🔍 **The Oxford Handbook of Social Media and Music Learning** Janice L. Waldron, Stephanie Horsley, Kari K. Veblen, 2020-09-23 The rapid pace of technological change over the last decade, particularly the rise of social media, has deeply affected the ways in which we interact as individuals, in groups, and among institutions to the point that it is difficult to grasp what it would be like to lose access to this everyday aspect of modern life. The Oxford Handbook of Social Media and Music Learning investigates the ways in which social media is now firmly engrained in all aspects of music education, providing fascinating insights into the ways in which social media, musical participation, and musical learning are increasingly entwined. In five sections of newly commissioned chapters, a refreshing mix of junior and senior scholars tackle questions concerning the potential for formal and informal musical learning in a networked society. Beginning with an overview of community identity and the new musical self through social media, scholars explore intersections between digital, musical, and social constructs including the vernacular of born-digital performance, musical identity and projection, and the expanding definition of musical empowerment. The fifth section brings this handbook to full practical fruition, featuring firsthand accounts of digital musicians, students, and teachers in the field. The Oxford Handbook of Social Media and Music Learning opens up an international discussion of what it means to be a musical community member in an age of technologically mediated relationships that break down the limits of geographical, cultural, political, and economic place.

🔍 **May I Quote You on That?** Stephen Spector, 2015-07-02 We all use language in different ways, depending on the situations we find ourselves in. In formal contexts we are usually expected to use a formal level of standard English—the English codified in grammars, usage guides, and dictionaries. In May I Quote You on That? Stephen Spector offers a new approach to learning standard English grammar and usage. The product of Spector's forty years of teaching courses on the English language, this book makes the conventions of formal writing and speech easier and more enjoyable to learn than traditional approaches usually do. Each lesson begins with humorous, interesting, or instructive illustrative quotations from writers, celebrities, and historical figures. Mark Twain appears alongside Winston Churchill, Yogi Berra, Woody Allen, Jerry Seinfeld, Stephen Colbert, Oprah, Lady Gaga, and many others. These quotations allow readers to infer the rules and word meanings from context. And if they stick in readers' memory, they can serve as models for the rules they exemplify. The lessons then offer short essays, written in a conversational style, on the history of the rules or the words being discussed. But because English is constantly changing, the essays offer not only the traditional rules of standard English, but also the current opinions of usage panelists, stylists, and language specialists. When rules are controversial, Spector offers advice about stylistic choices. A companion website features a workbook with practice drills. This book will appeal to anyone who wants to write well. It's aimed at those who are applying to college, taking the SAT, or writing a job application, an essay, or anything else that requires clear and effective communication.

🔍 **The Cookie Monster's Storybook** Emily Perl Kingsley, 1979 Cookie Monster relates four of his greatest schemes to secure cookies.

🔍 **Entertainment Media and Politics** Robert Lance Holbert, 2016-03-17 The prominence of politically-themed entertainment is evident across the global media landscape. Given its popularity, it is important to gain a firm understanding of the mechanisms through which this diverse and multi-faceted content can generate democratic outcomes. In addition, it is essential to isolate and predict properly the strength of a given effect and the conditions under which a specific outcome will become evident. The works contained in this edited volume explore affect- and cognition-driven processes of influence, recognizing that humans are both emotional and rational beings. In addition, empirical evidence is offered to isolate and compare specific types of political entertainment media content (e.g., different types of satire) and citizens' proclivities for this content (e.g., a person's affinity for political humor), in order to best understand the complex means by which entertainment media can generate political influence. Attention is also paid to expanding what can and should be defined as political entertainment media, which includes opinion-based political talk programming. The collection and its authors represent a global perspective to reflect the rise of political entertainment media as a global phenomenon. This book was originally published as a special issue of Mass Communication and Society.

🔍 **Aspen Allegations - A Sutton Massachusetts Mystery** Lisa Shea, A romantic yoga mystery infused by nature Morgan has become settled in her quiet life in Sutton, Massachusetts. Her peaceful morning yoga routine is assisted by her cat, Juliet. In the evening she guides her kayak across the placid surface of Lake Singletary. Everything is in its place. When Morgan stumbles across a dead body in the shadowy depths of Sutton Woods, her stability is knocked askew. Jason, the ranger who comes to her aid, provides a steady rock of support. The death seems at first an accident, but Morgan knows in her heart that a delicate strut of life has fallen out of balance. As Morgan and Jason delve into the mystery, still waters are stirred. Danger billows from the depths of Purgatory Chasm, from the twisted histories that stretch back decades. Can they unravel the tangled skeins before the past catches up with them? All author's proceeds of this series benefit battered women's shelters. Aspen Allegations is the first novel in the award-winning Sutton Massachusetts Mystery series. It is followed by Birch Blackguards. All novels in the Sutton Massachusetts Mystery series are written in a boots-on-the-ground, chapter-a-day format. On November 1st, author Lisa Shea went to the Sutton Woods, hiked through them, and then that evening she wrote up the actual sights and sounds of that visit. That was Chapter One. The same process held true for each subsequent day and location. By November 30th the book was laid out. Each book captures a moment in time; as a whole the series shows the progression of events, news, and nature in Sutton over the years. Lisa has lived in Sutton for nearly two decades and strives to craft stories which transport readers to her beautiful town. She offers a glimpse into Sutton's combination of centuries-old history and a modern, sliced-through-by-a-busy-highway existence. Lisa visits the actual locations mentioned in the story, experiences the atmosphere, and then infuses those rich colors, trilling bird-songs, and pungent fragrances into her story in a richly descriptive manner reminiscent of Annie Dillard's Pilgrim at Tinker Creek. Then toss in an ample seasoning of local culinary delights, and this is the world of the Sutton Massachusetts Mystery Series!
