

Apple Daily Honkong

Anthony Ying-Him Fung

Hong Kong Media Chi Kit Chan, Gary Tang, Francis L. F. Lee, 2022-08-11 This book explores the challenges to news professionalism and media autonomy stemming from the state, market pressure, the digitalization of communication, and a polarized civil society in Hong Kong. China is tightening its control over post-handover Hong Kong, which includes press freedom. Harsh market competition, coupled with shifting readership from mainstream media to digital platforms, is squeezing the business viability of media organizations. The polarization of civil society in post-handover Hong Kong had degraded consensual values upon which news professionalism relies. Journalists have had to reorient news professionalism and media power in the midst of state-society tension, market pressure, and the shifting communication mode driven by digitalization. These are the key questions for Hong Kong media. This dynamic intervention will be of interest to journalists, scholars of civil society, and scholars of Asian politics.

Hong Kong Protest Leaders - Sick facts that Western countries do not know Selina Co, 2020-08-01 A terrible example of democratic movements: when a fight for democracy is just an excuse for riots and anti-government movements ... Hong Kong protest activists have been proactively contacting foreign governments and foreign press, telling them how righteous they are and why their governments are wrong. But why have they not received the majority's supports from the locals? Award-winning author, Selina Co, is a Hong Kong citizen (dual citizen) and is native in Cantonese (Hong Kong's spoken language) and fluent in English and Mandarin. Selina has interviewed Hongkongers from all walks of life and translated protest activists' videos, statistics, local newspapers and verified reports to English, showing protest activists' misconducts,

misleading actions, lies, misbehaviours and how undemocratic protest leaders have been. Sources are presented to you wherever possible so that you can verify them. Most of these have never been presented to foreign governments or foreign press. Being currently in Australia, Selina can speak freely and present facts, without interference by China or by protesters and have no conflict of interests from either side. This book also tells you about its history and problems the people face, from the society before the riots, how the society was like after it returned to China, back to the time when it was a British colony in the 1990s and how it was colonised in 1841. We will also look into accusations against the Hong Kong police in 2019-20 political unrest. We will also discuss different aspects of Hong Kong politics, such as elections of the Chief Executive and members of the legislative council, pro-protest politicians and pro-government politicians, accusations against the governments and self-proclaimed pro-democracy leader Joshua Wong and other protest leaders and why independence would bring more harms than benefits to the people. Perhaps, you will find that this historical 'democratic movement' is just a scam ... P.S. This book has nothing to do with cybercrime. Selina only happens to be a cybercrime detective, graduated from a top university there. ** This book is written for the best interest of the people. It has no intention to support or oppose Communist China. From the Author The lady in the front cover is the iconic Goddess of Democracy, frequently used in pro-democratic movements in the region, including the 1989 Tiananmen Square incident. Her tears of blood here represent that her values and righteous are distorted and misused. From the Inside Flap After 2047, Hong Kong will follow Communist China, as the Sino-British Joint Declaration will no longer be in effect. Aren't these rioters

too young to be policemen? Also, policemen must look at least slightly muscular because they are physically trained. What do you say? This had made multiple headlines in many Hong Kong local newspapers; but for the foreign press, only BBC had briefly reported this instance as a side story, not even mentioned she called her own employer and government 'Re-f***ing' of CH-INA in her oath as per her video

Crisis and Transformation in China's Hong Kong Ming K. Chan, Alvin Y. So, 2016-07-08 Hong Kong has undergone sweeping transformation since its return to Chinese sovereignty in 1997. This is a multidisciplinary assessment of the new regime and key issues, challenges, crises and opportunities confronting the Hong Kong Special Administrative Region (HKSAR).

