**Key Competences in Physics Teaching and Learning** Tomasz Greczyło,Ewa Dębowska,2016-09-22 This book presents a selection of the best contributions to GIREP EPEC 2015, the Conference of the International Research Group on Physics Teaching (GIREP) and the European Physical Society's Physics Education Division (EPS PED). It introduces readers interested in the field to the problem of identifying strategies and tools to improve physics teaching and learning so as to convey Key Competences and help students acquire them. The main topic of the conference was Key Competences (KC) in physics teaching and learning in the form of knowledge, skills and attitudes that are fundamental for every member of society. Given the role of physics as a field strongly connected not only to digital competence but also to several other Key Competences, this conference provided a forum for in-depth discussions of related issues.

Classic Beadweaving Ann Benson,2004 [This] beautiful book turns craft into wearable art. Using black-and-white diagrams to clarify procedures, [Benson] introduces two types of beadwork: needle weaving, in which beads are threaded together; and card stitching, in which beads are sewn directly onto a backing of lightweight cardboard or construction paper....More than 40 gorgeous projects. A splendid book.--Booklist. A visual feast.--Shuttle, Spindle & Dyepot. Ann Benson, one of America's foremost bead artisans, offers an array of eye-catching projects for beaded jewelry and accessories, all created from the surprisingly simple technique of beadweaving and showcased in gorgeous full-page photographs. The patterns and instructions for 50 of her most spectacular pieces use two basic methods: needleweaving, a style similar to crocheting, and bead card stitching, in which beads are sewn directly onto a patterned card. Ranging in style from Southwestern to Far Eastern, and Art Deco to Victorian, the projects include shimmering topaz earrings, a richly patterned Oriental carpet purse, a delicate ribbon pin, an exquisite purple floral belt, and much more. Every project highlights the beads' exciting colors, shapes, sizes, and textures.

**Brave Love** Lisa Leonard,2023-10-03 Women today feel pressure to be the best wife, mom, and professional possible--often at the expense of their own identity. But what if you could experience deep peace--knowing you are loved right now, just as you are? In *Brave Love*, the founder of the multimillion-dollar company Lisa Leonard Designs inspires women to find themselves again amidst the noise and competing demands of real life. This paperback edition includes a new foreword written by Stephen Leonard, exclusive discussion questions for personal reflection, and a Q&A between Lisa and Steve. *Brave Love* is about what it means to be human, how it feels to be broken and afraid, and what happens when we dare to love deeply. Join Lisa on a journey where you will discover you are worthy and lovable just as you are. You don't have to try harder or be better. You don't have to prove yourself, and you don't have to make others okay. In this freedom you will find more peace and more joy. Most importantly, you will learn that as you stop trying to be everything to everyone, you will love others better. Lisa Leonard shares her story of finding truth and wholeness in the midst of life's competing demands. When she said her marriage vows, she was determined to be the best wife she could be. When her first son was born with a severe disability, Lisa promised herself she would always be the mother he needed. When she began her jewelry business, Lisa committed to giving it her all. Over the years, the exhaustion of trying to be the perfect wife, mother, and businesswoman took its toll. Lisa knew it wasn't working. She wanted to change things, but how? Everyone depended on her. So she kept going, kept pushing, kept trying to prove she could do it all. Until one evening, in tears and desperation, Lisa realized that she could no longer be everything to everyone. Somewhere along the way, she had lost herself. In *Brave Love*, Lisa shares her story of losing--and finding--her own voice in the clamor of family, career, and internal pressure to prove herself.

**Involution & Evolution** Joss Sheldon,2014-08-28 It's not easy to make a stand for peace, when you live in a world which is besotted with war... This is the story of Alfred Freeman, a boy who does everything he can; to serve humankind. He feeds five-thousand youths, salves-saves-and-soothes; and champions the maligned. He helps paralytics to feel fine, turns water into wine; and gives sight to the blind. When World War One draws near, his nation is plunged into fear; and so Alfred makes a stand. He opposes the war and calls for peace, disobeys the police; and speaks out across the land. He makes speeches, and he preaches; using statements which sound grand. But the authorities hit back, and launch a potent-attack; which is full of disgust-derision-and-disdain. Alfred is threatened with execution, and suffers from persecution; which leaves him writhing in pain. He struggles to survive, remain alive; keep cool and stay sane. 'Involution & Evolution' is a masterpiece of rhyme, with a message which echoes through time; and will get inside your head. With colourful-characters and poetic-flair, it is a scathing critique of modern-warfare; and all its gory-bloodshed. It's a novel which breaks new ground, is sure to astound; and really must be read! Probably the best epic-poem of the modern era, *Involution & Evolution* is fast-paced masterpiece that will touch your soul...

**Compound Remedies** Paula S. De Vos,2020-12-22 Winner, 2022 Edward Kremers Award *Compound Remedies* examines the equipment, books, and remedies of colonial Mexico City’s Herrera pharmacy–natural substances with known healing powers that formed part of the basis for modern-day healing traditions and home remedies in Mexico. Paula S. De Vos traces the evolution of the Galenic pharmaceutical tradition from its foundations in ancient Greece to the physician-philosophers of medieval Islamic empires and the Latin West and eventually through the Spanish Empire to Mexico, offering a global history of the transmission of these materials, knowledges, and techniques. Her detailed inventory of the Herrera pharmacy reveals the many layers of this tradition and how it developed over centuries, providing new perspectives and insight into the development of Western science and medicine: its varied origins, its engagement with and inclusion of multiple knowledge traditions, the ways in which these traditions moved and circulated in relation to imperialism, and its long-term continuities and dramatic transformations. De Vos ultimately reveals the great significance of pharmacy, and of artisanal pursuits more generally, as a cornerstone of ancient, medieval, and early modern epistemologies and philosophies of nature.
