Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

Building a WordPress Blog People Want to Read Scott McNulty, 2009-03-30 Having your own blog isn't just for the nerdy anymore. Today, it seems everyone – from multinational corporations to a neighbor up the street – has a blog. They all have one, in part, because the folks at WordPress make it easy to get one. But to actually build a good blog – to create a blog people want to read – takes thought, planning, and some effort. From picking a theme and using tags to choosing widgets and building a community, creating your blog really starts after you set it up. In this book by blogger extraordinaire Scott McNulty, you learn how to: Install and get your WordPress blog running. Set up your site to ensure it can easily grow with you and your readers. Be the master of user accounts. Manage your site with the WordPress Dashboard and extend its capabilities with plug-ins. Make the most of images. Work with pages, templates, and links and – of course – publish your posts. Deal with comments – if you even want readers commenting at all. Find a theme – or build one yourself. Maintain your site and fix common problems.

Dispatches from Blogistan Suzanne Stefanac, 2006-09-20 The term blog wasn't coined until 1999 and yet by 2004, it had become Merriam-

Webster's Word of the Year. Globally, the number of blogs is doubling every six months, with more than 50 million blogs online today. Here to offer a unique overview of the emerging phenomenon that even armchair observers will find curiosity-satisfying is *Dispatches from Blogistan: A Travel Guide for the Modern Blogger*. Filled with practical, easy-to-implement advice for making blogging more enjoyable, useful, and profitable, this book covers everything from blogging and how it fits into the history of journalism to practical tips for planning and managing a blog, attracting and retaining an active readership. Written by noted technology journalist and interactive media veteran Suzanne Stefanac, the book features a fresh and succinct approach; quotes and commentary from noted and celebrity bloggers (author/futurist Bruce Sterling, NPR commentator Farai Chideya, Craig Newmark of craigslist.com, and Cory Doctorow, Boing Boing editor and science fiction author, among others); an accompanying blog site (dispatchesfromblogistan.com); and more. Stefanac explores issues of trust, influence, privacy, discovery, and the power of collaborative discourse, making this is a blog book like no other!

Google Apps: The Missing Manual Nancy Conner, 2008-05-27 Among its many amazing applications, Google now has web-based alternatives to many of the applications in Microsoft Office. This comprehensive and easy-to-follow new book enables you to explore Google's new office applications in detail. Once you do, you'll be in good company -- more than 100,000 small businesses and some corporations are already looking to take advantage of these free Google offerings. *Google Apps: The Missing Manual* teaches you how to use three relatively new applications from Google: Docs and Spreadsheets, which provide many of the same core tools that you find in Word and Excel; and Google Calendar and Gmail, the applications that offer an alternative to Outlook. This book demonstrates how these applications together can ease your ability to collaborate with others, and allow you access to your documents, mail and appointments from any computer at any location. Of course, as remarkable as these applications are, Google's office suite is definitely a work-in-progress. Navigating what you can and can't do and -- more importantly -- understanding how to do it isn't always easy. And good luck finding enough help online. *Google Apps: The Missing Manual* is the one book you need to get the most out of this increasingly useful part of the Google empire. This book: Explains how to create, save and share each of Google's web-based office applications Offers separate sections for Docs and Spreadsheets, Google Calendar, and Gmail Demonstrates how to use these applications in conjunction with one another Gives you crystal-clear and jargon-free explanations that will satisfy users of all technical levels Many of you already use Gmail, but do you know its full potential? Do you know how you can increase its power by using Gmail with Docs and Spreadsheets and Google Calendar? You'll find out with *Google Apps: The Missing Manual*. You'll also come to understand why large corporations such as General Electric and Procter & Gamble are taking a long, hard look at these applications.

Thinking Strategically Craig Loehle, 1996-08-28 *Thinking Strategically* provides the necessary tools for dissecting complex problems and for creating innovative solutions.

Black Faces in White Places Randal Pinkett, Jeffrey Robinson, Philana Patterson, 2011 The first African-American winner of *The Apprentice* explains how black professionals can bust through racial barriers in order to climb the corporate ladder and reach their full potential.

Superconnect Richard Koch, Greg Lockwood, 2010-08-24 For readers of *Outliers* or *The Wisdom of Crowds* -- or internationally bestselling author Richard Koch's many followers -- this entertaining book draws on the latest in network science research to show how any of us can increase the chances of success in our personal and work lives. What's so special about the rich and famous? Unusually successful people often think they've done well because of their talent or luck -- or simple grit and hard work. But individual characteristics matter far less than the social connections we exploit. And counterintuitively, it's our weak links -- your neighbour's landscaper or that ad agency guy you happened to meet at your sister's birthday party last year -- that matter most of all. Drawing on research from the fields of sociology, math, and physics, internationally bestselling author and entrepreneur Richard Koch and his co-author Greg Lockwood show how networks impact our everyday lives. Rich with entertaining anecdotes and written in Richard Koch's trademark conversational style, *Superconnect* reveals the hidden patterns behind everyday events. Most importantly, it shows how any of us can increase the chances of happy outcomes in our own lives, careers, or businesses.

