Policies to Address Poverty in America Melissa Kearney, Benjamin Harris, 2014-06-19 One-in-seven adults and one-in-five children in the United States live in poverty. Individuals and families living in poverty— not only lack basic, material necessities, but they are also disproportionately afflicted by many social and economic challenges. Some of these challenges include the increased possibility of an unstable home situation, inadequate education opportunities at all levels, and a high chance of crime and victimization. Given this growing social, economic, and political concern, The Hamilton Project at Brookings asked academic experts to develop policy proposals confronting the various challenges of America's poorest citizens, and to introduce innovative approaches to addressing poverty. When combined, the scope and impact of these proposals has the potential to vastly improve the lives of the poor. The resulting 14 policy memos are included in The Hamilton Project's Policies to Address Poverty in America. The main areas of focus include promoting early childhood development, supporting disadvantaged youth, building worker skills, and improving safety net and work support.

Death Zones and Darling Spies Beverly Deepe Kever, 2020-02-17 Chosen for 2015 One Book One Nebraska In 1961, equipped with a master's degree from famed Columbia Journalism School and letters of introduction to Associated Press bureau chiefs in Asia, twenty-six-year-old Beverly Deepe set off on a trip around the world. Allotting just two weeks to South Vietnam, she was still there seven years later, having then earned the distinction of being the longest-serving American correspondent covering the Vietnam War and garnering a Pulitzer Prize nomination. In *Death Zones and Darling Spies*, Beverly Deepe Kever describes what it was like for a farm girl from Nebraska to find herself halfway around the world, trying to make sense of one of the nation's bloodiest and bitterest wars. She arrived in Saigon as Vietnam's war entered a new phase and American helicopter units and provincial advisers were unpacking. She tells of traveling from her Saigon apartment to jungles where Wild West-styled forts first dotted Vietnam's borders and where, seven years later, they fell like dominoes from communist-led attacks. In 1965 she braved elephant grass with American combat units armed with unparalleled technology to observe their valor--and their inability to distinguish friendly farmers from hide-and-seek guerrillas. Kever's trove of tissue-thin memos to editors, along with published and unpublished dispatches for New York and London media, provide the reader with you-are-there descriptions of Buddhist demonstrations and turning-point coups as well as phony ones. Two Vietnamese interpreters, self-described as darling spies, helped her decode Vietnam's shadow world and subterranean war. These memoirs, at once personal and panoramic, chronicle the horrors of war and a rise and decline of American power and prestige.

Monetary Conditions for Economic Recovery C. van Ewijk, J. J. Klant, 2012-12-06 An international symposium on Monetary Conditions for Economic Recovery was organised in Amsterdam from 14-16 November 1984 by the Department of Macroeconomics, Faculty of Economics of the University of Amsterdam, to honour its distinguished member, Professor G. A. Kessler, who had recently retired from his Chair of Monetary Economics. Experts on monetary theory and monetary policy from various parts of the world took part in the discussions on both the theoretical and practical aspects of the theme. The papers have been collected in this volume. Our debts in organizing the symposium and preparing this volume for publication are many. The symposium was financed through the support of a number of sponsors whose names have been listed on the next page. The Netherlands Bank accommodated the conference sessions. The organizing Committee owes much to the successful efforts of its members Jean Morreau, Casper van Ewijk and Annette Deckers. We are grateful to the President of the Netherlands Bank for his introductory speech on the work of Professor Kessler, which is included in this volume. Wouter Zant assisted in editing the volume for publication.
