175 Years of Persecution Fereyduun Vahman,2019-02-21 For almost two centuries, followers of the Baha'i faith, Iran's largest religious minority, have been persecuted by the state. They have been made scapegoats for the nation's ills, branded enemies of Islam and denounced as foreign agents. Since the Islamic Revolution of 1979 Baha'is have been barred from entering the nation's universities, more than two hundred have been executed, and hundreds more imprisoned and tortured. Now, however, Iran is at a turning point. A new generation has begun to question how the Baha'is have been portrayed by the government and the clergy, and called for them to be given equal rights as fellow citizens. In documenting, for the first time, the plight of this religious community in Iran since its inception, Fereyduun Vahman also reveals the greater plight of a nation aspiring to develop a modern identity built on respect for diversity rather than hatred and self-deception.

Congenital Hip Disease in Adults George Hartofilakidis,George C. Babis,Kalliopi Lampropoulou-Adamidou,2013-12-11 Congenital hip disease (CHD) is the main cause of secondary osteoarthritis (OA) of the hip in young adults, which accounts for almost 40% of all cases of hip OA. Total hip replacement (THR) performed using optimal techniques can achieve a radical improvement in the quality of life of adult patients. This book offers in-depth coverage of all aspects of CHD in adults and its treatment. Relevant information is first provided on the basic anatomy of the hip and OA of the hip and on the classification, epidemiology, and natural history of CHD. The now limited role of femoral and pelvic osteotomies is carefully evaluated, and the use of THR is then considered in detail. Indications and preoperative planning are discussed, and the available operative techniques, analyzed. Clear guidance is provided on overcoming major technical difficulties, and the benefits of particular approaches and techniques are highlighted. More than 180 images and numerous case studies complement this reader-friendly text. The book will be an invaluable tool for orthopedic surgeons, rheumatologists and radiologists. □

German Foreign Policy and Greek Martyr Communities Charalampos Babis Karpouchtsis,2024-05-23 The Euro crisis of 2008 had a deep impact on German-Greek relations. The exchange of blows in media, and amongst politicians created a deep divide and made old wounds visible - wounds that lie in the Occupation of Greece by Nazi Germany and its fascist allies during World War 2. In 2014 German foreign policy towards Greece shifted to include reconciliatory measures, marking the beginning of Germany's foreign policy of reconciliation. One area of focus is memory culture and the Greek martyr communities, meaning villages and towns that experienced extreme violence, destruction, and executions. Diving into these places of terror and memory, the book analyzes German foreign policy of reconciliation while providing a profound view onto history, diplomacy, and the widely unknown Greek memory landscape. It entails a thorough review of German-Greek relations, more than seven unique maps and 10 case studies, accompanied by photographs and over 35 interviews. It shows how foreign policy, conflict and reconciliation intertwine and how international affairs meet the local level of everyday citizens.

Sun, Moon and Goldilocks, a Fairy Tale from Medieval Greece Babis Pylarinos,2012-05-11 The myths of ancient Greece hold world-wide acclaim. The myths of the Byzantine and medieval times, however, as well as the ones of the last few centuries, remain relatively unknown. With this publication, Greek Myths Editions aim to acquaint the English speaking reader with the Greek fairy tales which have appeared in the broader region of Greece from ancient times till now. Babis Pylarinos' exemplary illustrations, influenced by the Byzantine, medieval and naif tradition help children to become acquainted not only with the world of myths itself but with the history of Greek painting over the last two thousand years as well. In this first volume, Goldhair dreams of becoming Queen, while the King dreams of battles; Goldhair dreams of young princes, but despises evil mother-in-laws. A fairy tale about the true fairies of the world: Love, trust, devotion, beauty and fertility. A fairy tale in which, apart from the King's marriage to the Queen, central to the plot are the importance of retaining a sense of decency (despite poverty), and the struggle against evil and deception.

Case Studies in Service Innovation Linda A. Macaulay,Ian Miles,Jennifer Wilby,Yin Leng Tan,Liping Zhao,Babis Theodoulidis,2012-05-02 Case Studies in Service Innovation provides the reader fresh insight into how innovation occurs in practice, and stimulates learning from one context to another. The volume brings together contributions from researchers and practitioners in a celebration of achievements with the intention of adding to the wider understanding of how service innovation develops. Each case presents a brief description of the context in which the innovation occurred, the opportunity that led to the innovation and an overview of the innovation itself, also addressing how success was measured, what success has been achieved to date and providing links to further information. The book is organized around five major themes, each reflecting recognized sources of service innovation: Business Model Innovation: new ways of creating, delivering or capturing economic, social, environmental and other types of value; The Organization in its Environment: an organization engaging beyond its

own boundaries, with public private partnerships, sourcing knowledge externally, innovation networks, and open or distributed innovation; Innovation Management within an Organization: an organization actively encouraging innovation within its own boundaries using project teams, internal governance of innovation, and methods or tools that stimulate innovation; Process Innovation: changes in service design and delivery processes, such as consumer led innovation or consumers as part of the innovation process, service operations management, and educational processes; Technology Innovation: the use of technology, including ICT enabled innovation, ICTs that are themselves innovative and support the delivery of new services, new ICT services, new ways of delivering services associated with ICT products, and technology other than ICT. The final part of the book is given to four extended cases allowing for a more in-depth treatment of innovation within a complex service system. The extended cases also illustrate two important and growing trends, firstly the need for, and benefits of, a more customer centric approach to service innovation and secondly the need for better understanding of public services and the role of public-private partnerships in identifying and achieving innovation.

Re: Constitutions Beka Feathers,2021-08-03 The next volume in the World Citizen Comics series, Re: Constitutions explains the role constitutions play in how government is structured and provides context for the modern issues that arise from these documents. Marcus is stumped by a summer assignment: to write an essay on what it means to be a citizen. He's surprised to hear from people in his community that constitutions play an important role when it comes to citizenship—they can even affect whether you feel like you belong in your country or not. From a Kosovo Albanian neighbor to a Rwandan exchange student, and even in his own family history, Marcus discovers stories of how constitutions—including the U.S. Constitution—shape the political landscape and our daily lives.

From Beka Feathers, an expert in post-conflict institution building, and Kasia Babis, an accomplished political cartoonist, comes a graphic novel that gives context to the modern issues that arise from constitutions. With historical examples from all over the world, *Re: Constitutions* examines how this essential document defines a nation's identity and the rights of its citizens. This book is part of the World Citizen Comics series, a bold line of civics-focused graphic novels that equip readers to be engaged citizens and informed voters.
