Badass Pix with a Cheap-Ass Camera Annie Mack, 2021-02-19 Badass and Badass Pix is not a genre. It's an attitude, an approach, a vibe. More than anything, it's Art Photography, which is a h-u-g-e and diverse categorization. It's you being a photoartist, not just a photographer. It's having the self-confidence to take risks, break the rules, and venture outside norms. It's rebellion! Anarchy! A fight for freedom! But you know: without jail time, a rap sheet, a prison tattoo, or stitches. Badass can be photojournalism, scenery, portraits. It is fun to screw around with all of those and add twists that baffle viewers. Badass is futzing around outside the boundaries of technology, good taste, or conventional artistic theory. Badass uses your tools, skills, and heart to make Art -- not just 'nice' photos. Badass Pix are squinted at, disqualified from contests, or vaguely labeled mixed media, digital graphics, or weird sh*t. Most of the work I call Badass, illustrated here, is found-art photography, which more-or-less means art made by recording the image as one finds it. Simply...as is. Now I can imagine you saying, Well, duh, that's pretty much all photography, now isn't it? Not really: here's some help. Badass is trying to find images that most people miss or never see at all because it takes imagination (some might say awareness. Or both) to recognize them.

Visual Stories Vincent Laforet, 2011-11-08 There is an art to capturing a photo that tells a story. You need to know what belongs in the frame and what to leave out, what to emphasize in the photo that adds to the story, and how to use light, shape, and color all to express meaning while lending aesthetic value to the image itself. Vincent Laforet - Pulitzer Prize-winning photographer and voted one of the 100 Most Influential People in Photography by American Photo - gives a rare look into the art of photography through his lens as a master editorial and commercial photographer. This beautiful book contains full-color spreads, with scene details and technical information to help tell the visual stories of larger-than-life life events such as Hurricane Katrina, the Olympic Games, and the war zone of Pakistan. With over 100 photos included, you will gain important insights into how you can achieve similar looks-blending what the camera does with the stories you want to tell. Learn how the principles of photojournalism can be applied to telling stories with a single image. Use light, shape, and color to create rich photos that tell the story as well as add sensitivity to beauty and emotion. Learn how the relationship between foreground and background can be used to creatively produce images with strong impact, and choose lenses based on this discovery. Understand the value of an image and convey a more in-depth story of the subject in any genre of photography, including landscapes, close-ups, portraits, action shots, aerials, and more. Receive an up-close and personal view of the author and his work by watching over 60 videos on the accompanying DVD. All of Peachpit's eBooks contain the same content as the print edition. You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for Where are the lesson files? Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this ebook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.
