Hieronymus Bosch Virginia Pitts Rembert, 2023-12-28 Hieronymus Bosch was painting terrifying, yet strangely likeable, monsters, long before computer games were invented, often with a touch of humour. His works are assertive statements about the mental dangers that befall those who abandon the teachings of Christ. With a life that spanned from 1450 to 1516, Bosch was born at the height of the Renaissance and witnessed its wars of religion. Medieval traditions and values were crumbling, thrusting man into a new universe where faith had lost some of its power and much of its magic. Bosch set out to warn doubters of the perils awaiting all and any who lost their faith in God. Believing that everyone had to make their own moral choices, he focused on themes of hell, heaven and lust. He brilliantly exploited the symbolism of a wide range of fruits and plants to lend sexual overtones to his themes.

Bosch and Bruegel Joseph Leo Koerner, 2023-10-17 A bold new interpretation of two northern Renaissance masters In this visually stunning and much anticipated book, acclaimed art historian Joseph Koerner casts the paintings of Hieronymus Bosch and Pieter Bruegel in a completely new light, revealing how the painting of everyday life was born from what seems its polar opposite: the depiction of an enemy hell-bent on destroying us. Supreme virtuoso of the bizarre, diabolic, and outlandish, Bosch embodies the phantasmagorical force of painting, while Bruegel, through his true-to-life landscapes and frank depictions of peasants, is the artistic avatar of the familiar and ordinary. But despite their differences, the works of these two artists are closely intertwined. Bruegel began his career imitating Bosch's fantasies, and it was Bosch who launched almost the whole repertoire of later genre painting. But Bosch depicts everyday life in order to reveal it as an alluring trap set by a metaphysical enemy at war with God, whereas Bruegel shows this enemy to be nothing but a humanly fabricated mask. Attending closely to the visual cunning of these two towering masters, Koerner uncovers art history's unexplored underside: the image itself as an enemy. An absorbing study of the dark paradoxes of human creativity, Bosch and Bruegel is also a timely account of how hatred can be converted into tolerance through the agency of art. It takes readers through all the major paintings, drawings, and prints of these two unforgettable artists—including Bosch's notoriously elusive Garden of Earthly Delights, which forms the core of this historical tour de force. Elegantly written and abundantly illustrated, the book is based on Koerner's A. W. Mellon Lectures in the Fine Arts, a series given annually at the National Gallery of Art, Washington. Published in association with the Center for Advanced Study in the Visual Arts, National Gallery of Art, Washington, DC Please note: All images in this ebook are presented in black and white and have been reduced in size.

Hieronymus Bosch Margaret D. Carroll, 2022-06-28 A new and exciting interpretation of Bosch's masterpiece, repositioning the triptych as a history of humanity and the natural world Hieronymus Bosch's (c. 1450-1516) Garden of Earthly Delights has elicited a sense of wonder for centuries. Over ten feet long and seven feet tall, it demands that we step back to take it in, while its surface, intricately covered with fantastical creatures in dazzling detail, draws us closer. In this highly original reassessment, Margaret D. Carroll reads the Garden as a speculation about the origin of the cosmos, the life-history of earth, and the transformation of humankind from the first age of world history to the last. Upending traditional interpretations of the painting as a moralizing depiction of God's wrath, human sinfulness, and demonic agency, Carroll argues that it represents Bosch's exploration of progressive changes in the human condition and the natural world. Extensively researched and beautifully illustrated, this groundbreaking secular analysis draws on new findings about Bosch's idiosyncratic painting technique, his curiosity about natural history, his connections to the Burgundian court, and his experience of contemporary politics. The book offers fresh insights into the artist and his most beloved and elusive painting.

Hieronymus Bosch Matthijs IJssink, Jos Koldeweij, A. M. Koldeweij, Charles Cornelis Maria Mooij, 2016-01-01 An accessible survey on a genius artist, published to accompany the 500th anniversary of Bosch's death Hieronymus Bosch (c. 1450-1516) lived and worked in 's-Hertogenbosch, the Netherlands, where he created enigmatic paintings and drawings full of bizarre creatures, phantasmagoric monsters, and terrifying nightmares. He also depicted detailed landscapes and found inspiration in fundamental moral concepts: seduction, sin, and judgment. This beautiful book accompanies a major exhibition on Bosch's work in his native city, and will feature important new research on his 25 known paintings and 20 drawings. The book, divided into six sections, covers the entirety of the artist's career. It discusses in detail Bosch's Pilgrimage of Life, Bosch and the Life of Christ, his role as a draughtsman, his depictions of saints, and his visualization of Judgment Day and the hereafter, among other topics, and is handsomely illustrated by new photography undertaken by the Bosch Research and Conservation Project Team.

Emotions, Communities, and Difference in Medieval Europe Maureen C. Miller, Edward Wheatley, 2017-01-12 This book of eleven essays by an international group of scholars in medieval studies honors the work of Barbara H. Rosenwein, Professor emerita of History at Loyola University Chicago. Part I, "Emotions and Communities," comprises six essays that make use of Rosenwein's well-known and widely influential work on the history of emotions and what Rosenwein has called "emotional communities." These essays employ a wide variety of source material such as chronicles, monastic records, painting, music theory, and religious practice to elucidate emotional commonalities among the medieval people who experienced them. The five essays in Part II, "Communities and Difference," explore different kinds of communities and have difference as their primary theme: difference between the poor and the unfree, between power as wielded by rulers or the clergy, between the western Mediterranean region and the rest of Europe, and between a supposedly great king and lesser ones.

