Social Live Video Streaming In Your Influencer Marketing Strategy Laura

Maya,2022-04-10 Online Video Marketing has again breached a new level . Video has been very accessible to anyone with internet access, both to watch and to produce. While the technology is trending towards higher quality video on a professional level ,but with new enhancement , its ease of use has made it possible for anyone to hop onto their laptop and create their own video in under an hour The global live video streaming market is estimated to reach \$128 billion by 2026 and is one of the most valuable vehicles for marketers and brand advertising. Live streaming on social media is a relatively new phenomenon but more and more brands are adapting their social media strategies and influencer marketing strategies. Many Online Marketers are doing a crossover to social live video streaming and the trend is catching steam. Live video streaming differs from video content in that video content is recorded and accessed directly by the user. It takes the form of a broadcast in which the creator videos be transferred simultaneously to several users. A live video stream transmits the video in real time over the Internet. You don't need to be 'sold' on the reasons why you need a video marketing strategy, but let's be real, it feels daunting to even start. Creating video content sounds simple enough on paper but when it comes down to actually whipping out your iPhone and going Live . Where do you even start? Yes, it can be intimidating thinking of yourself as the star of your videos; however, is there a better way to reach your ideal audience and showcase your coaching style AND expertise all at the same time? Remember, don't overthink this process. You don't need a fully equipped studio, nor do you need a hair and makeup team. Everyday people film millions of videos by simply hitting the Record button on their smart phones. Give it a try...I bet you'll be surprised at how easy the whole process is. With a well crafted workbook as your guidance ,this book will guide readers

to explore with the type of content they wish to record and publish , get some decent feedback or measure on analytics about what types of video perform best for you. Are you ready to get started?

The Mobile Photographer ,2014-11-17 It's been said that, with smartphones, everyone is a photographer. There is a snide implication with that statement—that camera phones aren't "real" cameras and that the people who use them aren't "real" photographers. In this book, Robert Fisher

proves that today's Android devices offer cameras that are remarkably powerful and more than capable of producing images that rival those made with more "serious" equipment. In this book, Fisher guides readers through the menus of the Android operating system, helping them to understand how to choose and use out-of-the-box controls for better images. Next, he covers add-on accessories and applications designed to enhance the devices' capabilities. While the photographic capabilities of the "base" camera are pretty terrific and will meet with rave reviews from many users, the camera really produces images that sing when suited up with DSLR functions, filters, and postproduction effects—all of which Fisher covers with prowess and technical skill.

Digital Culture & Society (DCS) Ramón Reichert,Annika Richterich,Pablo Abend,Mathias Fuchs,Karin Wenz,2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and

practice.

Transforming our World Through Design, Diversity and Education G. Craddock, C. Doran, L. McNutt, 2018-10-18 Good design is enabling, and each and every one of us is a designer. Universal Design is widely recognized an important concept that should be incorporated in all person-centred policies. The United Nations Convention on the Rights of Persons with Disabilities (UNCRPD) clearly stipulates that the most effective way of delivering on the promise of an inclusive society is through a

Universal Design approach. Sitting at the intersection of the fields of Higher Education and Universal Design, this book presents papers delivered at the Universal Design and Higher Education in Transformation Congress (UDHEIT2018), held in Dublin, Ireland, from 30 October to 2 November 2018. This event brings together key experts from industry, education, and government and non-government organization sectors to share experiences and knowledge with all participants. The 86 papers included here are grouped under 17 headings, or themes, ranging from education and digital learning through healthcare to engagement with industry and urban design. Celebrating and integrating all that is good in design, diversity and education, this book will be a valuable resource for all those interested in the inspiring and empowering developments in both Universal Design and higher education.
