Fat Cat Art Svetlana Petrova,2015-09-15 “It’s official. That thing that classic art has been missing is a chubby reclining kitty.” —The Huffington Post Internet meme meets classical art in Svetlana Petrova’s brilliant Fat Cat Art. Featuring her twenty-two-pound, ginger-colored cat Zarathustra superimposed onto some of the greatest artworks of all time, Petrova’s paintings are an Internet sensation. Now fans will have the ultimate full-color collection of her work, including several never-before-seen pieces, to savor for themselves or to give as a gift to fellow cat lovers. From competing with Venus’s sexy reclining pose (and almost knocking her off her chaise lounge in the

process) in Titian's Venus of Urbino, to exhibiting complete disdain as he skirts away from God's pointing finger in Michelangelo's Creation of Adam, Zarathustra single-handedly rewrites art history in the way that only an adorable fat cat can.

The Oxford Handbook of the Human Essence John F. Dovidio, Martijn van Zomeren, 2017-11-08
What is the human essence? Although typically viewed as one of the big questions in philosophy, exploring the human essence requires a deep and comprehensive understanding of the human condition and thus social psychological perspectives are pivotal. Advances in social-psychological theorizing and research suggest that humans can be viewed as biological beings as well as cultural creatures, rational reasoners as well as emotional enigmas, moral minds as well as amoral agents. In this volume, talented scholars come together to present a fascinating array of insight into such topics ranging from evolutionary approaches to social constructivist accounts that essentially deny the existence of a human essence altogether. As such, this volume showcases the various shades of human essence that social psychology has discovered. Through these novel chapters, edited by Martijn van Zomeren and John F. Dovidio, *The Oxford Handbook of the Human Essence* expertly articulates both what social psychology can tell us about the human essence, and the astonishing range of perspectives reflected within this field. Consequently, this volume also raises important questions about the future of social psychology and the role of the notion of the human essence.

The story of how Florida’s panthers were saved from extinction is one that both deserves and needs to be told.” —Dane Huckelbridge The captivating tale of the Florida panther, its survival and rescue from extinction With novelistic detail and an eye for the absurd, Craig Pittman recounts the extraordinary story of the people who brought the panther back from the brink of extinction, the ones who nearly pushed the species over the edge, and the cats that were caught in the middle. This being Florida, there's more than a little weirdness, too.