Media Power in Hong Kong Charles Chi-wai Cheung, 2016-02-12 Studies of Hong Kong media primarily examine whether China will crush Hong Kong's media freedom. This book however traces the root problem of Hong Kong media back to the colonial era, demonstrating that before the resumption of Chinese sovereignty there already existed a uniquely Hong Kong brand of hyper-marketized and oligopolistic media system. The system, encouraged by the British colonial government, was subsequently aggravated by the Chinese government. This peculiar system is highly susceptible to state intervention and structurally disadvantaged dissent and marginal groups before and after 1997. The book stresses that this hyper-marketized media system has been constantly challenged. Through a historical study of media stigmatization of youth, this book proposes that over the years various counter forces have penetrated the structurally lopsided Hong Kong media: independent, public, popular and news media all make occasional subversive alliances to disrupt the

mainstream, and news media, with a strong liberal professionalism, provide the most subversive space for challenging cultural hegemony. The book offers an alternative and fascinating account of the dynamics between hegemonic closure and day-to-day resistance in Hong Kong media in both the colonial and post-colonial eras, arguing that the Hong Kong case generates important insights for understanding ideological struggles in capitalist media.

Media and Politics in Post-Handover Hong Kong

Joseph M. Chan, Francis L.F. Lee, 2013-10-18 The world was watching Hong Kong as its sovereignty was returned to China in 1997. Many predicted that it was the doomsday of press freedom in the city. Now, a decade after the handover, this book provides an up-to-date review of the dynamic relationship between media and political power in the post-handover years. It covers seven key issues including the mapping of the changing boundaries of press freedom, the impact of media ownership change on editorial stance, the development of national and hybrid identities, the tension between self-censorship and media professionalism, the rising importance of government public relations, the power and limits of hegemonic discourse, and the countervailing force posed by collective actions and public opinion. These studies combine to reveal how the media are transformed as power structure is reconfigured and how the media may act upon politics in exerting their roles as the people's voice. The book will serve as a reference for anyone who is interested in the evolution of political communication in a transitional society.

Global Media Spectacle Chin-Chuan Lee, Joseph Man Chan, Zhongdang Pan, Clement Y K So, 2012-02-01 Focusing on the global media coverage of Hong Kong's transfer from Britain to China, *Global Media Spectacle* explores how the

world media plan, operate, compete, and produce a historical record during significant global events. The authors interviewed seventy-six print and television reporters from the United States, Britain, the People's Republic of China, Hong Kong, Taiwan, Australia, Canada, and Japan to delve into the revealing world of writing first drafts of history from reporters' vantage points. Punctuated with witty and incisive examples, the book provides a useful description of contestation and alliance, themes and variations, and convergence and divergence between and within various blocs of nations.

The Troublemaker Mark L. Clifford, 2024-12-03 The astonishing story of the billionaire businessman Jimmy Lai who became one of Hong Kong's leading activists for democracy and is today China's most famous political prisoner. Jimmy Lai escaped mainland China when he was twelve years old, at the height of a famine that killed tens of millions. In Hong Kong, he hustled; no work was beneath him, and he often slept on a table in a clothing factory where he did odd jobs. At twenty-one, he was running a factory. By his mid-twenties, he owned one and was supplying sweaters and shirts to some of the biggest brands in the United States, from Polo to The Limited. His ideas about retail led him to create Giordano in 1981, and with it "fast fashion." A restless entrepreneur, as Giordano prepared to go public, he was thinking about a dining

concept that would disrupt Hong Kong's fast-food industry. But then came the Tiananmen Square democracy protest and the massacre of 1989. His reaction to the violence was to enter the media business to push China toward more freedoms. He started a magazine, *Next*, to advocate for democracy in Hong Kong. Then, just two years before the city was to return to Chinese control, he founded the *Apple Daily* newspaper. Its mix of bold graphics, gossip, local news, and opposition to the Chinese Communist Party was an immediate hit. For more than two decades, Lai used *Apple* and *Next* as part of a personal push for democracy—in weekly columns, at rallies and marches, and, memorably, sitting in front of a tent during the 2014 Occupy Central movement. Lai took his activism abroad, traveling frequently to Washington, where he was well known in Congress and in political circles. China reacted with fury in 2019 when he met with Vice President Mike Pence and Secretary of State Mike Pompeo. A draconian new security law came into effect in Hong Kong in mid-2020, effectively making free speech a crime and censorship a fact. Lai was its most important target. *Apple Daily* was raided on August 10, 2020. He was arrested and held without bail before being convicted of trumped-up charges ranging from lighting a candle (“incitement to riot”) to violating a clause in his company’s lease (“fraud”). At the end of 2023, a lengthy trial began alleging “collusion with foreign forces” and printing seditious materials. China’s most famous political prisoner has been in jail for more than 1,100 days and could spend the rest of his life there. The Troublemaker is his story.

