The Penalty for Success Josephine Bolling McCall,2015-05-10 The Penalty For Success: My Father Was Lynched In Lowndes County Alabama tells the story of the murder of a black man in 1940s Lowndes County, Alabama. It is a story that changes the traditional definition of lynching in America. Until recent years, a lynching was associated with murder by hanging, usually in the presence of a mob of people. Sometimes it also included severe mutilation and burning of the body. Josephine Bolling McCall's story of her father's murder presents convincing evidence that he was lynched, although he was not hanged, mutilated, or burned before a crowd of people. Elmore Bolling was shot six times in the front of his body with a pistol and once in the back with a shotgun. The presumption is that two shooters were involved. In exploring the events in her father's life, Jo McCall demonstrates that, not only was he lynched, but he was murdered simply because he was too prosperous to be a black man in rural Lowndes County, Alabama.In recounting her father's story, Mrs. McCall explores her ancestral roots, dating back to the pre-civil war era, and the evolution of her family to a status of entrepreneurs during the 1940s in the heart of the Alabama Black Belt. She places her narrative in the historical context of the Lowndes County she knew as a child and had to, in her words, escape from with her mother and siblings in order to save their lives. Through years of research, including interviews with relatives and elderly Lowndes County residents, Mrs. Bolling sought and found answers to many troubling questions that she had about her family, especially about events in her father's life. Her journey of discovery presents a revealing narrative of a time, a place, and a people that challenges us to rethink the reality of life for both blacks and whites in a rural, southern community.

Thrilling Tom the Dancing Bug Stories Ruben Bolling,2004 Cartoonist Ruben Bolling's oddball strip, Tom the Dancing Bug, makes waves on a weekly basis. Recognized the past two years by the Association of Alternative Newsweeklies (AAN) as Best Cartoon, Tom the Dancing Bug is consistently funny, pointed without being dogmatic, and takes on subjects that no one else does . . . an oasis of keen intelligence in the comics page, according to the 2003 AAN judges. Here are just a couple headlines from the quirky strip's News of the Times: o?= Computer Loses to Human Candy Land Champion: Despite progress made in developing a computer program that can defeat a human chess champion, computer scientists confess that they have been unable to launch a significant challenge to human supremacy in the game of Candy Land.o?= Scientists Discover Media Has Quantum Effect on Reality: A team of physicists discovers that an electron is in an uncertain state until the media report on it. For example, once an electron was measured and reported upon by Mary Hart on the Celebrity Corner segment of Entertainment Tonight, it instantly assumed its nature as a particle.Tom the Dancing Bug's client list is diverse, representing the breadth of contemporary journalism: alternative newspapers, such as Dallas Observer and the Village Voice; prestigious daily newspapers, including the Washington Post and the Los Angeles Times; Salon.com, an acclaimed online magazine; and the New Yorker magazine.

S.I.B.lings Iris Bolling,2023-09-23 In a world where mortal connections are believed to be separated by six degrees, The Society of Intellectual Beings challenges this notion. Within their intertwined bloodlines, the degrees of separation are blurred. A young man, bestowed with divine powers, holds the key to saving humanity from its own destructive path. When Wade Tyson's biological parents tragically passed away within a day of each other, a dark conspiracy unravels before him and his brothers. Through his mother's journals, Wade discovers a realm of inexplicable abilities that lie dormant within him. Supported by his adopted brothers, Wade delves deeper into his newfound powers and uncovers a link to The Society of Intellectual Beings. Their investigation leads them to a scientist who plans to infiltrate the government using genetically engineered beings. Wade's brothers, along with other individuals who are connected to powerful positions within the government, were unwitting participants in the same experiment. As they strive to identify their siblings and thwart the sinister scheme, the burden falls on Wade and his untested abilities to prevent the scientist's murderous plans. As evil forces grip the nation, the boundaries between reality and the supernatural become increasingly blurred. Time is of the essence, leaving no room for hesitation. Will the siblings unite to save themselves and dismantle the designs of their creator before it's too late? The fate of their world hangs in the balance.

Pocahontas to Benjamin Bolling Oakley Dean Baldwin,2016-03-18 MYSTERIOUS BOLLINGS I will start by explaining the Red, the White, and the Blue Bollings: First, the Red Bollings are Pocahontas' descendants through Colonel Robert Bolling and Pocahontas' granddaughter Jane Rolfe. Second, the White Bollings are the non-Pocahontas descendants of Colonel Robert Bolling and his second wife Anne Stith, also called the Stith-Bollings. Third, the Blue or Mysterious Bollings who seem to have just come out of the Blue, no pun intended, claim to be Red Bollings from Major John Bolling and Elizabeth Blair. This book confirms six of the twelve Blue Bollings are indeed Red Bollings.

A Memoir of a Portion of the Bolling Family in England and Virginia (Classic Reprint) Robert Bolling,2015-07-09 Excerpt from A Memoir of a Portion of the Bolling Family in England and Virginia The manuscript from which this memoir is now, for the first time printed, is one of the few historical waifs which, having survived the dangers peculiar to such frail materials, among a people too regardless of their value, and the hazards incident to the ravages of war, have been preserved, and, by a singular good fortune was returned to its original owner after a lapse of more than sixty years. The memoir was written in the French language, by Robert Rolling, a gentleman of wealth, leisure and literary tastes, who has left other productions of his pen, of which, with some particulars of his history and accomplishments, an account will be found in the body of the work. The original became the property of a member of the family, William Robertson, Esq., and in 1803 he gave it to his son, then a youth, as an exercise in translation. The translator has since then filled many positions of honor and trust, the evidences of the confidence his fellow-citizens entertained of his merits, and has for years been well-known as Judge John Robertson. Subsequently the translation fell into the hands of John Randolph, of Roanoke, and was in his possession at the time of his death. It is well known, that he felt no little pride in his family history; and it is not, therefore, surprising, that he read the MS. with gratification, and showed his interest in it by inserting explanatory notes, by interlineation.
