017-07-19 This is a poetry book that includes twenty-four short poems about animals. Each poem is four to five stanzas long. In most of the poems, the animals themselves are doing the talking. Most of the animals have a problem that needs to be solved. A humorous twist at the end of most of the poems solves the problem. The poems were created for memorization by first graders. After memorizing the poems, the children would create a suitable costume, stand before a microphone, and recite the poem to their parents and classmates for an end-of-the-year program. Animals included are zoo animals, farm animals, and even a spider and a fly. The book should appeal to younger children too.

Positive Aspects of Animal Welfare Silvana Mattiello, 2020-04-15 Comfort during resting, half-closed eyes when feeding on highly palatable feed, or vigorous tail wagging when being brushed are some of the positive indicators that can be used to evaluate the quality of the environment in which domestic animals live. This has been a radical shift from the past as, until now, the welfare assessment on farms has meant assessing negative indicators, namely the number of lame animals, presence of lesions, or frequency of agonistic behaviours. However, the latest research confirms that the absence of a problem or of suffering does not necessarily imply that the animals are experiencing a good life and that their level of welfare is high. To guarantee high welfare standards, animals should experience positive conditions that allow them to live a "life worth living", and positive indicators are needed to identify these conditions. This Special Issue focuses on the development and validation of indicators of positive welfare or on the refinement of the existing ones, as well as on the identification of suitable living conditions for providing positive welfare to farmed and companion animals.
