The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

bythepeople.gov James M. Gilmore, 2007-11-14 Andy Cohan, a computer geek fresh out of college, lands a job as a virtual reality programmer at

United States Satellite Television, America's largest HDTV provider. Learning that USS-TV will provide a massive bonus to any employee who comes up with a new blockbuster reality television show and wanting to impress the co-worker who's won his heart, Andy creates the reality series "By the People." "By the People" is catapulted to success with Andy's Video Ion Refractor (VIR), a device that intercepts video ion radiation from HDTV, uses it to identify the viewer, and sends the information back to USS-TV's master computer. The VIR then identifies whether the viewer is a registered voter. Unlike the Internet, VIR information cannot be hacked, which means people can safely, securely, and conveniently vote in political elections through their TV set. Beyond the show, the implications for Andy's technology are mind-boggling. VIR could empower ordinary American citizens to take the government away from the politicians and turn it back over to the people who can keep a watchful eye on the state of the nation and vote, right on the spot, about what they want done. What begins as one young man's simple attempt to snag a bonus and get the girl could end in Andy gaining the potentially unenviable power to control the destiny of the entire world.

Elena seems to know exactly who they are and what they want. But she is certain about one thing - she has no interest in going to prom. New Year's Eve Murder Leslie Meier,2006-11-01 After the annual parade of Christmas presents in Tinker's Cove has ended, Lucy Stone and her daughter Elizabeth are ready to ring in the new year in style. Elizabeth has won mother/daughter winter makeovers in Manhattan from Jolie magazine! But the all-expenses-paid trip is bound to have some hidden costs--and one of them is murder. . . And things turn downright ugly when self-absorbed fashion editor Nadine Nelson falls mysteriously ill and then dies. . . Lucy saw first-hand some of the backstabbing going on at Jolie. And the red-hot rumor mill soon reveals that the cliquish connection among the magazine's cabal of high-style executives has stirred up plenty of bad blood over the years. Now, it's up to Lucy to dress down a killer before the ball drops in Times Square. . .

The Art of Stand Up Paddling Ben Marcus,2015-11-15 Stand up paddling (SUP) is experiencing fast growth in the United States and around the world. It can be enjoyed on inland lakes and rivers, as well as on the ocean and in the surf—but most important, it's fun and a great way to stay fit. The Art of Stand Up Paddling will include everything both new and not-so-new paddlers need to know—from buying a board and getting started on your local lake to paddling rivers and surfing ocean waves. This revised edition features a brand new chapter on SUP Yoga, which combines the passion of yoga with the art of stand up paddling. Also included is a fascinating and controversial history of stand up paddling, which, although new to many, dates back hundreds of years to Peruvian fishermen, Venetian gondoliers, and Hawaiian beach boys. Chapters on surf-break etiquette, fitness, yoga, and the exhilarating potential for adventures on a stand up paddleboard makes this a complete resource for beginners and experienced paddlers alike.

Time's a Thief B.G. Firmani,2017-05-02 Eighties New York springs to gritty, vibrant life in this piercingly romantic and compulsively readable coming-

of-age novel. A beautiful, sad, funny, altogether bewitching debut Francesca Chess Varani is an ultra-bright, sassy, but vulnerable Barnard freshman from a blue-collar background in the vibrantly gritty New York City of the mid-eighties. She strikes up a volatile and somewhat toxic friendship with drama-queen classmate Kendra Marr-Löwenstein, and falls into the bewitching orbit of her Salingeresque, high-toned family. Upon graduation, she moves into the Marr-Löwenstein house in the West Village as a secretary/girl-of-all-work to the *soignée* literary intellectual Clarice Marr (think Susan Sontag but blondly coiffed and dressed in Chanel) and receives the sentimental education and emotional roughing up New York bestows on all of its new arrivals—including a love affair with Clarice's glamorously damaged son, Jerry. The story is related by Chess in sadder but wiser fashion from the distance of a financially beset 2008 and the depths of a crap job taken of necessity, tinged with the poignancy of time and choices made and not made.

Trouble Wore Red Chris Lewis,2023-10-16 Robert “Rocky” Mountain, a private investigator from Mars, got the kind of job he loved: taking down a crooked politician. It was back on Commerce Station, his old haunt, but he thought he could slip in and out. Nice and clean. But then his ex, Penny, shows up offering the kind of job he hated: personal. He would've turned her down. He should've, but that was before he saw what they'd done to her apartment. Her life. Her. And he found that he could not help but mix pleasure with business, all into one explosive cocktail. So Rocky calls in his team from Mars to help. Kershaw, his security expert, who thought a good weekend was hanging off the side of a building. Kim, his hard-nosed assistant, who'll make sure he charges Penny expenses and overtime. However, the more Rocky investigates, the more everything is just a little too perfect, and he starts to worry if he's been playing with trouble.

Lights of Dragomar Marc Krautwedel,2022-08-17 ‘We have to be prepared for everything, even for someone who destroys everything so that no one has it, not even him.’ They stood side by side again in silence on the terrace, high up on the mountain, watching the play of colours in the night sky. They heard the wind and the occasional cracking of ice floes piled on top of each other in the ocean in front of them. The waves that thundered recurrently against the rocks were a low murmur up on the mountain, accompanied by the fresh smell of the sea. ‘Will we win?’ asked Galbohei, without taking his eyes off the sky glow. ‘We have the advantage,’ replied Eremides. ‘We know the value of freedom and we don’t want to lose it. We know friendship and will not give it up. We know love and want to be able to continue to love.’ Antarctica, circa 1540. Two aging swashbucklers confer on how to defend or stand their ground against a hostile force they know. Things look tight. They live on an island, in a mountain rich in tradition and myths. It is called “The Mountain of Hope”. Actually, it is Dragomar, supposedly the ancient home of dragons and their successful “cultural successors”. A slightly

pubescent youth is bored far away from Dragomar. Everything is trivial, transparent and repeats itself in a daily rhythm. He would like to travel the ocean but he is not allowed to yet. He dreams of adventures and battles that seem so real to him, as if he were having a déjà vu with a claim to historical truth. Fire seems to come out of his nose and he changes in other ways as well. He is drawn toward a distant island where there is a mountain with a crystal shining brightly and mysteriously at the top. He is told that he is a foster child and that his grandfather, his last relative, lives on the distant island. The budding hero sets out, meets various people, develops physical and mental abilities, is kidnapped. There is a sea battle for him, because he is supposed to be something like an heir to the throne. He learns about history, past forms of government and more about ancient myths. So much for the plot. That Italian emperor penguins completely deface and shred the “Band of Brothers” speech of Henry V; that a black dragon can spit black holes and is about to merge into the matrix; that really fascistic meanies are afraid of the crowd of penguins and are prone to vulgarity; that the topic of separation of powers is a real problem ... all this fills the pages in such a way that it is irrelevant whether there is a human, animal or dragon giving something to the best. A little excursion into humanity. A little unexplained philosophy; a little unexplained physics; a little unexplainable behaviour. Myths, legends, magic - and everyday life.