Staging Words, Performing Worlds Gail A. Bulman, 2007 Staging Words presents new perspectives on Argentina, Cuba, Mexico, and Venezuela and their theater, by postulating that nation can be imagined and reconstructed through the deliberate performance of intertexts. The book shows how past artistic texts - other plays, stories, newspaper articles, songs, or paintings - can be manipulated and translated to create a new theatrical script, and that this new script can expose an innovative space for interpreting the nation. The introduction reviews theories of intertextuality, nation, and nationalism and applies them to Latin America. Each chapter studies two to three plays and shows how the intertexts open up hidden connections and border spaces within texts and between texts that the new writer and reader fill with significance, replacing the meaning of the pretext with their own. This new textual voice permits texts to be restaged, reconfigured, and imagined in a way that is purely Latin American.

Hieronymus Bosch Walter S. Gibson, 1983 No one can look at the paintings of Hieronymus Bosch without amazement and bewilderment. Professor Gibson shows that what seems inexplicable to us today the canvases full of torture, monsters, and leering devils was perfectly intelligible to the fifteenth-century viewer. The subjects of Bosch's paintings were in fact the overwhelming concerns of late medieval Europe: the Last Judgment, original sin, death, temptations of the flesh. The author describes each picture in detail, placing each work within the context of medieval folklore and religion, and explains that many of the acts portrayed in the pictures were visual translations of verbal puns or metaphors.

The Virgin of Guadalupe and the Conversos Marie-Theresa Hernández, 2014-07-15 Hidden lives, hidden history, and hidden manuscripts. In *The Virgin of Guadalupe and the Conversos*, Marie-Theresa Hernández unmask the secret lives of conversos and judaizantes and their likely influence on the Catholic Church in the New World. The terms converso and judaizante are often used for descendants of Spanish Jews (the Sephardi, or Sefarditas as they are sometimes called), who converted under duress to Christianity in the fourteenth and fifteenth centuries. There are few, if any, archival documents that prove the existence of judaizantes after the Spanish expulsion of the Jews in 1492 and the Portuguese expulsion in 1497, as it is unlikely that a secret Jew in sixteenth-century Spain would have documented his allegiance to the Law of Moses, thereby providing evidence for the Inquisition. On a Da Vinci Code – style quest, Hernández persisted in hunting for a trove of forgotten manuscripts at the New York Public Library. These documents, once unearthed, describe the Jewish/Christian religious beliefs of an early nineteenth-century Catholic priest in Mexico City, focusing on the relationship between the Virgin of Guadalupe and Judaism. With this discovery in hand, the author traces the cult of Guadalupe backwards to its fourteenth-century Spanish origins. The trail from that point forward can then be followed to its interface with early modern conversos and their descendants at the highest levels of the Church and the monarchy in Spain and Colonial Mexico. She describes key players who were somehow immune to the dangers of the Inquisition and who were allowed the freedom to display, albeit in a camouflaged manner, vestiges of their family's Jewish identity. By exploring the narratives produced by these individuals, Hernández reveals the existence of those conversos and judaizantes who did not return to the “covenantal bond of rabbinic law,” who did not publicly identify themselves as Jews, and who continued to exhibit in their influential writings a covert allegiance and longing for a Jewish past. This is a spellbinding and controversial story that offers a fresh perspective on the origins and history of conversos.

Monsters and Monstrosity in Jewish History Iris Idelson-Shein, Christian Wiese, 2019-02-21 This is the first study of monstrosity in Jewish history from the Middle Ages to modernity. Drawing on Jewish history, literary studies, folklore, art history and the history of science, it examines both the historical depiction of Jews as monsters and the creative use of monstrous beings in Jewish culture. Jews have occupied a liminal position within European society and culture, being deeply immersed yet outsiders to it. For this reason, they were perceived in terms of otherness and were often represented as monstrous beings. However, at the same time, European Jews invoked, with tantalizing ubiquity, images of magical, terrifying and hybrid beings in their texts, art and folktales. These images were used by Jewish authors and artists to push back against their own identification as monstrous or diabolical and to tackle concerns about religious persecution, assimilation and acculturation, gender and sexuality, science and technology and the rise of antisemitism. Bringing together an impressive cast of contributors from around the world, this fascinating volume is an invaluable resource for academics, postgraduates and advanced undergraduates interested in Jewish studies, as well as the history of monsters.

Trans/acting Jacqueline Eyring Bixler, Laurietz Seda, 2009 This collection offer a series of new essays authored by leading scholars of Latin American and U.S. Latino theater as well as the performance script *Mexterminator vs. The Global Predator*, written by Guillermo Gomez-Pena. The fourteen essays focus on contemporary Latin American and U.S. Latino plays and performances and challenge the meanings of genre, gender, race, cultural identity, and performance itself in the context of globalization and shifting borders. The concept of trans/acting, a term that connotes negotiation and/or exchange, provides the framework for essays that include such topics as transculturation, transnationalism, transgender, transgenre, translation, and adaptation. These individual studies of contemporary theater and performance arts are complimented by trans/actor Gomez-Pena's *Mexterminator vs. The Global Predator*, a striking transgressive script that underscores the performance nature of territorial and symbolic border crossings. Jacqueline Bixler is Alumni Distinguished Professor of Spanish at Virginia Tech. Laurietz Seda is Associate Professor of Spanish at the University of Connecticut-Storrs.
