Voices from the Camps James M. Freeman, Nguyen Dinh Huu, 2011-07-01 Wave after wave of political and economic refugees poured out of Vietnam beginning in the late 1970s, overwhelming the resources available to receive them. Squalid conditions prevailed in detention centers and camps in Hong Kong and throughout Southeast Asia, where many refugees spent years languishing in poverty, neglect, and abuse while supposedly being protected by an international consortium of caregivers. Voices from the Camps tells the story of the most vulnerable of these refugees: children alone, either orphaned or separated from their families. Combining anthropology and social work with advocacy for unaccompanied children everywhere, James M. Freeman and Nguyen Dinh Huu present the voices and experiences of Vietnamese refugee children neglected and abused by the system intended to help them. Authorities in countries of first asylum, faced with thousands upon thousands of increasingly frightened, despairing, and angry people, needed to determine on a case-by-case basis whether they should be sent back to Vietnam or be certified as legitimate refugees and allowed to proceed to countries of resettlement. The international community, led by UNHCR, devised a well-intentioned screening system. Unfortunately, as Freeman and Nguyen demonstrate, it failed unaccompanied children. The hardships these children endured are disturbing, but more disturbing is the story of how the governments and agencies that set out to care for them eventually became the children♦s tormenters. When Vietnam, after years of refusing to readmit illegal emigrants, reversed its policy, the international community began doing everything it could to force them back to Vietnam. Cutting rations, closing schools, separating children from older relations and other caregivers, relocating them in order to destroy any sense of stability--the authorities employed coercion and effective abuse with distressing ease, all in the name of the ♦best interests♦ of the children. While some children eventually managed to construct a decent life in Vietnam or elsewhere, including the United States, all have been scarred by their refugee experience and most are still struggling with the legacy. Freeman and Nguyen♦s presentation and analysis of this sobering chapter in recent history is a cautionary tale and a call to action.

The War Before The War David Lee Corley, 2023-03-10 In 1951, the Indochina War rages between French imperialists and the Viet Minh rebels. After several victories, the French Army is dealt its first major defeat by Ho Chi Minh and his Viet Minh rebels. Cautious, China and Russia wait in the wings, watching America's resolve. Nobody wants World War III. With the French desperately short on troops, weapons, and aircraft, America must wrestle with how deeply to become involved in the growing conflict. Newly elected congressman and war hero, John F. Kennedy goes on a fact-finding mission throughout Southeast Asia. His goal – find the truth and prevent America from making a terrible mistake that could have irreparable consequences. Rene Granier, a former OSS Deer Team member and now a CIA officer, is asked to accompany JFK as his advisor and bodyguard. Granier is the only man alive that has fought alongside the Viet Minh and the French. Now both want his head as he goes back into the lion's den – Saigon. Risking his life to help Kennedy find the truth, Granier comes face to face with his past. Will those that once fought by his side now assassinate Granier and Kennedy to keep the truth buried and continue the war? Based on historical events and real people, The War Before the War is the true story of unbelievable courage, tenacity, and betrayal. It's captivating history that few know.

Vietnamese Home Cooking Charles Phan, 2012-09-25 In his eagerly awaited first cookbook, award-winning chef Charles Phan from San Francisco's Slanted Door restaurant introduces traditional Vietnamese cooking to home cooks by focusing on fundamental techniques and ingredients. When Charles Phan opened his now-legendary restaurant, The Slanted Door, in 1995, he introduced American diners to a new world of Vietnamese food: robustly flavored, subtly nuanced, authentic yet influenced by local ingredients, and, ultimately, entirely approachable. In this same spirit of tradition and innovation, Phan presents a landmark collection based on the premise that with an understanding of its central techniques and fundamental ingredients, Vietnamese home cooking can be as attainable and understandable as American, French, or Italian. With solid instruction and encouraging guidance, perfectly crispy imperial rolls, tender steamed dumplings, delicately flavored whole fish, and meaty lemongrass beef stew are all deliciously close at hand. Abundant photography detailing techniques and equipment, and vibrant shots taken on location in Vietnam, make for equal parts elucidation and inspiration. And with master recipes for stocks and sauces, a photographic guide to ingredients, and tips on choosing a wok and seasoning a clay pot, this definitive reference will finally secure Vietnamese food in the home cook's repertoire. Infused with the author's stories and experiences, from his early days as a refugee to his current culinary success, Vietnamese Home Cooking is a personal and accessible guide to real Vietnamese cuisine from one of its leading voices.

Following an introduction that highlights major changes that have unfolded in Vietnam over the past three decades, the volume is organized into four thematic parts: Politics and Society; Economy and Society; Social Life and Institutions; Cultures in Motion. Part I addresses key aspects of Vietnam's politics, from the role of the Communist Party of Vietnam in shaping the country's institutional evolution, to continuity and change in patterns of socio-political organization, political expression, state repression, diplomatic relations, and human rights. Part II assesses the transformation of Vietnam's economy, addressing patterns of economic growth, investment and trade, the role of the state in the economy, and other economic aspects of social life. Parts III and IV examine developments across a variety of social and cultural fields through chapters on themes including welfare, inequality, social policy, urbanization, the environment and society, gender,

ethnicity, the family, cuisine, art, mass media, and the politics of remembrance. Featuring 38 essays by leading Vietnam scholars from around the world, this book provides a cutting-edge analysis of Vietnam's transformation and changing engagement with the world. It is an invaluable interdisciplinary reference work that will be of interest to students and academics of Southeast Asian studies, as well as policymakers, analysts, and anyone wishing to learn more about contemporary Vietnam.

European Drawings 2 George R. Conservation of Wood Artifacts A. Unger,A.P. Schniewind,W. Unger,2013-03-09 The impetus for this book was the desire to systematically organize the extant literature on the conservation of cultural property made of wood, from its beginnings before the Christian Era to the year 2000. Various published reviews and monographs, including Holzkonservierung (Wood Conservation) published by the senior author in 1988, have appeared over the years, especially

in English and in German. They have provided exemplary treat merit of individual areas or aspects of wood conservation, but a comprehensive, up-to-date exposition of historic and current developments has been lacking. The diverse professional fields of the authors, as well as their insights into methods of conservation and restoration of wood artifacts in Europe, North America, and Asia provided a solid basis for the success of this undertaking. One of the goals during the examination of the literature was that not only well-known conservators and scientists from countries that are leaders in wood conservation should be represented, but that less well-known, often not as readily accessible contributions should also be included. Only in this manner was it possible to draw a comprehensive picture of the national and international state of wood conservation. The Art and Archaeology Technical Abstracts (AATA) of the Getty Institute were very helpful in our efforts to evaluate as many publications as possible.