Kasey to the Rescue Ellen Rogers, 2010-11-02 This is a story of how miracles DO happen. How courage and a never-give-up spirit can emerge victorious. How an engaging little monkey helped change a family's life. Ellen Rogers considered herself something of a tragedy snob. The single mother of five believed she could weather any storm, that she could keep her family from harm with fortitude and grace. But nothing could have prepared her for the June 2005 car accident that left her son, Ned--then 22 years old--fighting for his life. Ellen refused to give in to despair. We'll get through this, she told herself. We have to. But love and determination can only go so far, and the road home was fraught with obstacles. Ellen and Ned took comfort in family and friends. And they prayed for a miracle. Miracles happen to those who believe, the saying goes, but who would have believed that one family's miracle would weigh in at five pounds sopping wet? Then Helping Hands: Monkey Helpers for the Disabled provided Ned with an affectionate and intelligent service animal with a steadfast devotion to hierarchy, a longing for spa days, and a craving for Gummi Bears. In other words, a diva. Life with Kasey was yet another challenge for this large and lively family, but they persevered as families do, and in time this wise and sensitive animal did

more than help Ned cope with his disabilities--she turned the simple tasks of life into a life worth living. Kasey's astonishing intelligence and compassion brought hope and laughter back to a family facing its greatest challenge, and helped them see the world in a new way.

OverSuccess Jim Rubens, James M. Rubens, 2008 Why are one in three American adults pervasively dissatisfied with their lives? Why is major depression seven times more likely among those born after 1970 than their grandparents? Why are one in four of us addicted to at least one substance or behavior? Why is America drowning in record personal and public debt? Why did over 100,000 people humiliate themselves this year auditioning for Fox's American Idol? Why are 80 percent of women unhappy with their bodies? What is it about contemporary America that connects the swelling incidence of depression, behavioral addictions, eating disorders, debt, materialism, sleep deprivation, family breakdown, rudeness, fame fixation, ethical collapse, mistrust, and monstrous acts of personal violence? Drawing from emerging science in several fields and insights about our transformed social lives, Rubens explains how genes, commercial culture, and global hyper-competition have locked tens of millions of Americans into an unwinnable success benchmarks race and unleashed an epidemic of status defeat. OverSuccess shows how and why the resulting social and psychological pathologies are different for baby boomers, men, and women. Offering hope for our future, Rubens outlines 20 ways that individuals, businesses, and voluntary organizations can satisfy the American drive for recognition and personal achievement without the toxic burdens of OverSuccess. These cures range from holding the door for strangers and somatic cell gene therapy, to responsible displays of wealth and building village-scale social and business organizations.

Google and the Myth of Universal Knowledge Ian Wilson, Jean Noel Jeanneney, Teresa Lavender Fagan, 2011-08-22 The recent announcement that Google would digitize the holdings of several major libraries sent shock waves through the book industry and academe. Google presented this digital repository as a first step towards a long - dreamed - of universal library, but skeptics were quick to raise a number of concerns about the potential for copyright infrin...

