No Stopping Us Now Gail Collins, 2019-10-15 The beloved New York Times columnist inspires women to embrace aging and look at it with a new sense of hope in this lively, fascinating, eye-opening look at women and aging in America (Parade Magazine). You're not getting older, you're getting better, or so promised the famous 1970's ad -- for women's hair dye. Americans have always had a complicated relationship with aging: embrace it, deny it, defer

it -- and women have been on the front lines of the battle, willingly or not. In her lively social history of American women and aging, acclaimed New York Times columnist Gail Collins illustrates the ways in which age is an arbitrary concept that has swung back and forth over the centuries. From Plymouth Rock (when a woman was considered marriageable if civil and under fifty years of age), to a few generations later, when they were quietly retired to elderdom once they had passed the optimum age for reproduction, to recent decades when freedom from striving in the workplace and caretaking at home is often celebrated, to the first female nominee for president, American attitudes towards age have been a moving target. Gail Collins gives women reason to expect the best of their golden years.

Call Sign Chaos Jim Mattis, Bing West, 2021-03-02 #1 NEW YORK TIMES BESTSELLER • A clear-eyed account of learning how to lead in a chaotic world, by General Jim Mattis—the former Secretary of Defense and one of the most formidable strategic thinkers of our time—and Bing West, a former assistant secretary of defense and combat Marine. “A four-star general’s five-star memoir.”—The Wall Street Journal *Call Sign Chaos* is the account of Jim Mattis’s storied career, from wide-ranging leadership roles in three wars to ultimately commanding a quarter of a million troops across the Middle East. Along the way, Mattis recounts his foundational experiences as a leader, extracting the lessons he has learned about the nature of warfighting and peacemaking, the importance of allies, and the strategic dilemmas—and short-sighted thinking—now facing our nation. He makes it clear why America must return to a strategic footing so as not to continue winning battles but fighting inconclusive wars. Mattis divides his book into three parts: Direct Leadership, Executive Leadership, and Strategic Leadership. In the first part, Mattis recalls his early experiences leading Marines into battle, when

he knew his troops as well as his own brothers. In the second part, he explores what it means to command thousands of troops and how to adapt your leadership style to ensure your intent is understood by your most junior troops so that they can own their mission. In the third part, Mattis describes the challenges and techniques of leadership at the strategic level, where military leaders reconcile war's grim realities with political leaders' human aspirations, where complexity reigns and the consequences of imprudence are severe, even catastrophic. Call Sign Chaos is a memoir of a life of warfighting and lifelong learning, following along as Mattis rises from Marine recruit to four-star general. It is a journey about learning to lead and a story about how he, through constant study and action, developed a unique leadership philosophy, one relevant to us all.

Video Marketing Made Simple For Business Owners Raymond Wayne, 2020-09-18 Video Marketing is literally on fire! Embrace the Power and Potential of Video Marketing And use this medium to catapult your web business to the next level. Check out on “ Video Marketing Made Simple For Business Owners ” Finally, you have this once in lifetime opportunity to get your hands on the

video marketing tools & Strategies that are generating million dollar revenues . Businesses invest a lot of time determining who their target demographic is, and for good reason. When a business knows which demographic is buying and using their product, it's going to be easier to market to that demographic. Middle-aged women are going to respond to ads differently than millennials; and what one group finds engaging and interesting, another may not. So it's important for businesses to understand what demographic they are targeting so they get the marketing just right for them. But, businesses don't have to go to such trouble when they're using video marketing because video marketing reaches every demographic and is interesting to every demographic. And this is because men and women, and people of every age, love video. As long as it's interesting and creative, people will like a video regardless of their background or history. This can be a bonus for businesses that know who their demographic is, simply because more people will share it and like it, even if they don't make up part of the business' demographic. But it's also especially good news for businesses with a shifting demographic, or for those that don't know how makes up their demographic. That happens sometimes when a business changes directions or changes their product or service slightly, and then they have to start back at square one with their marketing efforts. But when a business has already created videos as part of their marketing plan, they don't have to change a thing because those videos will already be suitable for every demographic. Imagine one type

of marketing that appeals to every single demographic. It seems too good to be true, but it's not. That type of marketing is video marketing, and reaching every demographic is just one very good reason why every business should be investing in it.

Skyping the Family Richard Harper, Rod Watson, Christian Licoppe, 2019-08-13 This collection is one of the first in-depth studies of video calling in family and domestic life. It explores the reasons that people themselves provide to explain their video calling, investigates how these reasons make that calling accountable and how, in turn, these reasons come to be things talked about in the calls themselves. The research shows how video calling is part of the currency of contemporary family affection: such calls are not just about keeping in touch, they are a way of loving too; and they are sometimes a way of fighting as well. 'Skyping' or 'Facetiming' might be frequent and can seem mundane – just a question of routine – but what they entail is a measure of important things to families. This makes this collection of interest to anyone concerned with family life and the evolving ways in which technology has a role in it. Stop Teaching Our Kids to Kill Lt. Col. Dave Grossman, Gloria DeGaetano, 2009-11-04 There is perhaps no bigger or more important issue in America at present than youth violence. Columbine, Sandy Hook, Aurora: We know them all too well, and for all the wrong reasons: kids, some as young as eleven years old, taking up arms and, with deadly, frightening accuracy, murdering anyone in their paths. What is going on? According to the authors of *Stop Teaching Our Kids to Kill*, there is blame to be laid right at the feet of the makers of violent video games (called murder trainers by one expert), the TV networks, and the Hollywood movie studios--the people responsible for the fact that children witness literally thousands of violent images a day. Authors Lt. Col. Dave Grossman and Gloria DeGaetano offer incontrovertible evidence, much of it based on recent major scientific studies and empirical research, that movies, TV, and video games are not just conditioning children to be violent--and unaware of the consequences of that violence--but are teaching the very mechanics of killing. Their book is a

much-needed call to action for every parent, teacher, and citizen to help our children and stop the wave of killing and violence gripping America's youth. And, most important, it is a blueprint for us all on how that can be achieved. In Paducah, Kentucky, Michael Carneal, a fourteen-year-old boy who stole a gun from a neighbor's house, brought it to school and fired eight shots at a student prayer group as they were breaking up. Prior to this event, he had never shot a real gun before. Of the eight shots he fired, he had eight hits on eight different kids. Five were head shots, the other three upper torso. The result was three dead, one paralyzed for life. The FBI says that the average, experienced, qualified law enforcement officer, in the average shootout, at an average range of seven yards, hits with less than one bullet in five. How does a child acquire such killing ability? What would lead him to go out and commit such a horrific act?

Video Conferencing over IP: Configure, Secure, and Troubleshoot Michael Gough, 2006-06-07 This book de-mystifies the technology behind video conferencing and provides single users and small enterprises with the information they need to deploy video conferencing efficiently and cost effectively. For many years, the promise of high quality, low cost video conferencing has been an attractive solution for businesses interested in cutting travel costs while maintaining the benefits of face-to-face contact. Unfortunately, most solutions never lived up to the promise, due primarily to lack of internet bandwidth and poorly developed protocols. That's no all

changed. The capacity has been created, the hardware works, and businesses are more eager than ever to cut down on travel costs. * Budget conscious methods for deploying Video over IP in small to medium enterprises * Coverage of Cisco, Microsoft, Skype, AOL, Google, VidiTel and many other products * How to identify and resolve nagging quality of service issues such as transmission delays and out of synch video-to-voice feeds
