Social TV Cory Barker,2022-07-15 On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In Social TV: Multi-Screen Content and Ephemeral Culture, author Cory Barker reveals how the US television industry promised—but failed to deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, Social TV shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.

Saturday Millionaires Kristi Dosh,2013-07-31 Last year Football Bowl Subdivision college football programs produced over \$1 billion in net revenue. Record-breaking television contracts were announced. Despite the enormous revenue, college football is in upheaval. Schools are accused of throwing their academic mission aside to fund their football teams. The media and fans are beating the drum for athletes to be paid. And the conferences are being radically revised as schools search for TV money. Saturday Millionaires shows that schools are right to fund their football teams first; that athletes will never be paid like employees; how the media skews the financial facts; and why the TV deals are so important. It follows the money to the heart of college football and shows the real game being played, covering such areas as: Myth #1: All Athletic Departments Are Created Equal Myth #2: Supporting Football Means Degrading Academics Myth #3: College Football Players Could Be Paid Like Employees Myth #4: Football Coaches Are Overpaid Myth #5: A Playoff Will Bring Equality to College Football Myth #6: Only a Handful of Athletic Departments Are Self-Sustaining The business of college football is unlike any other business. Saturday Millionaires takes you behind the scenes and teaches you how to understand the industry from the inside out, touching on such subjects as conference realignment, pay-for-play, conference television networks and where all those millions go at the end of the day.
