*Bold School* Weston Kieschnick, 2017-07-05 Endorsed by John Hattie: *Bold School*...needs to be an essential part of every educator's toolbox. Technology is awesome. Teachers are better. Blending new technologies into instruction is a non-negotiable if we are to help our students gain the skills they'll need to thrive in careers. And so too is educators' old school wisdom in planning intentional blended learning that works. Too often, sincere enthusiasm for technologies pushes proven instructional strategies to the wayside, all but guaranteeing blended learning that is all show and no go. *Bold School* is a book that restores teachers to their rightful place in effective instruction. *Bold School* thinkers embrace Blended pedagogies and Old school wisdom. In *Bold School*, teachers are put back into the blended learning equation. Blended learning is demystified and distilled into the powerful, yet simple *Bold School Framework for Strategic Blended Learning*(TM)--a methodology to help you meld purposeful technology use with your old school wisdom to enhance instruction and learning. After all, the goal of blended learning isn't technology--it's student achievement. With a *Bold School* mindset, every teacher is capable of finally delivering on the promise of blended learning.

**Transnational Belonging and Female Agency in the Arts** Basia Sliwinska, Catherine Dormor, 2022-10-20 Transnational Belonging and Female Agency in the Arts interrogates the politics of space expressed via womxn's artistic practices, which prioritise solidarity and collaboration across borders, imagining attentive geographies of difference. It considers belonging as a manifestation of processes of becoming that traverse borders and generate new spaces and forms of difference. In doing so, the book aims to catalyse mutual social relations founded upon responsibility and response-ability to each other. The transnational framework activates concerns around belonging at a time of intensified divisions, partitioning global

narratives, unequal trajectories and increasing violence against bodies of the most vulnerable, largely founded on Eurocentric paradigms of political, economic and cultural superiority. The contributors engage in a conversation signalling transversal thinking and artmaking in order to articulate and activate 'in-between' spaces. This is to welcome co-affective models of belonging that question versatile embodiments of subjectivity as both agentic and as interrelational. Organised around the triangulation of modes of belonging: spatial, affective and collective, overarched by a transnational lens that acknowledges non-hierarchical, local and socially relevant genealogies against universalising politics of globalisation, these essays consider afresh ways in which female agency disrupts borders and activates concerns around different forms of belonging, citizenship and transnationalisms. **The Linebacker** Gregory S. T. Charlton, 2017-05-31 The Linebacker is an action-packed modern-day thriller with real heroes and even more real villains. As a star NFL linebacker, Mike Johnson seems to have it all: money, fame, friends, and great teammates. But when he gets a concussion and is forced to sit out the last few games of the season, his life begins to change in ways he never would have expected. His doctor, a beautiful neurologist specializing in head and neck trauma, becomes not only his doctor but a new love in his life. The romance is interrupted, however, when Mike's team is bombed on their way to the final game of the season in London, England. The authorities are seemingly locked in red tape, and the hunt for the "perps" drags on. The linebacker flies to London and decides to pursue the criminals and terrorists behind the tragedy. He soon discovers that there is a lot more evil in the world than he ever realized. Is he in over his head? Will he be able to find the people who did this? Will he even make it back home to Kate? Mike is determined evil will not win this one. They will be brought to justice if it's the last thing he does.

How are these two media (to be) understood? How can film and video be defined as distinct, specific media? In this era of mixed moving media, it is vital to ask these questions precisely and especially on the media of video and film.
