## *Down from the Attic* John T. Soister, Henry Nicolella,2016-06-22

Much has been written (and rewritten) about classic horror and science fiction films like *Nosferatu* and *Metropolis*, as well as not-so-classic pictures like *Bride of the Monster* and *The Hideous Sun Demon*. Yet some genre films have fallen through the cracks. The 24 films—some elusive, some easily found on YouTube—examined in this book all suffered critical neglect and were prematurely stacked in the attic. The authors bring them back into the light, beginning with *Der Tunnel* (1915), about the building of a transatlantic tunnel, and ending with *The Emperor's Baker—The Baker's Emperor* (1951), a bizarre Marxist take on the Golem legend. A variety of thrillers are covered—*Fog* (1933), *Return of the Terror* (1934), *Forgotten Faces* (1928)—along with such sci-fi leaps into the future as *The Sky Ranger* (1921), *High Treason* (1929) and *Just Imagine* (1930). Early adaptations include *The Man Who Laughs* (1921), *The Monkey's Paw* (1923),

Hound of the Baskervilles (1937) and Sweeney Todd (1928). Rare stills and background material are included in a discussion of Hispanic vintage horror. The career of exploitation auteur, Bud Pollard (The Horror, 1933) is examined.

From young prospects to veterans whose own hopes have faded, hear from AHL players on why today's minor league is no longer like Slap Shot, what playing three games in under 48 hours can do to a player, and why fighting „once a staple of the minors „ is on the decline. Learn about the game from coaches, alumni, and broadcasters, as well as AHL president Dave Andrews, who reveals how the AHL is becoming an even more important tool for NHL teams in the salary-cap era. Load your gear on the bus and take a tour around the many venues, personalities, pranks, and memories of the once-small AHL „an organization that now crosses the continent and is big business for players and owners.

A world linked by a virtual-reality network experiences the devastation, witnessing the death of civilization as we know it and the violent birth of an emergent global consciousness.

A Big Ship at the Edge of the Universe Alex White, 2018-06-26 A

crew of outcasts tries to find a legendary ship before it falls into the hands of those who would use it as a weapon in this science fiction adventure series for fans of *The Expanse* and *Firefly*. A washed-up treasure hunter, a hotshot racer, and a deadly secret society. They're all on a race against time to hunt down the greatest warship ever built. And treasure that valuable can never stay hidden for long. . .

*An Orc on the Wild Side* Tom Holt, 2019-09-10 *An Orc on the Wild Side* is the latest comic masterpiece from one of the funniest writers in fantasy. Winter is coming, so why not get away from it all? Being the Dark Lord and Prince of Evil is not as much fun as it sounds, particularly if you are a basically decent person. King Mordak is just such a person. Technically he's more goblin than person, but the point is that he is really keen to be a lot less despicable than his predecessors. Not that the other goblins appreciate Mordak's attempts to redefine the role. Why should they when his new healthcare program seems designed to actually extend life expectancy, and his efforts to end a perfectly reasonable war with the dwarves appear to have become an obsession? With confidence in his leadership crumbling, what Mordak desperately needs is a distraction. Perhaps some of these humans moving to the Realm in search of great homes at an affordable price will be able to help? *Splintered Suns* Michael Cobley, 2018-12-04 A speed of light space

adventure novel of a treasure hunt that could unlock all the wonders of a vast and advanced civilization's lost technologies. For Pyke and his crew it should have been just another heist. Travel to a backwater desert planet, break into a museum, steal a tracking device then use it to find a ship buried in the planet's vast and trackless sandy wastes. Except that the museum vault is a bio-engineered chamber, and the tracking device is sought-after by another gang of treasure hunters led by an old adversary of Pyke's, the devious Raven Kaligara. Also, the ship is quarter of a million years old and about two kilometres long and somewhere aboard it is the Essavyr Key, a relic to unlock all the treasures and technologies of a lost civilisation . . .
