Tafsir Ishraq Al-Ma'an SYED IQBAL ZAHEER,2008-06-03 About The Book With the revival of interest in Islam in our times, the Qur'an is also being read increasingly, especially by the intellectuals: Muslims and non-Muslims alike. However, and although its message and central theme have been stated in unambiguous terms, its translation fails to impart the same meaning with the same effect. Additionally, the Qur'an deals with every subject of human concern and gives guidelines for application to life and society. This increases its scope widely, and requires on the part of the reader's knowledge of various disciplines for proper appreciation of its message. It is specially important to know how the Qur'an was understood by those who received it first: Prophet Muhammad (SAW), on whom be Allah's peace, and his immediate followers. Second in order of interest and importance would be to know how the scholars of Islam have understood it in every age.

Fundamentals of Human Physiology Stuart Ira Fox,2009 Fundamentals of Human Physiology was conceived to meet the needs of students and professors struggling with the complexity and depth of the larger, more detailed human physiology textbooks currently available. In addition to being more concise and focusing on the basics of human physiology, this text is smaller in physical size, allowing for a cheaper, easier choice for instructors.

Bacteriophages Renos Savva,2020-02-19 Bacteriophages are viruses that utilise bacterial cells as factories for their own propagation and as safe havens for their genomic material. They are capable of equipping bacteria with properties that bestow environmental advantages. They are also capable of specifically and efficiently killing bacteria.Bacteriophages are resilient in a wide diversity of environments, presumed to be as ancient as life itself, and are estimated to be the most numerous biological entities on the planet. Their overarching capacity to survive via molecular adaptation is supported by an arsenal of encoded enzymatic tools, which also enabled biotechnology. This volume includes contributions that describe bacteriophages as nanomachines, genetic engineers, and also as medicines and technologies of the future, including relevant production and process issues.

Surviving the Machine Age Kevin LaGrandeur,James J. Hughes,2017-03-15 This book examines the current state of the technologically-caused unemployed, and attempts to answer the question of how to proceed into an era beyond technological unemployment. Beginning with an overview of the most salient issues, the experts collected in this work present their own novel visions of the future and offer suggestions for adapting to a more symbiotic economic relationship with AI. These suggestions include different modes of dealing with education, aging workers, government policies, and the machines themselves. Ultimately, they lay out a whole new approach to economics, one in which we learn to merge with and adapt to our increasingly intelligent creations.

The Two Telugu States after demerger: Different Political & Economic

Contours Janardhan Reddy Janumpalli,2023-12-18 The real strengths of TS & A P revealed after demerger The demerger of the united Andhra Pradesh was a long drawn political imbroglio. The merger was not recommended by SRC and Telangana people did not want it. Andhra state becoming unviable after their peremptory separation from Madras state in 1953 had merged with the well to do Telangana in 1956 with the help of central government,with some guarantees to Telangana. Then with their majority, they usurped all the political power to make use of Telangana revenue and its other resources . For, Andhra region revenue income was always less than its expenditure. To make good their deficit, Telangana revenue was used perennially, making less expenditure in Telangana than its due. Congress though conceded Telangana state under duress, has granted several sops to

Andhra, as if it was the sufferer. Poor Telangana which was the victim of exploitation was to satisfy with its bare minimum state. Yet, residual A P has lamented with victimhood, injustice and developing Telangana with their own resources etc. Andhra had deficit from 1953 to 1956. It has a balanced budget in the united state from 1956 to 2014, as it was made good with the siphoning of revenue from Telangana. In 2014-15, immediately after demerger, it has registered a big deficit of around Rs.12000 cr exposing its legacy of inherent economic weakness. A P also has got about Rs. 52000 cr deficit grant from two Financial Commissions from 2015 to 2026. Yet the A P finances continued to be precarious year after year. Telangana using its suppressed economic strength surged ahead climbing to the top rung of the economic status of the states in India. Andhra, using Telangana revenue neglected increasing its State Own Tax Revenue (SOTR), is now exposed of its concealed economic weakness. A P has a SOTR of about 50 % in its total revenues, while TS has more than 70 %, as against 46% of national average. That reveals the real economic strength of both the states after the demerger. It amply vindicates Telangana claims and proves wrong the false premises of Andhra.
