Uncover Your Light: Volume 2, 2: Empowering Stories of Hope and Resilience Becky Russell,Andrea Beneteau,Lisa Marie Howard,Stéphanie Rourke Jackson,Christiane Ghakis,Molly Phair,Helen Harwood Snell,Laura Dawson-McCormack,Co Authors,Sylvia Calleri,Sonya van Stee,Eva Wong,Rupinder Sidhu,Christina Tam,Siobhan Carlin,Lisa Pinnock,Sandra Blais,2022-08-23 True transformation happens amidst darkness and doubt but uncovering the brilliance that awaits you is worth the effort. The world needs you to shine your light brightly. *Uncover Your Light* explores the concept of how to shine brightly when you've lost touch with who you are. Whether you are struggling with a life transition, personal upheaval, or gradual detachment over time, the question is: How do you begin to find your true self again? Would you even know her if you bumped into the real you? This book is ideal for anyone who has come through the other side of a challenging situation with a deeper sense of self, realizing they can live an empowered life on their

terms. Our coauthors have all faced the fear of not knowing where to start when the path seemed dark and unfamiliar. They want to provide a roadmap for others who are on similar journeys. These personal stories of hope and resilience are about being the best version of yourself, which is a profound act of self-love. Taking this journey of self-discovery will allow you to reconnect with the beauty and power that lies within: Get to know her, love her, and celebrate her. Your radiant light is waiting to shine brightly, and to inspire those around you to do the same.

Italian/American Short Films and Music Videos Anthony Julian Tamburri, 2002 This book constitutes a first look at the little-known phenomenon of the Italian/American short film. What becomes apparent is the conspicuous interest these members of the newer generation of Italian/American filmmakers exhibit vis-a-vis their ethnicity, be such films a fiction, a documentary, or a music video. Equally significant is the lens through which they see their Italian/American heritage. While the older generations concentrated more on the by now well-known thematic of immigration and organized crime, as well as the debunking thereof, these younger artists/performers of short films have added to the general theme of heritage, at various degrees, that of race, gender, and sexuality. Anthony Julian Tamburri is a professor of Italian at Florida Atlantic University, where he is also chair of the Department of Languages and Linguistics. He is the author of seven other books, including *A Semiotic of Ethnicity: In (Re)cognition of the Italian/American Writer* and *To Hyphenate or Not to Hyphenate: The Italian/American Writer: Or, An Other American?* and is editor or co-editor of twelve collections, including the best-selling anthology *From the Margin* (1991/2000) and *Screening Ethnicity* (2002). He is a co-founding editor of *Voices in Italian Americana: A Literary and Cultural Review*.

Chirality in Drug Research Eric Francotte, Wolfgang Lindner, 2007-09-24 Divided into the three main sections of synthesis, analysis and drug development, this handbook covers all stages of the drug development process, including large-scale synthesis and purification of chirally pure pharmaceuticals. The two editors from academia and a major pharmaceutical company have assembled an experienced, international team who provide first-hand practical advice and report previously unpublished data. In the first section, the isolation of chiral drugs from natural sources, their production in enzymatic processes and the resolution of racemic mixtures in preparative chromatography are outlined in separate chapters. For the section on qualitative and quantitative analysis, enantioselective chromatographic methods are presented as well as optical methods and CE-MS, while the final section deals with the pharmacology, pharmacokinetics and metabolic aspects of chiral drugs, devoting whole chapters to stereoselective drug binding and modeling chiral drug-receptor interactions. With its unique industry-relevant aspects, this is a must for medicinal and pharmaceutical chemists.

Child Second Language Acquisition Sonia Rocca, 2007 As one of the first books in child second language acquisition (SLA), this book focuses on the core area of tense-aspect morphology, reporting on three L1-Italian children learning L2 English vs. three L1-English children learning L2 Italian. An innovative longitudinal/bidirectional research design, where two languages represent both source and target, show effects of language transfer in learners that, because of their age, still have potential to become native-speakers of the target. An unusual feature of this book is that relevant studies of acquisition of L2 Italian, some heretofore only in Italian, are reviewed, incorporated into the study and made available to a more general audience. Though the main focus is on child SLA, crucial comparisons to both first language acquisition vs. adult SLA are presented. This approach will thus be of interest more generally to readers in first and second language acquisition and child development.

The L2 Acquisition of Tense-aspect Morphology M. Rafael Salaberry, Yasuhiro Shirai, 2002 The present volume provides a cross-linguistic perspective

on the development of tense-aspect in L2 acquisition. Data-based studies included in this volume deal with the analysis of a wide range of target languages: Chinese, English, Italian, French, Japanese, and Spanish. Theoretical frameworks used to evaluate the nature of the empirical evidence range from generative grammar to functional-typological linguistics. Several studies focus on the development of past tense markers, but other issues such as the acquisition of a future marker are also addressed. An introductory chapter outlines some theoretical and methodological issues that serves as relevant preliminary reading for most of the chapters included in this volume. Additionally, a preliminary chapter offers a substantive review of first language acquisition of tense-aspect morphology. The analysis of the various languages included in this volume significantly advances our understanding of this phenomenon, and will serve as an important basis for future research.

Dark Age Liguria Ross Balzaretti, 2013-03-28 Dark Age Liguria surveys the history of the Liguria region from c. 400 to c. 1050 AD, to provide a detailed case study of what happened here as Roman imperial rule ended. The book pulls together all the surviving evidence, written, archaeological, artistic and ecological, to propose that, in contrast with later periods, Ligurians looked north as much as they gazed out to sea. Genoese history under Byzantines, Lombards, Carolingians and Ottonians is compared with that of other coastal settlements, including Albenga, Noli, Perti and Savona and the less-studied but fascinating inland valleys, the Aveto, Polcevera, Stura and Vara. The book draws also on more than fifteen years of fieldwork in and around the small town of Varese Ligure (La Spezia province) to suggest some new methods for investigating the Dark Age past.

Biology of Termites: a Modern Synthesis David Edward Bignell, Yves Roisin, Nathan Lo, 2010-10-20 Biology of Termites, a Modern Synthesis brings together the major advances in termite biology, phylogenetics, social evolution and biogeography. In this new volume, David Bignell, Yves Roisin and Nathan Lo have brought together leading experts on termite taxonomy, behaviour, genetics, caste differentiation, physiology, microbiology, mound architecture, biogeography and control. Very strong evolutionary and developmental themes run through the individual chapters, fed by new data streams from molecular sequencing, and for the first time it is possible to compare the social organisation of termites with that of the social Hymenoptera, focusing on caste determination, population genetics, cooperative behaviour, nest hygiene and symbioses with microorganisms. New chapters have been added on termite pheromones, termites as pests of agriculture and on destructive invasive species.
