Shooting with Soul Alessandra Cave, 2013-12 This creative-driven book for aspirational photographers, artists, and bloggers offers unique and reflective prompts and exercises to improve your photography skills along with your creative self-expression.

Fashion and Beauty in the Time of Asia S. Heijin Lee, Christina H. Moon, Thuy Linh Nguyen Tu, 2019-06-03 How transnational modernity is taking shape in and in relation to Asia *Fashion and Beauty in the Time of Asia* considers the role of bodily aesthetics in the shaping of Asian modernities and the formation of the so-called "Asian Century." S. Heijin Lee, Christina H. Moon, and Thuy Linh Nguyen Tu train our eyes on sites as far-flung, varied, and intimate as Guangzhou and Los Angeles, Saigon and Seoul, New York and Toronto. They map the transregional connections, ever-evolving aspirations and sensibilities, and new worlds and life paths forged through engagements with fashion and beauty. Contributors consider American influence on plastic surgery in Korea, Vietnamese debates about "the fashionable," and the costs and commitments demanded of those who make and wear fast fashion, from Chinese garment workers to Nepalese nail

technicians in New York who are mandated to dress fashionably. In doing so, this interdisciplinary anthology moves beyond common characterizations of Asians and the Asian diaspora as simply abject laborers or frenzied consumers, analyzing who the modern Asian subject is now: what they wear and how they work, move, eat, and shop.

The Beauty of a Social Problem Walter Benn

Michaels,2015-07-13 Bertolt Brecht once worried that how we feel about the victims of a social problem can get in the way of the beauty and attraction of the problem itself. In this book,

Walter Benn Michaels explores the same dilemma through a study of several contemporary artist-photographers whose work speaks to questions of political economy. Michaels focuses on the work of several artists, mostly born in the 1970s and thus raised in a world where artistic ambition has been identified with a critique of autonomous form and of meaning as a function of intention. Michaels shows that these artists engage but also push beyond this critique of autonomy and intentionality, producing works that embody a new commitment to form and meaning. The explanation for this commitment, he argues, is these artists' consciousness of making art in an economy riven by structural conflict, especially an unprecedented rise in inequality. For them, he argues, the relationship of the art work to the world to its subject and to its beholder functions as an emblem of the relation between classes (rather than identities or subject positions). This book will join the short shelf of essential writings about the medium of photography.

and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
