Networked Insurgencies and Foreign Fighters in Eurasia Jean-Francois Ratelle, Laurence Broers, 2018-10-19 Recent wars in Eurasia have foregrounded the flows of foreign fighters between distinct insurgent battlefronts. Since 2011 thousands of individuals have travelled from the Caucasus and Central Asia to fight in Syria and Iraq. Caucasians have also appeared in the fighting that followed Ukraine's Euromaidan Revolution in 2014. Resolutions of these conflicts promise further movements as foreign fighters return home. This collection of articles presents for the first time in one volume a cross-regional comparative perspective on the trajectories of foreign fighters between the Caucasus, Central Asia, the Middle East and Ukraine. Drawing on extensive primary sources, contributors theorize the life cycles of foreign fighter waves and the respective roles played by pre-existing insurgent networks, transnational ideologies such as global jihad and Eurasianism, and propaganda framing by insurgent groups such as the Islamic State. They examine regional state responses to the security threat posed by foreign fighters, showing how current security governance regimes can reinforce insurgent ideologies attracting violent militants. Finally they investigate the motivations for foreign fighters to return to their home states in the Caucasus and Central Asia. Arguing for the networked character of insurgencies in Eurasia, this book offers a unique overview of the foreign fighter phenomenon across the continent. It was originally published as various special issues of *Caucasus Survey*, *Terrorism and Political Violence* and *Studies in Conflict & Terrorism*.

State Capture, Political Risks and International Business Johannes Leitner,Hannes Meissner,2016-11-25 In the OECD-area states provide security business to be conducted through a legal-institutional framework where state institutions, working in a legal-rational, predictable and effective manner, are often taken for granted. Worldwide, however the situation is very different. Private actors seize public institutions and processes accumulating ever more power and private wealth by systematically abusing, side-stepping, ignoring and tailoring formal institutions to fit their interests. Such forms of 'state capture' are associated with specific political risks international businesses are confronted with when operating in these countries, such as institutional ambiguity, systematic favouritism and systemic corruption. This edited volume covers state capture, political risks and international business from the perspectives of Political Science and International Business Studies. Uniting theoretical approaches and empirical insights, it examines Azerbaijan, Armenia, Georgia, Ukraine, Moldova, Romania, Bulgaria and Turkey. Each chapter deals with country specific forms of state capture and the associated political risks bridging the gap between political analysis and business related impacts.

**State and Legal Practice in the Caucasus** Stéphane Voell,Iwona Kaliszewska,2016-03-09 Legal pluralism and the experience of the state in the Caucasus are at the centre of this edited volume. This is a region affected by a multitude of legal orders and the book describes social action and governance in the light of this, and considers how conceptions of order are enforced, used, followed and staged in social networks and legal practice. Principally, how is the state perceived and how does it perform in both the North and South Caucasus? From elections in Dagestan and Armenia to uses of traditional law in Ingushetia and Georgia, from repression of journalism in Azerbaijan to the narrations of anti-corruption campaigns in Georgia - the text reflects the multifarious uses and performances of law and order. The collection includes approaches from different scholarly traditions and their respective theoretical background and therefore forms a unique product of multinational encounters. The volume will be a valuable resource for legal and political anthropologists, ethnohistorians and researchers and academics working in the areas of post-socialism and post-colonialism.

Frustrated Democracy in Post-Soviet Azerbaijan Audrey L. Altstadt, 2017-05-23 Frustrated Democracy in Post-Soviet Azerbaijan follows a newly independent oil-rich former Soviet republic as it adopts a Western model of democratic government and then turns toward corrupt authoritarianism. Audrey L. Altstadt begins with the Nagorno-Karabagh War (1988-1994) which triggered Azerbaijani nationalism and set the stage for the development of a democratic movement. Initially successful, this government soon succumbed to a coup. Western oil companies arrived and money flowed in—a quantity Altstadt calls almost unimaginable—causing the regime to resort to repression to maintain its power. Despite Azerbaijan's long tradition of secularism, political Islam emerged as an attractive alternative for those frustrated with the stifled democratic opposition and the lack of critique of the West's continued political interference. Altstadt's work draws on instances of censorship in the Azerbaijani press, research by embedded experts and nongovernmental and international organizations, and interviews with diplomats and businesspeople. The book is an essential companion to her earlier works, *The Azerbaijani Turks: Power and Identity Under Russian Rule* and *The Politics of Culture in Soviet Azerbaijan, 1920-1940*.

**Critical Approaches to Security in Central Asia** Edward Lemon, 2020-05-21 Central Asia remains on the periphery, both spatially and in people's imaginations. When the region does attract international attention, it is often related to security issues, including terrorism, ethnic conflict and drug trafficking. This book brings together leading specialists from a range of disciplines including geography, anthropology, sociology and political science to discuss how citizens and governments within Central Asia think about and practise security. The authors explore how governments use fears of instability to bolster their rule, and how securitized populations cope with (and resist) being labelled threats through strategies that are rarely associated with security, including marriage and changing their appearance. This collection examines a wide range of security issues including Islamic

extremism, small arms, interethnic relations and border regions. While coverage of the region often departs from preconceived notions of the region as dangerous, obscure and volatile, the chapters in this book all place emphasis on the way local people understand security and harmony in their daily lives. This book will be of interest to students and researchers of Central Asian Studies as well as Security Studies and Political Science. The chapters were originally published in the journal Central Asian Survey.

**The Informal Post-Socialist Economy** Jeremy Morris, Abel Polese, 2013-12-13 From smugglers to entrepreneurs, blue-collar workers and taxi drivers, this book deals with the multitude of characters engaged in informal economic practices in the former socialist regions. Going beyond a conception of informality as opposed to the formal sector, its authors demonstrate the fluid nature of informal transactions straddling the crossroads between illegal, illicit, socially acceptable and symbolically meaningful practices. Their argument is informed by a wide range of case studies, from Central Europe to the Baltics and Central Asia, each of which is constructed around a single informant. Each chapter narrates the story of a composite person or household that was carefully selected or constructed by an author with long-standing ethnographic research experience in the given field site. Wide in geographical, empirical and theoretical scope, the book uses ethnographic narrative accounts of everyday life to make links between 'ordinary' meanings of informality. Challenging reductively economic perspectives on cross-border trading, undeclared work and other informal activities, the authors illustrate the wide variety of interpretive meanings that people ascribe to such practices. Alongside 'getting by' and 'getting ahead' in recently marketised societies, these meanings relate to sociality, kinship-ties and solidarity, along with more surprising 'political' and moral reasonings.
