Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

100 Birds and How They Got Their Names Diana Wells,2001-10-30 How did cranes

come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in *The Ancient Mariner* to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its bad moral character, (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means unmarried, are called bachelor birds because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into *100 Birds* and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

Honeymoon with My Brother Franz Wisner, 2006-02-07 After being jilted by his fiancée, Wisner undertakes a remarkable journey to 60 countries, during which he turns his heartbreak into an opportunity to learn about himself, the world, and the brother he hardly knew.

The Panama Canal and Commerce Emory Richard Johnson, 1916

Angels and Demons in Art Rosa Giorgi, 2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

Hunting Ducks Hines Lambert, 2013-01-15 Duck hunters love spending time in the great outdoors. They have played a key role in wildlife and habitat preservation for decades. This great book introduces the new generation to duck hunting. Subjects covered include duck calls, duck stamps, decoys, camouflage, shotguns, boats, and blinds. The role of hunting dogs is explained and tips on hunting with a dog are offered, too.

Arizona Warplanes Harold A. Skaarup,2010-04-02 This aviation handbook is designed to be used as a quick reference to the classic military heritage aircraft that have been restored and preserved in the state of Arizona. The aircraft include those flown by members of the United States Air Force, the United States Navy, the United States Army, the United States Marine Corps, the United States Coast Guard, the Air and Army National Guard, and by various NATO and allied nations as well as a number previously operated by opposition forces in peace and war. The interested reader will find useful information and a few technical details on most of the military aircraft that have been in service with active flying squadrons both at home and overseas. 100 selected photographs have been included to illustrate a few of the major examples in addition to the serial numbers assigned to American military aircraft. For those who like to actually see the aircraft concerned, aviation museum locations, addresses and contact phone numbers have been included, along with a list of aircraft held in each museum's current inventory or on display as gate guardians throughout the State of Arizona. The aircraft presented in this edition are listed alphabetically by manufacturer, number and type. Although many of Arizona's heritage warplanes have completely disappeared, a few have been carefully collected, restored and preserved, and some have even been restored to flying condition. This guide-book should help you to find and view Arizona's Warplane survivors.

The Biblically Defined Process That Brings Fear of the Enemy Into A Person's Life
Rachel Little Dove,2009-03-16 This is Volume Two of The WAR ON FEAR Series. In this book, you will find out what the Bible says about how FEAR originated with mankind. And,

you will also see God's foundational solution to FEAR found in the Scriptures. This book was written because we want you learn how to become free from the operation of fear in your life. God Bless you!

Nanook of the North from 1922 to Today Roswitha Skare, 2016 This study takes as its point of departure the changes Robert Flaherty's *Nanook of the North* underwent from its premiere, to the sound version of 1948, the film's restoration in the 1970s, and later editions on VHS and DVD.

Remote Sensing Robert A. Schowengerdt, 2012-12-02 This book is a completely updated, greatly expanded version of the previously successful volume by the author. The Second Edition includes new results and data, and discusses a unified framework and rationale for designing and evaluating image processing algorithms. Written from the viewpoint that image processing supports remote sensing science, this book describes physical models for remote sensing phenomenology and sensors and how they contribute to models for remote-sensing data. The text then presents image processing techniques and interprets them in terms of these models. Spectral, spatial, and geometric models are used to introduce advanced image processing techniques such as hyperspectral image analysis, fusion of multisensor images, and digital elevation model extraction from stereo imagery. The material is suited for graduate level engineering, physical and natural science courses, or practicing remote sensing scientists. Each chapter is enhanced by student exercises designed to stimulate an understanding of the material. Over 300 figures are produced specifically for this book, and numerous tables provide a rich bibliography of the research literature.

Javanese Grammar for Students Stuart O. Robson, 2014 This is the third, revised edition of Stuart Robson's highly successful guide to the grammar of the Javanese language, which is spoken by around 80,000,000 speakers on the island of Java. The book progresses from simple to more complex topics, facilitating a steady increase in language proficiency. Fresh examples have been added, as well as a section entitled How Do You Say It In Javanese? arranged under 120 headwords and taking the viewpoint of speakers of English wanting an equivalent to an English idiom. There is an introduction and a note on the language levels of Javanese, important for social interaction. The book will be of interest to students of Indonesian studies who want a deeper knowledge of communication on the island of Java, researchers considering fieldwork in Java, linguists making comparative studies of Indonesian languages, and outsiders undertaking employment in Java. [Subject: Language, Linguistics, Indonesian Studies]

Classroom Instruction and Management Richard Arends, 1997 Classroom Instruction and Management not only helps students develop a basic repertoire of teaching models, strategies, and skills but helps them to understand their theoretical and empirical foundations and shows them how to study these behaviors in field-based settings. Key features of this exciting new text include the following: content coverage, research focus, practical guidelines, end-of-chapter activities, and strategy instruction.

Boas and Pythons of the World Mark O'Shea, 2011 Renowned snake expert Mark O'Shea takes readers on an exciting continent-by-continent journey to look at these snakes in their native habitats. Stunning color photographs and intriguing stories from O'Shea's encounters with these snakes in the wild bring these reptiles to life -- from cover.

Kill the Radio Dorothea Rosa Herliany, 2007 In a strongly patriarchal society in which the norms of feminine subordination are sanctified by the strictures of religion, the rage and aggression of Dorothea Herliany's poems is remarkable. This collection introduces the work of one of Indonesia's most significant writers.
