Black Families Harold E. Cheatham,James B. Stewart,2017-10-19 The condition and characteristics of the black family have been subjects of intense debate since at least the 1960s, when the Moynihan Report and the culture of poverty theses held sway. Since then a consistent theme has been that black families are pathological. Despite the fact that research has been inconclusive and contradictory, political debate and policy have been strongly influenced by the pathology theme. This volume presents alternative approaches toward understanding the special characteristics of black families. Extending a special issue of The Review of Black Political Economy, the book focuses on the economic circumstances and decision making of these families, employing Interdisciplinary and cross-cultural perspectives. It examines the general responses of black families to various external factors such as economic systems, and to Internal factors such as interpersonal relationships. This compendium of current thinking and research will be of interest to professionals in a number of fields, Including family studies, counseling, social work, psychology, and sociology. It will be of practical use in training programs for service delivery systems

Interested In Incorporating multicultural perspectives, as well as those specifically interested in black families today.

The Epistle of Salim Ibn Dhakwan Salim Ibn Dhakwan, 2001-03-15 The epistle ascribed to Salim Ibn Dhakwan is a tract against 'wrong' doctrines regarding the classification and treatment of opponents. Written by an Ibadi before AD 800 and taking issue with both Kharijite extremists and Murji'ites, it was brought to the attention of Western Islamicists in the early 1970s by Amr Khalifa Ennami, and is here edited, translated, and discussed in full for the first time. The early centuries of Islamic religious thought have become a dynamic field in the last few years, and there is renewed interest in the attempt to use the early literature of the Muslim sects as windows onto the wider scene of doctrinal discussion in the period before the mainstream tradition becomes plentiful. In addition to making available a new source, this study seeks to open up the Ibadi tradition for future research on early Islamic thought, partly by making heavy use of Ibadi sources in its interpretation of Salim's epistle and by partly by offering systematic information about the Ibadi figures and literary works involved in the appendices and bibliography.
