Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Long Way Down Jason Reynolds, 2017-10-24 "An intense snapshot of the chain reaction caused by pulling a trigger." —Booklist (starred review) "Astonishing." —Kirkus Reviews (starred review) "A tour de force." —Publishers Weekly (starred review) A Newbery Honor Book A Coretta Scott King Honor Book A Printz Honor Book A Time Best YA Book of All Time (2021) A Los Angeles Times Book Prize Winner for Young Adult Literature Longlisted for the National Book Award for Young People's Literature Winner of the Walter Dean Myers Award An Edgar Award Winner for Best Young Adult Fiction Parents' Choice Gold Award Winner An Entertainment Weekly Best YA Book of 2017 A Vulture Best YA Book of 2017 A Buzzfeed Best YA Book of 2017 An ode to Put the Damn Guns Down, this is New York Times bestselling author Jason Reynolds's electrifying novel that takes place in sixty potent seconds—the time it takes a kid to decide whether or not he's going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, *Long Way Down* is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

Ballad of the Bullet Forrest Stuart, 2021-05-04 Drawing on two years of ethnographic fieldwork

and over 150 interviews with gang-affiliated youth in the Taylor Park neighborhood on Chicago's South Side, *Ballad of the Bullet* reveals that those coming of age in America's poorest neighborhoods are developing new, creative, and online strategies for making ends meet. Dislocated by the erosion of the crack economy and the splintering of corporatized gangs, these young people exploit the unique affordances of digital social media to capitalize on an emerging online market for urban violence (or, more accurately, a market for the representation of urban violence). In the past, violence functioned primarily as a means of social control, allowing urban youth to compete in illegal street markets and defend the social statuses otherwise denied to them by mainstream society. Today, with the rise of platforms like YouTube, Instagram, and Twitter, violence has become a premier cultural commodity in and of itself. By amassing millions of clicks, views, and followers, these young people convert their online displays of violence into vital offline resources, including cash, housing, drugs, sex, and, for a very select few, a ticket out of poverty --

Violent Ends Shaun David Hutchinson, Neal Shusterman, Brendan Shusterman, Beth Revis, Cynthia Leitich Smith, Courtney Summers, Kendare Blake, Delilah S. Dawson, Steve Brezenoff, Tom Leveen, Hannah Moskowitz, Blythe Woolston, Trish Doller, Mindi Scott, Margie Gelbwasser, Christine Johnson, E. M. Kokie, Elisa Nader, 2015-09 Relates how one boy--who had friends, enjoyed reading, playing saxophone in the band, and had never been in trouble before--became a monster capable of entering his high school with a loaded gun and firing on his classmates, as told from the viewpoints of several victims. Each perspective is written by a different writer of young adult fiction.

Mfecane Aftermath Carolyn Hamilton, Thomas Dowson, Elizabeth Eldredge, Norman Etherington, Jan-Bart Gewald, Simon Hall, Guy Hartley, Margaret Kinsman, Andrew Manson, John Omer-Cooper, Neil Parsons, Jeff Peires, Christopher Saunders, Alan Webster, John Wright, Dan Wylie, 1995-01-01 The idea that the period of social turbulence in the nineteenth century was a consequence of the emergence of the powerful Zulu kingdom under Shaka has been written about extensively as a central episode of southern African history. Considerable dynamic debate has focused on the idea that this period - the 'mfecane' - left much of the interior depopulated, thereby justifying white occupation. One view is that 'the time of troubles' owed more to the Delagoa Bay Slave trade and the demands of the labour-hungry Cape colonists than to Shaka's empire building. But is there sufficient evidence to support the argument? The *Mfecane Aftermath* investigates the very nature of historical debate and examines the uncertain foundations of much of the previous historiography.

Black God, Vol. 14 Dall-Young Lim, 2011-10-25 With Mana on board, Keita is outnumbered five girls to one guy in the modest Tokyo apartment. Although Mana has been welcomed in as part of the family, her disdain for humans and mototsumitama who ally with them is more than evident. A glimpse into the past reveals the cause: Mana's beloved older sister abandoned her right to clan leadership - and her little sister - to raise a family with the human she had fallen in love with. Can Mana set aside her resentment to help Kuro and Keita find and defeat the elusive Ghost?

Fierce Kingdom Gin Phillips,2017-07-25 One of the New York Times Book Review's Best Crime Novels of 2017 "Warning: you'll finish this in one sitting." —TheSkimm "Expertly made thriller . . . clever and irresistible." —The New York Times An electrifying novel about the primal and unyielding bond between a mother and her son, and the lengths she'll go to protect him. The zoo is nearly empty as Joan and her four-year-old son soak up the last few moments of playtime. They are happy, and the day has been close to perfect. But what Joan sees as she hustles her son toward the exit gate minutes before closing time sends her sprinting back into the zoo, her child in her arms. And for the next three hours—the entire scope of the novel—she keeps on running. Joan's intimate knowledge of her son and of the zoo itself—the hidden pathways and under-renovation exhibits, the best spots on the carousel and overstocked snack machines—is all that keeps them a step ahead of danger. A masterful thrill ride and an exploration of motherhood itself—from its tender moments of grace to its savage power—*Fierce Kingdom* asks where the boundary is between our animal instinct to survive and our human duty to protect one another. For whom should a mother risk her life?

The Challenge of Crime in a Free Society United States. President's Commission on Law Enforcement and Administration of Justice,1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

Outliers Malcolm Gladwell,2008-11-18 From the bestselling author of Blink and The Tipping Point, Malcolm Gladwell's Outliers: The Story of Success overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

Masters of Doom David Kushner,2003-04-24 Masters of Doom is the amazing true story of the Lennon and McCartney of video games: John Carmack and John Romero. Together, they ruled big business. They transformed popular culture. And they provoked a national controversy. More than anything, they lived a unique and rollicking American Dream, escaping the broken homes of their youth to co-create the most notoriously successful game franchises in history—Doom and Quake—until the games they made tore them apart. Americans spend more money on video games than on movie tickets. Masters of Doom is the first book to chronicle this industry's greatest story, written by one of the medium's leading observers. David Kushner takes readers inside the rags-to-riches adventure of two rebellious entrepreneurs who came of age to shape a generation. The vivid portrait reveals why their games are so violent and why their immersion in their brilliantly designed fantasy worlds offered them solace. And it shows how they channeled their fury and imagination into products that are a formative influence on our culture, from MTV to the Internet to Columbine. This is a story of friendship and betrayal, commerce and artistry—a powerful and compassionate account of what it's like to be young, driven, and wildly creative. “To my taste, the greatest American myth of cosmogenesis features the maladjusted, antisocial, genius teenage boy who, in the insular laboratory of his own bedroom, invents the universe from scratch. Masters of Doom is a particularly inspired rendition. Dave Kushner chronicles the saga of video game virtuosos Carmack and Romero with terrific brio. This is a page-turning, mythopoeic cyber-soap opera about two glamorous geek geniuses—and it should be read while scarfing down pepperoni pizza and swilling Diet Coke, with Queens of the Stone Age cranked up all the way.”—Mark Leyner, author of I Smell Esther Williams

The Sun, the Earth, and Near-earth Space John A. Eddy,2009 ... Concise explanations and descriptions - easily read and readily understood - of what we know of the chain of events and processes that connect the Sun to the Earth, with special emphasis on space weather and Sun-Climate.--Dear Reader.