The Survival Imperative William E. Burrows, 2007-04-01 Using Space to Save Earth Veteran science journalist William E Burrows offers a bold new mission for the U.S. space program: to protect the Earth from the ever-growing number of perils that threaten our way of life – and even our very survival. We are living through one of the most dangerous times in human history. Nuclear, chemical, and biological weapons technology are proliferating, and missile technology is falling into more and more hands. Extreme natural disasters like hurricanes, floods, fires, and earthquakes, are becoming increasingly costly – not only in dollars, but in lives – as population expands. Environmental crises threaten to provoke massive famines and widespread social collapse. Asteroids the size of battleships streak within striking distance of the earth every year. One strategy offers the best hope of protecting us from all of these dangers – a revitalized national space program that coordinates efforts in global defense, in environmental protection, in communications, and in military security. The Survival Imperative offers an impassioned argument for this bold initiative. To demonstrate the urgency of his cause, Burrows presents a vivid scenario: an impact by a moderately large asteroid that triggers a series of nuclear exchanges, environmental devastation, and the slow disintegration of civilization. And he examines the existing space program from the heady days of the Moon landing through the political compromises that have characterized the history of NASA in the 35 years following our retreat from the Moon. Most of all, Burrows warns that the primary obstacle to achieving a true planetary defense program is not financial or scientific, but social—an unwillingness to acknowledge the urgency of the crisis, and to take the political risks needed to address it. The question, says Burrows, is not whether we can do it, but whether we will act before it's too late. Say Everything Scott Rosenberg, 2009-06-16 Blogs are everywhere. They have exposed truths and spread rumors. Made and lost fortunes. Brought couples together and torn them apart. Toppled cabinet members and sparked grassroots movements. Immediate, intimate, and influential, they have put the power of personal publishing into everyone's hands. Regularly dismissed as trivial and ephemeral, they have proved that they are here to stay. In Say Everything, Scott Rosenberg chronicles blogging's unplanned rise and improbable triumph, tracing its impact on politics, business, the media, and our personal lives. He offers close-ups of innovators such as Blogger founder Evan Williams, investigative journalist Josh Marshall, exhibitionist diarist Justin Hall, software visionary Dave Winer, mommyblogger Heather Armstrong, and many others. These blogging pioneers were the first to face new dilemmas that have become common in the era of Google and Facebook, and their stories offer vital insights and warnings as we navigate the future. How much of our lives should we reveal on the Web? Is anonymity a boon or a curse? Which voices can we trust? What does authenticity look like on a stage where millions are fighting for attention, yet most only write for a handful? And what happens to our culture now that everyone can say everything? Before blogs, it was easy to believe that the Web would grow up to be a clickable TV—slick, passive, mass-market. Instead, blogging brought the Web's native character into focus—convivial, expressive, democratic. Far from being pajama-clad loners, bloggers have become the curators of our collective experience, testing out their ideas in front of a crowd and linking people in ways that broadcasts can't match. Blogs have created a new kind of public sphere—one in which we can think out loud together. And now that we have begun, Rosenberg writes, it is impossible to imagine us stopping. In his first book, Dreaming in Code, Scott Rosenberg brilliantly explored the art of creating software (the first true successor to The Soul of a New

Machine, wrote James Fallows in The Atlantic). In Say Everything, Rosenberg brings the same perceptive eye to the blogosphere, capturing as no one else has the birth of a new medium.

When the World Calls Stanley Meisler,2012-02-07 When the World Calls is the first complete and balanced look at the Peace Corps’s first fifty years. Revelatory and candid, journalist Stanley Meisler’s engaging narrative exposes Washington infighting, presidential influence, and the Volunteers’ unique struggles abroad. He deftly unpacks the complicated history with sharp analysis and memorable anecdotes, taking readers on a global trek starting with the historic first contingent of Volunteers to Ghana on August 30, 1961. In the years since, in spite of setbacks, the ethos of the Peace Corps has endured, largely due to the perseverance of the 200,000 Volunteers themselves, whose shared commitment to effect positive global change has been a constant in one of our most complex—and valued—institutions.

Poems for Father Elizabeth Bonner Kea,2001-03 Original watercolor illustrations of nature accompany 30 poems about the enduring legacy of fathers. This gift book explores the significance of fathers, their special love, and the memories formed with them.

Why Men Won't Ask for Directions Richard C. Francis,2013-12-03 Much of the evolutionary biology that has grabbed headlines in recent years has sprung from the efforts of sociobiologists and evolutionary psychologists to explain sexual features and behavior—even differences between how men and women think--as evolutionary adaptations. They have looked to the forces of natural selection to explain everything from the mimicry of male mockingbirds to female orgasms among humans. In this controversial book, Richard Francis argues that the utility of this approach is greatly exaggerated. He proposes instead a powerful alternative rooted in the latest findings in evolutionary biology as well as research on the workings of our brains, genes, and hormones. Exploring various sexual phenomena, Francis exposes fundamental defects in sociobiology and evolutionary psychology, which he traces to their misguided emphasis on why questions at the expense of how questions. Francis contends that this preoccupation with why questions (such as, Why won't men ask for directions?) results in a paranoid mindset and distorted evolutionary explanations. His alternative framework entails a broader conception of what constitutes an evolutionary explanation, one in which both evolutionary history, as embodied in the tree of life, and developmental processes are brought to the foreground. This alternative framework is also better grounded in basic biology. Deeply learned, consistently persuasive, and always engaging, this book is a welcome antidote to simplistic sociobiological exegeses of animal and human behavior.

The Mirror Effect Drew Pinsky,Dr. S. Mark Young,2009-10-06 In the eye-opening New York Times bestseller, The Mirror Effect, widely respected addiction and behavior specialist and producer/host of Celebrity Rehab with Dr. Drew on VH1, Dr. Drew Pinsky takes a hard look at the profound changes blogging, tweeting, tabloids, and reality TV are having on the American way of life. An important wake up call for every parent, co-written with Dr. S. Mark Young, The Mirror Effect is a groundbreaking exploration of celebrity narcissism and how it is damaging our culture and our children.
