Trees Make the Best Mobiles Jessica Teich,Brandel France de Bravo,2007-04-01 Books like Simplify Your Life and Don't Sweat the Small Stuff have encouraged millions of readers to slow down and enjoy life more. Now, Jessica Teich and Brandel France de Bravo help new parents- who barely have time to return a phone call or wash a sock- learn to do less, listen more, and spend focused, fruitful time with their children. Practical and fun to read, Trees Make the Best Mobiles urges parents to treat every task-even diapering and feeding-as a chance to connect with their child, and gives calming advice about hot-button issues from pacifier use to temper tantrums. Parents will be relieved to discover that they don't have to buy lots of stuff-a tree outside a baby's window can serve as a mobile-or shuttle kids from one activity to another. In fact, in today's hectic, high-speed world, children need less stimulation and more unhurried interaction with the people who matter most. The authors call their approach present parenting, because they believe being present in the moment, without resentment or distraction, is the greatest present any parent can give.

Why Can't I Have a Cell Phone? Teddy Behr,2019-05-31 Ten percent of book proceeds will be donated to St. Jude Children's Research Hospital National Cancer Institute. Please help me get my message known. Parents should limit their child's use of a phone. Or better yet, restrict their time on the internet. Children must learn to express themselves, each in their own way. And be encouraged to use their imagination again, today. This may appear to be an insignificant rhyming scheme. But the reality is children cannot take their eyes off that glowing screen. There are two crucial questions: At what age should a child get a smartphone? Do smartphone and social media addiction begin at an early age? Does your child: Withdraw from family, preferring to be on the phone? Get angry or disturbed when the phone is not available? Are school, daily chores, and activities affected by excessive phone use? Are there changes in mood, eating habits, and sleep? Simple fixes: Educate your children on cell phone use. Make a plan to limit their time on the phone. Monitor who your children communicate with. Establish no-phone zones . For children ages 4 - 8 This is a cute story about Anderson the aardvark who is always begging his father for a cell phone. He is so excited when he finally gets one for his birthday. How does he handle this new responsibility?. How do Anderson and his family deal with his growing addiction to social media? I am betting, this book will be of value in a classroom setting. It's an important topic, I'm sure you will agree. It also includes a book discussion page and coloring section for free. In my writings, I take pride. This book would be great as a children's guide. Take a look, you decide. With wit and humor, these stories aim to influence children in positive ways. They learn the importance of basic common decency and moral behavior. Through fun-filled adventures, the characters encourage more personal interaction with family and friends rather than a dependency on social media. Help these brave children at St. Jude. When to Get My Kid a Phone Drew Hill,2020-09-07 Determining when to get your child a smartphone is a complicated yet critical decision. Parents today are facing new challenges as technology and our children’s access to it gives rise to new worries and concerns. Thoughtful parents wonder how to steward technology well and protect their children from potential pitfalls. When is the right time to give your child access to such powerful tools? Pastor and author Drew Hill encourages parents that instead of being controlled by fear and forbidding access to all electronic devices, moms and dads can use this question to propel them into deeper relationships with their children. As they navigate important questions of teaching responsibility and guarding against potential dangers, parents are invited to view phone usage as a gradual training process much like their child learning to drive a car. Ultimately, this journey of shepherding a child’s personal phone usage is a picture of the overall goal of parenting–prayerfully preparing to one day release children into the adult world and trust that they have a good forever Father watching over them.

Your First Phone Rodrigo Magdaluyo,2014-11-02 You've got a daughter or son and you're about to give them their first phone, because that's what parents do! But do they know the dangers of taking inappropriate pictures (or the illegality of forwarding inappropriate pictures other kids have sent to them)? Do they know that apps can track their location, and that in-app purchases can really add up? Do they know you expect to have their passwords, not because you don't trust THEM, but because you don't trust the billions of other people who use the Internet? Written from a father to his child, this simple guide is a primer for all children getting their first phone. It's meant to be an easy read and a discussion starter between parents and the children they love.