Global Media Spectacle ,2002-01-01 Focusing on the global media coverage of Hong Kong's transfer from Britain to China, *Global Media Spectacle* explores how the world media plan, operate, compete, and produce a historical

record during significant global events.

The Evolving Landscape of Media and Communication in Hong Kong Yu Huang ,Yunya Song ,2019 Over the last twenty years Hong Kong society has witnessed dramatic change, and nowhere is this better reflected than in the realm of media and communications. Across the fields of journalism, public relations and advertising, we can see the changing trends in terms of audience consumption and interaction. From technological developments to the shift in audience participation, the expectations and functions of these professions have been greatly altered. While many of these changes are occurring worldwide, within Hong Kong the processes of change have been further complicated by recent social and political events. Through a selection of essays by field experts, this volume explores the evolution of media itself as well as the complex causes underlying these developments. It identifies not only the difficulties and opportunities for media professionals today, but also the evolving role of the audience.

Discursive Change in Hong Kong Jennifer Eagleton,2022-03-02 Discursive Change in Hong Kong is a comprehensive interdisciplinary study of socio-political and discursive change in Hong Kong since 1997. It provides a stimulating, politically well informed, and comprehensive “insider” account of media and official discourse on democracy and political change as part of “One Country, Two Systems.”

The Challenge of Hong Kong's Reintegration with China Ming K. Chan,1997-07-01 The seven essays in this volume address some of the critical issues underlining the process of Hong Kong's reintegration with China. In reviewing the drastic changes in Hong Kong since the mid-1980s, the authors provide multi-disciplinary perspectives to articulate

the major institutions and forces that shape the interaction between Beijing and Hong Kong and help to define the challenges ahead.

Talk Radio, the Mainstream Press, and Public Opinion in Hong Kong Francis L. F. Lee, 2014-07-01 Phone-in programs on public and commercial radio channels have been a staple of popular Hong Kong politics since the 1990s. In the absence of a fully democratic system, they have played an influential role in channeling and mediating public opinion. This work examines the phenomenon of talk radio in Hong Kong, using as its analytical framework the idea of remediation. It argues that the circulation and re-circulation of talk radio content through the mainstream media is crucial in explaining the medium's social prominence and influence. The process has not only widened the dissemination of talk radio content, but also established talk radio as a channel as well as a symbol for free political expression, giving it a role in shaping serious debate not seen in many other societies. Drawing on interviews with radio personnel, analysis of radio and newspaper content, and audience surveys, *Talk Radio* explores the vital and influential world of Hong Kong's phone-in programs. The book will be of interest to scholars of politics, media studies, and cultural studies both in Hong Kong and overseas. "This is the first comprehensive study on political radio phone-in talk shows that integrates analyses of the historical transformations of the genre, the conversational dynamics and the remediations of citizens' voices. Exceptionally rich in data, rigorous, and written in an accessible style, it contributes significantly to the fields of media studies, discourse analyses, public opinion and political communication." —Mats Ekström, Professor, Department of Journalism, Media and Communication, University of Gothenburg, Sweden "One of the most exciting

developments in Hong Kong is the rise of talk radio as an interface between the political and public spheres. As this new volume demonstrates, no one is more qualified to discuss this process than Francis L. F. Lee, one of the most original analysts of modern Hong Kong and its media landscape.” —Gary Rawnsley, author of *Political Communications and Democracy* and editor of *Routledge Handbook of Chinese Media* “A fascinating and extensively researched study of political opinion, the general public, and the mass media in Hong Kong.” —Jan Servaes, editor of *Sustainable Development and Green Communication: African and Asian Perspectives* and author of *Communication for Development: One World, Multiple Cultures*

Defying the Dragon Stephen Vines, 2024-03-31 'Defying the Dragon' tells a remarkable story of audacity: of how the people of Hong Kong challenged the PRC's authority, just as its president reached the height of his powers. Is Xi's China as unshakeable as it seems? What are its real interests in Hong Kong? Why are Beijing's time-honoured means of control no longer working there? And where does this leave Hongkongers themselves? Stephen Vines has lived in Hong Kong for over three decades. His book shrewdly unpacks the Hong Kong-China relationship and its wider significance—right up to the astonishing convergence of political turmoil and international crisis with Covid-19 and the 2020 crackdown. Vividly describing the uprising from street level, Vines explains how and why it unfolded, and its global repercussions. Now, the international community is reassessing relations with Beijing, just as Hong Kong's rebellion and China's handling of the pandemic have exposed the regime's weakness. In a crisis that has become existential all round, what lies ahead for Hong Kong, China and the world?

