**Wow! I'm 80!** Samuel Solomon, 2019-08-29 When I reached my 80th birthday, I was reminded of my thinking when I was in my late 30's and my father was 72. He proudly stated he was a member of SCORE (Service Corps of Retired Executives) and was helping local businesses. I had difficulty believing he was capable of helping others based on his advanced age. In retrospect, I now realize he was almost 10 years younger than I am, so I am documenting, to share with others, what someone in his 80's can do.

Out and Beyond Nanisi Barrett D'ArnuK, 2016-01-31 Cameron Andrews of the Baltimore PD went to prison as part of a deep undercover sting. Having exposed the drug cabal in the prison, she has been released on parole. But before Cam has time to pick up the pieces of her life, the drug ring recruits her to join their operation on the outside. Since Cam and her handlers don't know who runs the drug operation, this is a welcome, if unexpected, windfall. The team leaps into action, and soon Cam is learning about the people involved, the manufacturing of the drugs, and the delivery routes. But things are perilous. Her parole officer starts asking uncomfortable questions, and her relationship with Michael is difficult because, though they are deeply committed to one another, they live in different cities. And when the ring is busted and Cam escapes capture, the suspicions of the gang leaders zero in on Cam. Can she manage to deflect suspicion and stay undercover before she ends up back in prison ... or dead?

Baker Annalee Martelli is not a Holiday Person™. A family feud and a contentious divorce make the holiday insistence on family togetherness depressing, and she much prefers hiding away from humanity in the kitchen of the tiny NYC bakery where she works. If that wasn't enough to make her grind her teeth in November, her boss suddenly goes MIA after a "quick weekend trip" to her quaint hometown upstate turns into weeks of unanswered calls and emails. With the crazy holiday rush approaching, Annalee girds her loins and heads to Pine Lake to find her boss and save her job. While avoiding getting nature on her boots. Cam Berijssoen has lived his entire life in Pine Lake, the perfectly picturesque jewel of the Hudson Valley where frost sparkles on the pines, there's always a parade or festival in the town square, and an unusual number of their visitors decide to stay. Permanently. He helps run his parents' hotel and dreams of a life that doesn't involve so many trees (he has allergies) and achieving the happiness everyone else seems to find in Pine Lake. Annalee and Cam both have good reason to want out of Pine Lake. When a series of events drops a world of possibilities in their laps, it seems to be time to take a leap of faith. Can a grumpy city girl and a charming master of hospitality make their dreams come true together? (But not like...together together. Right?) Pine Lake has one rule - Fall in Love. Or Else.

Imaging Our Solar System: The Evolution of Space Mission Cameras and Instruments Bernard Henin,2022-01-28 As we speak, stunning new snapshots of our Solar System are being transmitted to Earth by a fleet of space probes, landers, and rovers. Yet nowadays, it is all too easy to take such images for granted amidst the deluge of competing visuals we scroll through every day. To truly understand the value of these incredible space photos, we first need to understand the tools that made them possible. This is the story of imaging instruments in space, detailing all the technological missteps and marvels that have allowed us to view planetary bodies like never before. From the rudimentary cameras launched in the 1950's to the cutting-edge imaging instruments onboard the Mars Perseverance rover, this book covers more than 100 imaging systems sent aboard various spacecraft to explore near and distant planetary bodies. Featured within are some of the most striking images ever received by these pioneering instruments, including Voyager's Pale Blue Dot, Apollo's Blue Marble, Venera's images from the surface of Venus, Huygens' images of Titan, New Horizon's images of Pluto and Arrokoth, and much more. These are objects that are moving very fast, or that we just ignore. Ultra high-speed cameras invite us to a wonderland of microseconds. There Alice (the reader) meets a ultra high-speed rabbit (this volume) and travels together through this wonderland from the year 1887 to 2017. They go to the horse riding ground and see how a horse gallops. The rabbit takes her to a showroom where various cameras and illumination devices are presented. Then, he sends Alice into semiconductor labyrinths, wind tunnels, mechanical processing factories, and dangerous explosive fields. Sometimes Alice is large, and at other times she is very small. She sits even inside a car engine. She falls down together with a droplet. She enters a microbubble, is thrown out with a jet stream, and finds herself in a human body. Waking up from her dream, she sees children playing a game: "I see what you do not see, and this is....". Alice thinks: "The ultra high-speed rabbit showed me many things which I had never seen.
