The Fresh and Salt-Water Aquarium John George Wood,2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1868 edition. Excerpt: ... CHAPTER III. Fishes--continued. DR. GUNTHER very well observes, that no female with an elongated spine and yellow covering has ever been discovered, and that the slight variation in the habits of the Gemmeous and Sordid Dragonets is caused, not by any distinction of species, but by difference of age. The mature fish is quick in its habits, and likes moderately

deep water, while the immature specimens are brisk, active, and lively, darting off at any passing object which they may think suitable for food, and then returning to their resting-place, just like fly-catchers pursuing their prey. The Dragonets are mostly captured in trawl nets, and are frequently taken by shrimpers, though the capture of an adult male in a shrimp-net would be rather a rare occurrence. If the reader can secure a good specimen, let him make much of it, and not fail to preserve it when it succumbs to the fate that at one time or another befalls all inhabitants of an aquarium. In this group there exist so many peculiarities that it is difficult to describe them in their proper order. We will, however, begin with the structure from which they derive their name. They are among fish what the Snipe and Woodcock are to birds, their jaws being greatly lengthened and attenuated. But they differ from the Snipe in the fact that the jaws are united throughout their whole length, and have but a very small mouth at the extremity. This structure of the jaws and mouth is almost exactly...

The Ocean at Home Bernd Brunner,2005-05-12 The mysterious world beneath the ocean's surface has captivated man for centuries the Egyptians, Greeks, Romans, and ancient Chinese all kept fish in their homes for purposes other than the culinary. But it was not until the nineteenth-century invention of the aquarium that the deep was truly domesticated, offering the curiously inclined a chance to invent their very own exotic sea world within their own walls. In this fascinating history of the aquarium, Bernd Brunner traces the development of this most wonderful invention, giving insight into the cultural and social circumstances that accompanied its swift rise in popularity. Brunner tells a compelling story of obsession, beauty, discovery, and delight, from the aquarium's humble origins as a tool for scientific observation to the Victorian era's elaborately decorated containers of oceanic curiosity, to the great public aquaria of the twentieth century.

Technology promises to make our lives more productive. Indeed, some things are faster and easier than ever. Unfortunately, a lot of technology is designed for the task, not for the user. As a result, people are able to take more notes, yet understand less. Have you ever taken copious notes in a class or meeting using your computer only to realize afterwards you still didn't understand? Taking notes on paper forces you to synthesize rather than merely transcribe. Imagine you were wrongly accused of a crime and the world's most experienced court stenographer offered to represent you for free. Would you try to save a buck or shell out the money on an experienced attorney? The stenographer has heard as many court arguments, been in as many trials, listened to as many verdicts as most attorneys. However, their experience has primarily been that of transcription, not of comprehension and understanding. Because you desire comprehension and understanding rather than simple transcription, the Gold Aquarium Notebook is a must. Studies About Benefits of Paper Notebooks Don't just take my word, based on a study conducted at UCLA, the Association for Psychological Science indicated that taking notes by hand is better than taking notes on a laptop for remembering. Will you take advantage of this knowledge to gain an edge on your competition at school, work, or business? How will better understanding make things help you achieve your goals? Organize Your Life Get rid of little scraps of paper you use to capture inspirations and ideas, daily tasks, notes, and phone numbers. Use the Gold Aquarium Notebook to neatly organize your life.