Propaganda, Media, and Nationalism in Mainland China and Hong Kong Luwei Rose Luqiu, 2018-10-15 This book presents a conceptual discussion of propaganda and the nature of media in China and Hong Kong. It looks at two case studies of Chinese media control including the presentation of Taiwan, Xinjiang, and Tibet and the misrepresentation of the pro-democracy movement in Hong Kong.

Today Hong Kong, Tomorrow the World Mark L. Clifford, 2022-02-01 A gripping history of China's deteriorating relationship with Hong Kong, and its implications for the rest of the world. For the 150 years that Hong Kong was a British colony, people, money and technology flowed freely, while Hong Kong residents enjoyed freedoms that simply did not exist in mainland China. When the territory was handed over to China in 1997, the Communist Party promised that Hong Kong would remain highly autonomous for fifty years. Now, at the halfway mark, it is clear that China has not kept its word. Universal suffrage and free elections have not been instituted and activists have been jailed en masse following the decree of a sweeping national security law by Beijing. As China continues to expand its global influence, Hong Kong serves as a chilling preview of how dissenters could be treated in regions that fall under the emerging superpower's control. A Hong Kong resident from 1992 to 2021, Mark L. Clifford has witnessed this transformation first-hand and has unrivalled access to the full range of the city's society, from student protestors to billionaire businessmen and senior government officials. A powerful and dramatic mix of history and on-the-ground reporting, *Today Hong Kong, Tomorrow the World* is the definitive account of one of the most important geopolitical standoffs of our time.

A Free Press, If You Can Keep It Giovanna Maria Dora Dore, Arya D. McCarthy, James A. Scharf, 2023-05-11 This Brief introduces a novel research approach to investigate freedom of the press in Hong Kong. The authors pair computational analyses from the field of natural language processing with qualitative content analysis of patterns of journalistic practice in volatile political settings. Together, these shed light on the evolution of press freedom in Hong Kong since its return to Chinese sovereignty. Providing an interdisciplinary perspective, the Brief will appeal to a wide range of readers with interests in computational social science, public policy, political sciences as well as policy-makers, think tanks, and practitioners who focus on the China-Hong Kong nexus.

The Dynamics of Political Economy Anthony Ying-Him Fung, 1998

Two Systems, Two Countries Kevin Carrico, 2022-05-10 As Hong Kong is integrated into the People's Republic of China, ever fewer people in the city identify as Chinese. *Two Systems, Two Countries* explains why. *Two Systems, Two Countries* traces the origins of Hong Kong nationalism and introduces readers to its main schools of thought: city-state theory, self-determination, independence, and returnism. The idea of Hong Kong independence, Kevin Carrico shows, is more than just a provocation testing Beijing's red lines: it represents a collective awakening to the failure of One Country Two Systems and the need to transcend obsolete orthodoxies. With a conclusion that examines Hong Kong nationalism's influence on the 2019 protest movement, *Two Systems, Two Countries* is an engaging and accessible introduction to the tumultuous shifts in Hong Kong politics and identity over the past decade.

Covering the 2019 Hong Kong Protests Luwei Rose

Luqiu,2021-09-11 This book explores the impact of governmental, institutional, and individual factors on journalists covering protests, using the 2019 Hong Kong Anti-Extradition Bill Movement as a case study. The discussion surveys the challenges frontline journalists have faced while covering protests that unfolded in complex and rapidly evolving geopolitical contexts and media ecologies. Complementing this is an analysis of the Chinese government's efforts to suppress social movements by curtailing press freedom to silence criticism of the government and keep information about the protest efforts from the public. Separate chapters explore these issues from the perspectives of the citizen journalists, student journalists, and independent journalists who have played key roles in the most recent social movements in Hong Kong. It concludes with a look at the future of press freedom in the city after the passage of the National Security Law.
